DoD 4500.32-R VOLUME II

FOREWORD

Military Standard Transportation and Movement Procedures (MILSTAMP) is published by direction of the Assistant Secretary of Defense (Acquisition and Logistics) under authority of DoD Directive 4000.25, Administration of Defense Logistics Standard Systems.

This publication is a complete revision of Volume II, 22 Feb 82. Formal Changes 1 through 5 and Interim Changes 6-1 through 6-5, previously distributed by administrative messages through AIG 4563, have been incorporated.

Volume II contains procedures and Transportation Account Codes (TACs) for use in conjunction with MILSTAMP Volume I to account for transportation funding of Service/Agency shipments within the Defense Transportation System (DTS).

The Transportation Operating Agencies (TOAs) bill authorized users of the DTS for services rendered. This information is derived from the Transportation Control and Movement Data (TCMD). To preclude erroneous billing and facilitate Service/Agency disbursements, it is imperative that TACs and other pertinent information contained in the TCMD be complete and accurate.

The substantial reformatting and changes incorporated into this publication necessitate careful review prior to use. The implementation date of this regulation is 15 Feb 87. Requests for information pertaining to MILSTAMP, Volume II, should be directed through channels to the TAC Coordinator designated in each chapter.

A standard numbering system is utilized throughout this revision. Each of the 11 chapters is divided into sections, paragraphs, and subparagraphs, viz, chapter 2, section A, paragraph 3, subparagraph a (1). In every instance where there is a carryover to a succeeding page, the carryover paragraphing information will appear in the upper left hand corner of the new page. For example: A.3.a.(1) (cont.)

Pages are numbered sequentially within each chapter indicating chapter, section, and page. For example, 2-A-1, 2-A-2, 2-A-3; 3-A-1, 3-A-2, 3-A-3, etc.

Features of this publication include:

Each chapter contains a detailed Table of Contents. These are in addition to the general Table of Contents for the entire volume.

This regulation supersedes DoD 4500.32-R, Volume II, 22 Feb 82, and Changes 1 thru 5.

Standard paragraphing for each chapter; i.e., the same type information will appear in the same numbered paragraph in each chapter.

Decision tables in each Service/Agency chapter to assist in determining and assigning correct TACs. This is useful for training as well as every day use in those instances where it is necessary for one Service to assign another Service's TACs.

All major references to security assistance programs (Foreign Military Sales/Grant Aid) are consolidated into a single chapter to provide standard guidance applicable to all Services.

A change register is provided at page CR-1. This register is to be used to record interim and formal change numbers and identify those pages/paragraphs changed. As it is a part of the regulation, the register provides a permanent easily traceable record of all DoD transactions which affect MILSTAMP.

Types of changes:

Interim Changes. When immediate dissemination of changes to the regulation is necessary, the DoD MILSTAMP System Administrator will initiate interim changes (ICs) by message through Service/Agency MILSTAMP Focal Points. Interim changes bear the number of the formal change in which they will be published at a later date, followed by the number of each IC in that series. For example, the first change to this volume will be identified as "Interim Change 1-1 to Vol. II, MILSTAMP." The second and succeeding changes will be 1-2, 1-3, 1-4, etc. As each formal change is printed, a new series is initiated, identified by the prefix of the next formal change, two, three, four, etc. For example, "Interim Change 2-1 to Vol. II, MILSTAMP." Message changes will remain in effect until published in a formal change.

Other changes (miscellaneous, including editorial and clarification). Changes which do not require immediate dissemination to the field are held for publication in the next formal change. They will be so identified in the formal change cover letter.

Formal Change. Formal changes will be issued semiannually, normally February and August. These changes are made available to users through their Service/Agency publications distribution systems. All interim and routine changes will be incorporated into formal changes. All formal changes are published as full page insertions. Modifications, such as added or revised paragraphs, will be highlighted by an asterisk (*) in the margin.

Monthly Status. A monthly change status message will be dispatched by the DoD MILSTAMP System Administrator to Service/Agency focal points by AIG 4563 not later than one week after the last work day of each month. Service/Agency focal points will retransmit this information to field activities. These messages will be used to verify receipt of all messages and publications related to MILSTAMP.

Distribution of the regulation. The U.S. Government Printing Office or Government printing contractor will make distribution of the regulation to designated points within each Service/Agency based upon funded bulk requisitions provided by that Service/Agency. Further distribution is accomplished through Service/Agency command publications channels.

Users of MILSTAMP are encouraged to submit suggestions for further improvement of this publication to their Service/Agency MILSTAMP focal points.

CHAPTER 1

OF VOLUME II WITH AN INTRODUCTION TO TRANSPORTATION ACCOUNT CODES (TACS)

1-i. INTRODUCTION

This chapter provides information and instructions essential to the maintenance of current policy and procedural guidance affecting DoD transportation funds obligations through the use of Transportation Account Codes. It outlines the responsibilities of certain DoD and Service/Agency activities necessary for the maintenance of the MILSTAMP system. Included in this chapter is information concerning the structure of TACs, those commonly used and others of a peculiar or unusual nature such as nonsignificant and account handling. Special instructions are stated for MAC assigned and controlled TACs.

SECTION A. GENERAL INFORMATION

- 1. Authority. Publication and use of this regulation is prescribed by the Department of Defense Directive 4000.25, subject: Administration of Defense Logistics Standard Systems.
- 2. <u>Purpose</u>. TACs identify the sponsoring Service/Agency and the appropriation/fund citation to be charged for services incident to movement of material through the DTS.
- 3. Scope and Applicability. This regulation is applicable to the Army, Navy, Air Force, Marine Corps, Defense Logistics Agency, Coast Guard, General Services Administration, and any other activity sponsored by the DoD Services/Agencies when using the DTS.
- 4. Exclusions. None. All documentation for material moved in the DTS must have a TAC cited in order to meet DoD fiscal requirements.
- 5. Policy. TACs are developed and maintained by each Service/Agency with overall responsibility assigned the Office of the Assistant Secretary of Defense (OASD) (Acquisition and Logistics (A&L)). The OASD Comptroller has a vested interest in this responsibility.

6. System Maintenance Responsibilities:

- a. The DoD MILSTAMP System Administrator is responsible for administering the MILSTAMP system in accordance with the policy guidance of the OASD(A&L). The DoD MILSTAMP System Administrator will:
- (1) Perform analysis and design functions in coordination with Services/Agencies to implement guidance and instructions provided by the OASD(A&L) and assure the involvement of telecommunications planning in an integrated system design.
- (2) Recommend system improvements and additional policies, as required, during the development of procedures.
- (3) Develop, publish, and maintain this regulation in a current status. This includes responsibility to:

(a) Staff Proposed Changes

1 All proposed change requests will be evaluated prior to formal staffing with the Services/Agencies. The evaluation of the proposed change will include, but not be limited to, the accuracy, validity, necessity, and urgency of the change. Requests which do not demonstrate significant inter-Service benefit will be returned to the originating Services/Agencies. Requests which do

A.6.a (cont.)

demonstrate significant benefits will be forwarded to the participating Services/Agencies, and the DoD System Administrators of other DoD systems impacted by the proposed change for comment/concurrence. OASD(A&L)TP&SD will be provided copies of all proposals.

Formalized proposed MILSTAMP change letters (PMCLs) will be consecutively numbered and will normally request the Services/Agencies provide a response within 60 days. Responses from Services/Agencies must indicate an implementation date. The additional time must be fully justified. Nonreceipt of responses within the specified time will result in the DoD MILSTAMP System Administrator initiating correspondence followup action with the nonresponding Services/Agencies. The first followup will be via DoD MILSTAMP System Administrator telecon and will occur seven days after elapse of the specified response time. The second followup, if applicable, will be accomplished via DoD MILSTAMP System Administrator followup letter, or a meeting between the nonresponding Services/Agencies and the DoD MILSTAMP System Administrator. The second followup will occur 30 days after the elapse of the specified response time. Failure of Services/Agencies to respond within 45 days of the specified response time will be reported to OASD(A&L).

(b) Evaluate Service/Agency Responses

- $\frac{1}{2}$ Issues which involve procedural matters will be resolved by the $\overline{\text{DoD}}$ MILSTAMP System Administrator, normally within 90 days after the receipt of all comments from the participating Services/Agencies.
- $\underline{2}$ Matters affecting policy, together with the Services/Agencies comments and a recommendation of the DoD MILSTAMP System Administrator, will be referred to the OASD(A&L) for resolution.
 - (c) Establish and Disseminate Implementation Dates
- 1 Following resolution of the Services/Agencies comments on the proposed change letter, the DoD MILSTAMP System Administrator will prepare and disseminate to the Services/Agencies MILSTAMP Focal Point an approved MILSTAMP change letter (AMCL) and/or interim change message indicating an implementation date.
- $\frac{2}{o}$ Changes will be published twice a year (formal changes) with dates $\frac{1}{o}$ 1 February and 1 July and will incorporate those AMCLs and/or interim changes which have an implementation date prior to those publication dates.
- 3 Assure compatibility of MILSTAMP procedures with those of the other Defense Logistics Standard Systems (DLSS). Coordination will be effected, when appropriate, with System Administrators of other DoD logistics data systems, and with related DoD

A.6.a.(3)(c)(cont.)

logistics task groups. Compatibility among these systems and groups must be accomplished prior to final coordination with the Services/Agencies.

- $\frac{4}{}$ Disseminate to Services/Agencies and OASD(A&L) a quarterly status review of all change proposals which have not yet been approved for publication.
- $\underline{5}$ Report to OASD(A&L) the findings and recommendations of evaluations and staff assistance visits, along with comments of the affected DoD Components.
- $\underline{6}$ Review and coordinate with Services/Agencies all requests for system deviations and exemptions and make appropriate recommendations to OASD(A&L) based on detailed analysis of the justification submitted by the requestor.
 - b. Heads of participating Services/Agencies will:
- (1) Designate an office of primary responsibility for MILSTAMP to serve as the TAC coordinator to:
- (a) Serve on the TAC coordination committee. The decisions reached at these committee meetings will represent a Services/Agencies position unless otherwise announced by the Service/Agency representative.
- (b) Assure continuous liaison with the DoD MILSTAMP System Administrator and other Services/Agencies on all matters, procedures, systems, etc., which impact upon or otherwise affect DoD 4500.32-R.
- (c) Evaluate all suggested changes (including those submitted under the Incentive Awards Program) to MILSTAMP which originate within their organization. If suggestions are received by the DoD MILSTAMP System Administrator directly for evaluation, they will be forwarded to the appropriate Services/Agencies TAC Coordinator for review and evaluation. If the Services/Agencies consider the suggestion worthy of adoption, a change proposal will be submitted to the DoD MILSTAMP System Administrator, stipulating specific narrative changes to the regulation. Such proposed changes will be staffed through appropriate channels. Suggestions will be handled in accordance with Services/Agencies Incentive Awards Program procedures.
- (d) Provide assistance with TAC determination problems. These TACs are identified within each respective Service/Agency chapter of Vol. II.

A.6.b.(1)(cont.)

- (e) Develop and submit recommended change proposals to the DoD MILSTAMP System Administrator with justification and expected benefits. The recommended change proposals will be submitted in the following format:
- $\underline{\underline{1}}$ A narrative description of the basic concept being proposed and reasons therefor.
- $\frac{2}{\text{For coordination with other DLSS}}$ the state of the state of
- $\underline{3}$ Operational statement identifying known advantages/disagvantages $\overline{r}esulting$ from the proposed revision.
- $\underline{\underline{4}}$ Proposed wording required for the MILSTAMP Regulation.
 - (f) TAC Changes Requiring Coordination
- $\frac{1}{1}$ TAC revisions in the following categories (note 1) will require coordination and the development of leadtime requirements prior to implementation:
- \underline{a} TAC(s) involving the introduction of a new billing address.
- \underline{b} TAC(s) involving a change in billing address.
 - c The introduction of a new series of TACs.
- \underline{d} TACs which will affect an edit criterion being performed at the request of a Service/Agency by a TOA prior to submission of bills.
- $\frac{2}{2}$ Proposed changes will be forwarded to DLSSO-BV, Cameron Station, Alexandria, VA 22304-6100, in accordance with the format required by DoD Directive 4000.25, and chapter 1, paragraph A.6.b.(1)(e) this regulation.
- (g) Proposed TAC changes that do not require coordination (note 2) are those which do not meet the criteria of chapter
- Note 1. TAC changes are made in accordance with the instructions contained in the notification of change that deletes or adds the TAC. The TOAs are authorized to honor the use of discontinued TACs in order to bill the original sponsor for delayed shipments, unless formal disposition is provided in the request for the TAC discontinuance.
- Note 2. See bottom of next page.

A.6.b.(1)(f) $\underline{1}$ (cont.)

- 1, paragraph A.6.b.(1)(f). The following statement will be included in the request: "TAC revision(s) proposed herein (does/do) not involve: a new or revised billing address, the introduction of a new TAC series, or an edit criterion performed by a TOA prior to submission of a bill to this Service (or Agency)."
- (2) Provide a single, coordinated Service/Agency position to the MILSTAMP System Administrator on all proposed system changes. Services/Agencies responses to proposed system changes will be provided to the DoD MILSTAMP System Administrator within the time specified (normally 60 days).
- (3) Assure that all operating activities under their jurisdiction comply with this regulation.
- (4) Report to the DoD MILSTAMP System Administrator those problems, violations, and deviations which impact system operations.
 - c. The OASD(A&L) will:
- (1) Resolve issues concerning resources, policy, and requests for deviation of exemption from MILSTAMP procedures.
- (2) Direct system changes, when necessar, to implement DoD policy.
- (3) Resolve and take necessary action with Service/Agency heads on matters referred/recommended by the DoD MILSTAMP System Administrator.
- 7. Publication of the Regulation. The regulation will be updated by republication in its entirety at intervals not to exceed four years. It may be republished at the discretion of the DoD MILSTAMP System Administrator whenever the volume of change dictates, normally when changes affect 40% of the total.
- 8. Supplementation of the Regulation. This regulation will not be supplemented except to provide more detailed local implementing instructions required by action offices, e.g., data entry instructions to cover variances in capabilities to generate, process, perpetuate, and communicate MILSTAMP data.
- 9. <u>Distribution</u>. Supply of this publication, changes and forms, data formats prescribed herein will be requisitioned through established Service/Agency publications distribution channels.
- Note 2. TAC changes are made in accordance with the instructions contained in the notification of change that deletes or adds the TAC. The TOAs are authorized to honor the use of discontinued TACs in order to bill the original sponsor for delayed shipments, unless formal disposition is provided in the request for the TAC discontinuance.

SECTION B. INTRODUCTION TO TRANSPORTATION ACCOUNT CODES

1. Structure of the TAC:

a. TACs consist of a four-position alphanumeric code. The first position identifies the sponsoring Military Shipper Service, DoD/non-DoD Agency, or contractor who will be charged (billed) for all services performed incident to movements in the DTS. Sponsoring Service/Agency and contractor codes are:

CODE	ASSIGNED TO	CHAPTER
A	Army (includes FMS)	2 & 11
В	Army (MAP only)	11
С	Army (AID shipments-Definition in chapter 2)	2
D	Air Force (MAP & FMS only)	11
F	Air Force	3
Н	Other DoD and U.S. Government	
	Agencies	4
J	Joint Task Force 8	5
K	Marine Corps (MAP & FMS only)	11
L	Marine Corps First Destination	
	Transportation	6
M	Marine Corps Second Destination	
	Transportation	6
N	Navy	7
P	Navy (MAP and FMS only)	11
S	DLA	8
T	Contractor	See notes 3 & 4

Note 3. This first alphabetic character (T) is used for constructing a MAC TAC covering the transportation of materiel of certain Agencies and activities, the movement of which is authorized and sponsored by the Military Components and Agencies of the DoD. Use of this alphabetic character indicates that direct billing will be accomplished for the cost of transportation to the applicable contractor. "T" TACs are assigned and controlled by the Military Airlift Command.

Note 4. This first alphabetic character (X) is used for the constructing of a MAC TAC covering the transportation of materiel of non-DoD U.S. Government Agencies, the movement of which is authorized and sponsored by the Military Components and Agencies of the DoD. Use of this alphabetic character indicates that direct billing will be accomplished for the cost of transportation to the applicable customer. "X" TACs are assigned and controlled by the MAC.

B.1. (cont.)

X Government Agencies not listed herein Z Coast Guard

See notes 4 & 5

- b. The second, third, and fourth positions are assigned and controlled by each sponsoring Service/Agency; these positions may be alpha, numeric, or both. They are assigned to identify the appropriate fund citations, functional identity of the cargo, commodity, or any other description that relates to the accounting classification that is applicable to the transportation costs. TACs are entered in block 17 (or column 43a) of the DD Form 1384, Transportation Control and Movement Data/Document (TCMD), or in rp 64-67 of the prime TCMD (T_0, T_1, T_4). Alphabetics I and 0 will not be used in TACs except for Military Assistance Program (MAP) and Foreign Military Sales (FMS) cargo shipments.
- 2. Nonsignificant TACs are established to facilitate data flow through the DTS system and to assure uninterrupted cargo movements through the various segments of the DTS. The use of a nonsignificant TAC will be as specified in this volume by each Service/Agency.
- a. The first positions of the TAC will identify the sponsoring Service/Agency. The three remaining positions will be 000. Billing documents citing charges against a nonsignificant TAC will include backup data as specified in chapter 10.
- b. Reconciliation of nonsignificant TACs to significant TACs is necessary and is the responsibility of the Service/Agency finance office responsible for payment of charges.
- 3. Account Handling TACs (MAC application only). For customers who pay cash, who must be charged the non-Government tariff rate, or who are entitled to use common user airlift service, but are not assigned a regular TAC, the following special account handling codes are provided.

A--Account Handling

Identifies a user who does not have a regular TAC assigned and pays the Government rate (AFR 76-11) on a credit basis.

C--Account Handling

Identifies a user who does not have a regular TAC assigned and reimburses MAC at the Government rate (AFR 76-11) by paying cash.

Note 5. Requests for a "T" or an "X" TAC should be addressed to the Military Airlift Command, ATTN: ACIA, Scott AFB, IL 62225-5001, telephone: AUTOVON 638-3631.

B.3. (cont.)

G--Account Handling

Identifies a user who does not have a regular TAC assigned and pays the non-Government rate (AFR 76-28) on a credit basis.

J--Account Handling

Identifies a user who does not have a regular TAC assigned and reimburses MAC at the non-Government rate (AFR 76-28) by paying cash.

K--Account Handling

Identifies a user who does not have a regular TAC assigned and pays the non-DoD Federal Agency rate on a credit basis.

L--Account Handling

Identifies a user who does not have a regular TAC assigned and reimburses MAC at the non-DoD Federal Agency rate by paying cash.

These codes are inserted in the second position of the TAC with all other positions left blank. Documentation necessary to support account handling codes A, G, and K will be forwarded to MAC via the mechanized Airlift Service Industrial Fund (ASIF) Channel Traffic Revenue Processing System. For shipments of personal property, a Household Goods and Baggage Ownership Data (Document ID TF8/TH8) and a minimum of one Miscellaneous Data Card (Document ID TF9/TH9) must be included with the Shipment Unit Prime Data to substantiate ASIF processing. For all other shipments Miscellaneous Data Cards (Document ID T_9) must be included. For account handling codes C, J, and L, a copy of DD Form 1131, Cash Collection Voucher, and DD Form 1384, TCMD, will be forwarded to MAC/ACIA by aerial ports to substantiate ASIF processing. Trailer cards with billing address/instructions will be submitted in the format outlined in DoD 4500.32-R, Volume I, appendix F, figure F-9.

4. TAC Coordinator. A TAC coordinator has been established by each Military Service or Agency to assist shippers with the assignment of correct TACs. These coordinators are listed in their respective chapters of Volume II, MILSTAMP.

CHAPTER 2

TRANSPORTATION ACCOUNT CODES DEPARTMENT OF THE ARMY

2-i. iNTRODUCTION

This chapter provides definitions, instructions, and other pertinent information required for the correct assignment of Department of the Army Transportation Account Codes. It highlights differences and unique elements of Army transportation policy as it impacts on the financing of transportation charges. Shipments within CONUS and within overseas theaters do not utilize Army Transportation Account Codes. The U.S. Army Materiel Command (AMC) is responsible for the control of funds for CONUS line-haul costs incurred. Similarly, line-haul movement and related costs incurred in overseas threaters are the responsibility of the overseas command.

SECTION A. GENERAL

- 1. <u>General Information</u>. The first position of Army Transportation Account Codes will be one of the following:
- A Identifies all Army sponsored shipments other than MAP Grant Aid and the Agency for International Development (AID) (includes Army sponsored Foreign Military Sales Shipments).
- B Identifies Army sponsored Military Assistance Program (MAP) Grant Aid shipments.
- C Identifies Army sponsored shipments that are made for AID.

The second, third, and fourth positions may be alpha, numeric, or both; they identify functional identity of the cargo, appropriate fund citations, commodity identity, or any description that relates to the accounting classifications that are applicable to the transportation costs.

b. Definitions:

- (1) First destination transportation covers cost of the movement of property from F.O.B. point of origin to the point at which the materiel, in the form required for use, is first received for use or storage for subsequent distribution in the military supply system.
- (2) Second destination transportation is the movement of cargo from CONUS depots to field activities worldwide, including CONUS port loading/unloading and the overocean segment whether performed by MAC, MSC, or by commercial carrier. It also covers the movement of retrograde cargo, some inter-/intra-theater movements of cargo overseas, and the overocean segment of Army Post Office (APO) mail. In addition, it supports the movement of some civilians on PCS orders, CONUS port handling, movement of military cargo being shipped between CONUS installations, and the movement of excess materiel from these installations back to major stock points. Second destination transportation funds are used to pay for above services.
- (3) Nonsignificant TAC.....AØØØ. Only MAC, MSC, and MTMC are authorized use of this TAC to avoid delaying shipments due to missing or erroneous TACs. Its use by other shipping activities is prohibited. Assistance in determining correct Army TACs may be obtained by contacting the Army TAC Coordinator (see subparagraph c. below).
- (4) AID. Transportation services sponsored by Army for AID programs, as authorized by section 106 of the Economy Act, 20 June 1932 (47 Stat. 417) 31 USC 686.
- c. Army TAC Coordination/Assistance. The Army TAC Coordinator will provide assistance in unusual Army sponsored TAC assignment problems that cannot otherwise be resolved through local research and use of this regulation. The coordinator may be contacted as follows:

Commander, U.S. Army Materiel Command ATTN: AMCSM-POT 5001 Eisenhower Ave. Alexandria, VA 22333-0001

Telephone: AUTOVON: 284-8357

Commercial: (202) 274-8357

- d. Appropriations Chargeable
- (1) First destination transportation. Army does not have TACs for first destination transportation. Transportation costs for shipment of materiel from a procurement source outside the DoD supply system to the first point of use or storage for subsequent

A.1.d.(1) (cont.)

distribution within the Army supply system will be charged to the Operations and Maintenance, Army appropriation. Applicable fund citations are indicated on the Government Bill of Lading or other similar shipping document.

- (2) Second destination transportation is properly chargeable to the appropriation or fund citation as specified in accordance with provisions of AR 37-108 (ref. A.1.) to cover transportation costs applicable to the shipment. These funds are centrally administered and controlled at HQDA level or by a direct citation of an accounting classification that is authorized by the administrating office of the funds, to be used by the disbursing office.
- (3) CONUS retrograde cargo. The fund citation applicable to CONUS line-haul movement, after arrival at a CONUS surface or air terminal, is furnished the MTMC and MATCOs by the applicable funding installation on an annual basis by means of electrical transmission. If fund cite has not been made available, contact the Tobyhanna Army Depot, ATTN: SDSTO-PF-A, Tobyhanna, PA 18466-5101, telephone: AUTOVON: 795-7213 or commercial: 717-894-7213.

2. <u>Decision Table</u>. The purpose of this decision table is to assist in determining the correct TAC for Army sponsored shipments moving through the DTS:

Is Shipment

- 1. Army sponsored?
- YES Find the appropriate TAC in this chapter, or in chapter 11 if the cargo is MAP Grant Aid or FMS.
- NO Determine appropriate sponsoring Service and refer to appropriate chapter for that Service.
- 2. First Destination Transportation?
- YES Army TACs are not applicable. Obtain accounting classification for citation on the shipping document from the AMC, Alexandria, VA 22333-0001, ATTN: DRCCP, Telephone: (AV) 284-9277/8; COMM: (202) 274-9277/8.
- NO Proceed to next question.
- 3. Second Destination Transportation?
- YES Determine type/kind of cargo and find the appropriate TAC in this chapter.
- NO If shipment is not second destination transportation, obtain fund cite per yes response for question 2 above.
- 4. For Direct Support of U.S. Army Forces assigned overseas?
- YES TAC A205 applies.
- NO Identify type/kind of cargo and determine applicable TAC information in section B or C, this chapter.
- 5. Army sponsored personal property (HHG, baggage or POV)?
- YES Go to paragraph B.4., this chapter, for TAC.
- NO If first position of TCN is N, P, F, M, S, H, or Z, it is not Army sponsored; see respective Service/Agency chapter.

A.2. (cont.)

Is Shipment

- 6. Military Assistance Program Grant Aid (MAP) or Foreign Military Sales (FMS) material?
- 7. Army Stock Fund material being returned to CONUS?
- 8. Mail?
- 9. Army sponsored materiel being shipped through the DTS for Agencies/Activities/Departments/Offices that are non-DoD?
- 10. Army-Air Force Exchange Service (AAFES) materiel?
- 11. Retrograde from Overseas to CONUS?

YES - Go to chapter 11.

NO - If first position in the TCN is other than a "B," proceed to next question.

YES - Go to paragraph B.2.b.(1), this chapter.

NO - Proceed to next question.

YES - Go to paragraph C.2., this chapter.

NO - Proceed to next question.

YES - Go to paragraph C.4., this chapter.

NO - Cargo apparently must then be DoD owned and, if Army sponsored, determine type of cargo and refer to sections B and C, this chapter.

YES - The first two positions in the TCN will ALWAYS be HX; go to paragraph B.3.

NO - If first two positions of TCN are other than HX, determine type and sponsor of cargo and search for TAC in appropriate chapter.

YES - Go to paragraph B.1.b.(4), this chapter. If materiel is destined for onward movement from the surface (MSC) or air (MAC) terminal to a CONUS inland destination, see paragraph A.1.d.(3), this chapter, for guidance.

NO - Cargo is apparently not retrograde. Determine type of cargo and refer to section B or C, this chapter.

A.2. (cont.)

Is Shipment

12. Subsistence?

YES - Go to chapter 8.

NO - Determine type of cargo. Refer to section B or C, this chapter.

13. Courier materiel?

YES - The first three positions of the TCN will always be CTS and TAC is 9903.

NO - Determine type of cargo and refer to section B or C, this chapter.

14. Force Modernization Program (FMP) Systems?

YES - Go to paragraph B.1.b.(13), this chapter.

NO - Identify type/kind of cargo and determine applicable TAC information in this regulation.

SECTION B. STANDARD TACS

- 1. <u>Logistics Materiel</u>. Logistics materiel movement encompasses the provision of providing adequate support materiel and services to the Army military forces to assure successful accomplishment of its assigned mission.
- a. First Destination Transportation. Army has no TACs for first destination transportation.

5. Per Diem Hire of Vessels. For the purpose of this regulation, per diem hire vessels are defined as "vessels for which the per diem rate established by MSC for use other than point-to-point lifts will be billed on a per diem or contract basis." Overseas commanders who arrange for the use of vessels on a per diem basis will request the assignment of a special TAC from the U.S.

Note 10. Significant in rp 39-31 and 45-46 of MILSTRIP/MILSTAMP documents. All U.S. Army sponsored shipments made for U.S. Agencies other than DoD are reimbursable. These shipments are entered into the DTS by the Department of the Army, with the stipulation that the owner of the cargo will absorb all costs associated therewith. CONUS Industrial Fund operated water ports and terminals accepting cargo under these TACs are responsible for collecting CONUS port transshipment and ocean transportation costs (except ocean transportation costs for TAC A568; see Note 4 from the applicable non-DoD agency, department or office). Costs collected under these procedures will be referred to the appropriate local Finance and Accounting Officer for deposit as an appropriation reimbursement, as follows: 21*2020 32-CXXX P728010-99 S12121 (see section III, AR 37-100 for source code that will be used in lieu of XXX).

SECTION A. GENERAL

1. General Information

a. References:

- (1) AFM 172-1, Vol. I, Chapter 10, SECTION E TRANSPOR-TATION OF PROPERTY (Air Force transportation funding policy)
- (2) AFLCR/AFSCR 170-2, First Destination Transportation
- b. Definitions: The following are approved Air Force definitions of first and second destination transportation:
- (1) First Destination Transportation (FDT). FDT is that transportation required to effect the delivery of logistics materiel from a procurement source outside the DoD supply system to the first point of use or storage for subsequent distribution within the Air Force supply system. Includes the charges for freight cartage and demurrage incurred incident to shipment of the materiel. Amplifications of this definition are as follows:
- (a) When logistics materiel is procured within the CONUS for delivery to a CONUS point of use or storage, FDT includes all transportation by land, air, and inland or coastal waterways.
- (b) When logistics materiel is procured within an overseas area for delivery to a point of use or storage within that area, first destination transportation includes all transportation by land, air, and inland or coastal waterways, excluding MSC and MAC channel traffic.
- (c) When logistics materiel, incident to a HQ USAF approved System Package Program (AFR 375 Series) and Research and Development (R&D) Projects, is provided to the contractor by the Air Force for use or storage at an overseas location, FDT includes all transportation from point of origin of shipment to the point of use or storage, unless otherwise provided under the terms of the system package program or the R&D project.

DoD 4500.32-R Vol. II

A.1.b.(1)(cont.)

- (d) When logistics materiel, other than materiel for a "package program" is procured within the CONUS for or on behalf of an overseas command for delivery to an overseas point of use or storage, FDT is considered to terminate when the materiel is delivered to a CONUS air or water port.
- (2) Second Destination Transportation (SDT). SDT is any transportation other than FDT. It includes port handling charges and charges for freight, cartage, demurrage, and other charges incurred incident to shipment of Air Force logistics material.
- (3) Nonsignificant TACs. Air Force nonsignificant TACs (Chapter 1) are authorized for use by MAC aerial ports only. They are not to be used for any shipments in the LOGAIR system.
- c. Air Force TAC Coordination/Assistance. The following Air Force TAC coordinator has been established to provide assistance in TAC assignment problems that cannot be determined by research of this publication.

HQ AFLC, Wright-Patterson Air Force Base/LOZPT Dayton, OH 45433-5001

Telephone: AUTOVON 787-4814/4934 Commercial (513) 257-4818/4934

- d. Appropriations Chargeable
- (1) FDT is chargeable according to the Free on Board (F.O.B) terms of procurement. The F.O.3 terms determine funding responsibility between U.S. Government and contractor.
- (a) F.O.B Destination is a contractor's responsibility and the FDT is included in the price of the item. Use of TAC is not appropriate.
- (b) F.O.B Origin is a U.S. Government responsibility and AFLC/AFSC Regulation 170-2 contains fund cite and TAC for use on FDT shipments.
- (2) SDT is properly chargeable to the appropriation or fund available for the operation and maintenance of Air Force activities.

A.1.d. (cont.)

- (3) The responsibility for budgeting and funding for transportation charges is prescribed in $\rho\epsilon$ agraph 10-53 and figure 10-2, AFM 172-1.
- (4) Diversions. TACs required for diversions in accordance with Volume I, chapter 2, paragraph B.3.e. of this regulation will be assigned by the authorized diversion activity (primarily AFLC ALCs). Diversions of Air Force cargo to storage or Air Force base activities are considered an SDT shipment (TAC F8AØ). Diversions to Security Assistance Program will cite the applicable TAC contained in chapter 11. Diversions to ANG destinations will cite TAC F8EØ.
- (5) Shipping activities making diversions will cite the appropriation chargeable to the corresponding TAC contained in the diversion order for shipments to be made by commercial carrier using a GBL (see (6) below).
- (6) Retrograde Water or aerial ports will cite the appropriation chargeable to the corresponding TAC for retrograde shipments transferring to commercial GBL modes as follows:

SECTION B. STANDARD TACS

1. Logistics Materiel

a. First Destination Transportation

(1) Financial Responsibility. Financial responsibility for movement of Air Force FDT cargo procured F.O.B. origin from origin to ultimate CONUS consignee and/or CONUS port of embarkation via LOGAIR and/or commercial transportation (except F-16 co-production items which are chargeable to FDT from origin shipping point to ultimate consignee) is determined by the OAC and BPAC. Both of these codes are identified in the appropriation accounting classification contained in contracts, purchase orders, MIPRs, etc. TACs for FDT cargo are assigned as follows:

Note 1. Transportation of materiels incident to co-production agreements. The movement of Government Furnished Property (GFP) Government Furnished Materiel (GFM/Government Furnished Equipment (GFE)) from CONUS to overseas points in conjunction with co-production agreements with foreign governments has been determined FDT. This funding policy is reflected in subparagraph 10-51a(5) of AFM 172-1, Volume I.

Note 2. All GFP/GFM and GFE items requisitioned under the terms of co-production agreement by/for shipment to DoDAACs EY1475, EY1476, EY1479, EY1901, EY7638, EY7643, and EY7661 when moved within the DTS will cite TAC F7A2.

Note 3. For clarification, DoDAACs EY1475, EY1476, EY1479, EY1901, EY7638, EY7643, and EY7661 have been established so that all materials moved to these points will be in accordance with the terms of F-16 co-production agreements and properly chargeable to FDT appropriations.

b. Military Exchanges. See chapter 2 for TAC on shipment to Army Air Force Exchange Service (AAFES).

c. Morale, Welfare and Recreation (MWR) Materiel via MAC and MSC. MWR activities authorized the use of these TACs are:

American Red Cross Officer and NCO Open Mess Rod and Gun Club Service/Recreation Club

TAC Description

F8P1 Movement of MWR materiel on a reimbursable basis (goods of foreign manufacture as defined in paragraph B.3.a., Note 10).

F8P2 Movement of MWR materiel on a nonreimbursable basis (goods of U.S. origin/manufacture).

MWR activities moving material on a reimbursable basis citing TAC F8P1 will be billed appropriate transportation costs (MAC/MSC/MTMC).

Note 10. The term "Foreign Origin" as used above means those goods produced or manufactured in a foreign country and physically located outside the U.S., its possessions, or Puerto Rico. It also includes those goods produced or manufactured in a foreign country which are physically located in bonded warehouses or foreign trade zones within the U.S., its possessions, or Puerto Rico; but it does not include foreign produced or manufactured goods which have otherwise been lawfully imported into the U.S., its possessions, or Puerto Rico.

4. Personal Property. Movement of Air Force military and civilian household goods, unaccompanied baggage and privately owned vehicles (POV) via MAC, MSC, and related charges (CONUS port handling) for MTMC terminal services.

 - (2) Second position of TAC (rp 65 of TCMD) will reflect:
- (a) A Account Handling (Chapter 1). Identifies a user who does not have a regular TAC assigned and pays the Government rate (AFR 76-11) on a credit basis. Documentation necessary to support Account Handling Code (A) will be forwarded to MAC via the mechanized ASIF Channel Traffic Revenue Processing System. For shipments of personal property, a household goods and baggage ownership data (document ID TF8/TH8) and a minimum of two miscellaneous data cards (document ID TF9/TH9) must be included with the Shipment Unit Prime Data to substantiate ASIF processing. Trailer cards with billing address/instructions will be submitted in the format outlined in DoD 4500.32-R, Volume I, appendix D, figure D-11.
- (b) C Account Handling (Chapter 1). Identifies a user who does not have a regular TAC assigned and reimburses MAC at the Government rate (AFR 76-11) by paying cash. Account Handling Code (C) shipments will require a copy of the DD Form 1131 and TCMD be forwarded to MAC/ACIA by aerial ports to substantiate ASIF processing.

- e. American Red Cross (ARC) Employees Household Goods. The following procedures apply to the movement of Air Force sponsored ARC employee household goods, baggage, and privately owned vehicles. Special orders for ARC personnel entitled to Air Force sponsored movement will be issued by the 1947 Admin Spt Gp/DASAO, Washington, DC which will reflect fund cites obtained from Air Force overseas commanders. These fund cites will be provided through American Red Cross Administrative channels. The TAC assigned for the above movements via DTS (MTMC, MSC, and MAC) will reflect FRC in the first three positions. The fourth position will be the alpha designator of the MAJCOM providing the fund cite for the orders. A listing of the MAJCOM alpha designators appears in paragraph B.4.c., this chapter. A valid example of an ARC TAC is "FRCR" which denotes Air Force approved American Red Cross employees movement under sponsorship of Pacific Air Force (PACAF).

TRANSPORTATION ACCOUNT CODES OTHER DOD AND U.S. GOVERNMENT AGENCIES

4-i. INTRODUCTION

This chapter provides information pertaining to the assignment of TACs for other DoD and U.S. Government Agencies. TACs identify the appropriation of the user of the Defense Transportation System. The TAC, in conjunction with other critical shipping data, permits the Transportation Operating Agencies to bill the Agency (activity) responsible for payment of transportation costs incurred as a result of a movement of material.

SECTION A. GENERAL

1. General Information

- a. References (Reserved)
- b. Definitions:
- $\,$ (1) First Destination Transportation (FDT). FDT is that transportation required to effect the delivery of logistics material from a procurement source outside the DoD supply system to the first point of use or storage for subsequent distribution within the DoD supply system.
- (2) Second Destination Transportation (SDT). SDT is any transportation of materiel which is considered other than FDT. It includes port handling, freight, cartage, demurrage, and other charges incident to the overocean movement of material by means of the Defense Transportation System methods, i.e., MAC, MSC, and/or MTMC port handling.
- (3) Nonsignificant TACs. Other DoD and U.S. Government Agencies nonsignificant TACs are authorized for use by MAC, MTMC, and MSC activities only. TAC HØØØ is the nonsignificant TAC designated for these Agencies.
- c. TAC Coordination/Assistance. TAC coordinators for each agency (listed in B.1.b.(1) thru (10)) have been established to provide assistance with TAC assignment problems that cannot be determined by research of this publication.
- d. Appropriations Chargeable. The appropriations charge able are listed independently for each agency (see B.1.b.(1) through (10), this chapter); if none listed, contact the appropriate TAC coordinator.
 - 2. Decision Table (Reserved)

SECTION B. STANDARD TACS

- 1. Logistics Materiel
 - a. First Destinatio (ransportation (Reserved)
 - b. Second Destination Transportation.
- (1) DoD Washington Headquarters Service (WHS). The Directorate of Budget and Finance, DoD-WHS, establishes and maintains the agency level central accounting controls for:

Secretary of Defense Activities (OSD).
Office of the Joint Chiefs of Staff (OJCS).
Defense Advance Research Projects Agency (DARPA).
American Forces Information Service (AFIS).
Defense Security Assistance Agency (DSAA).
Department of Defense Dependents Schools (DoDDS).

- (a) TAC Composition. The TACs for DoD-WHS accounting purposes are constructed as follows:
 - 1st Position Code "H" Is a constant. Is assigned by Defense Logistics Agency. Identifies DoD-WHS and Defense Agencies (other than DLA, which has TAC codes provided by chapter 8 this regulation).
 - 2nd Position Code "D" Is a constant. Is assigned by DoD-WHS. Identifies, as a group, DoD-WHS, OJCS, DARPA, AFIS, DSAA, and DoDDS.
 - 3rd Position Code "A" Is assigned by DoD-WHS. Identifies DoD-WHS as an organization to be charged.

Code "B" - Is assigned by DoD-WHS. Identifies OJCS. Code "C" - Is assigned by DoD-WHS. Identifies DARPA. Code "D" - Is assigned by DoD-WHS. Identifies AFIS. Code "E" - Is assigned by DoD-WHS. Identifies DSAA. Code "E" - Is assigned by DoD-WHS. Identifies DoDIG.

4th Position - Code "A" - Identifies Appropriate Account 97 0100.

Code "B" - Identifies Appropriate Account 97 0300.

Code "C" - Identifies Appropriate Account 97 0400.

Code "D" - Identifies Appropriate Account 97 0450.

Code "E" - Identifies Appropriate Account 97-111080.

B.1.b.(1)(a) (cont.)

Code "G" - Identifies Appropriation Account 970100.30

(b) TAC Coordination/Assistance. The following TAC coordinator has been established to provide assistance with TAC assignment problems:

DoD Washington Headquarters Service Directorate of Budget and Finance Finance and Accounts Division Room 3B269, Pentagon Washington, DC 20301-1155

Telephone: AUTOVON: 8-224-0973

Commercial: (202) 694-0973

(c) Billing Addressees. The following TACs are applicable to OSD, OJCS, DARPA, AFIS, DSAA, and DoDDS. No transportation activity has the authority to arbitrarily use a TAC listed below without prior approval of DoD-WHS. Approval may be obtained by electronic message or telephone 202-694-0973 or AUTOVON 224-0973. After approval has been received for the use of a specific TAC, an advance copy of the actual shipping document must be forwarded to DoD-WHS. Any deviations will result in the charges for all transportation costs being rejected for payment by this activity.

- (2) Defense Communications Agency (DCA) TACs
 - (a) TAC Composition

1 DCA TACs consist of the following:

a The first digit (rp 64) is alphabetical. "H" identifies the misceTlaneous DoD Agencies.

 \underline{b} The second digit (rp 65) is alphabetical. "A" identifies the Defense Communications Agency.

c The third digit (rp 66) is numerical and identifies the fiscal year of the funds to be charged. In the example, subparagraph d below, the fiscal year is shown as FY 86.

 \underline{d} The fourth digit (rp 67) is alphabetical and identifies the disbursing office to be billed for transportation charges applicable to the DCA activities shown in paragraph B.10.(2) (c). In the example below, the disbursing office servicing DCA headquarters is shown.

(4) Federal Emergency Management Agency TACs

(a) TAC Application. MILSTAMP four digit alphanumeric TAC applicable to the Defense Civil Preparedness Agency is established as follows:

B.1.b.(4)(a) (cont.)

 $\frac{1}{1}$ First digit (rp 64) of the TAC is an alphabetic code "H" and identifies it as a miscellaneous Department of Defense agency.

2 Second digit (rp 65) of the TAC is an alphabetic code "W" and identifies the Defense Civil Preparedness Agency.

 $\frac{3}{2}$ Third digit (rp 66) of the TAC is a numeric code and identifies the fiscal year applicable to the funds chargeable.

 $\frac{4}{1}$ Fourth digit (rp 67) of the TAC is an alphabetic code "A" and identifies the office to be billed for the transportation charges.

(b) TAC Coordination/Assistance. The following TAC coordinator has been established to provide assistance with TAC assignment problems:

Federal Emergency Management Agency Comptroller Accounting Division Washington, DC 20006-2403

(c) Billing. For Defense Civil Preparedness Agency transportation charges, submit all billings to:

Federal Emergency Management Agency Compinaller Accounting Division Washington, DC 20006-2403

(5) Defense Nuclear Agency (DNA) TACs

(a) TAC Composition. TACs applicable to the DNA are established as follows:

1 First digit (rp 64) of the TAC is an alphabetic code "H" and identifies the DNA as a miscellaneous DoD agency.

B.1.b.(5)(a) (cont.)

2 Second digit (rp 65) of the TAC is alphabetic code "F" and identifies the DNA.

3 The third digit (rp 66) of the TAC is alphabetic or numeric and identifies the appropriation, allotment, project and fiscal station number applicable to be charged.

 $\frac{4}{2}$ Fourth digit (rp 67) of the TAC is a numeric code and identifies the installation and addressees to be billed.

(b) TAC Coordination/Assistance. The following TAC Coordinator has been established to provide assistance in TAC assignment problems:

Note 2. The TACs shown in paragraph B.1.b.(8) are to be used incident to PCS movement of DoDDS employees only. Shipping activities will obtain necessary fund cites (appropriations) and TACs from travel orders of DoDDS employees. If a TAC is not available in the travel order, shipping activity will contact the order issuing agency or use a TAC obtained from above table. Except for terminating employees, the gaining region/command's TAC should always be used. The Military Departments or DoD agencies responsible for funding for second destination transportation of other cargo in support of DoDDS will use their appropriate TAC.

CONTINGENCY TRANSPORTATION ACCOUNT CODES JOINT TASK FORCE EIGHT

5-1. INTRODUCTION

This chapter provides information pertaining to the assignment of TACs for Joint Task Force Eight (JTF8). TACs established for JTF8 application are primarily for contingency use. TACs identify the appropriation of the user of the Defense Transportation System (DTS). TACs and other essential shipment details must be provided the Transportation Operating Agencies to permit necessary billing and funds accountability associated with the movement of material by DTS.

SECTION B. STANDARD TACS - LOGISTICS MATERIEL

- 1. TAC Composition
- a. First digit. "J" is constant. J indicates to the bill-ing Agency that JTF8 is the organization to be billed.
- b. Second and third digits (below). The second and third digits are two alphanumeric digits which identify the benefiting organization or agency within JTF8.
- c. Fourth digit. The fourth digit of the TAC will be either an "F" or "N" depending upon the mode of shipment. N will identify surface and F will identify air shipments.

b. Definitions

- (1) First Destination Transportation (FDT) is that transportation required to effect the delivery of material from a procurement source to the first point of use or storage for subsequent distribution within the supply system. The procurement source and first point of use or storage may be in Continental United States (CONUS) or overseas. The procurement source is any supplier outside the DoD supply system and DoD industrial activity which fricates new material. FDT also includes transportation from point of origin to point of use or storage when Department of Navy owned material or equipment is provided to a contractor incident to a Research and Development (R&D) project or a system acquisition or modification.
- (2) Second Destination Transportation (SDT) is that transportation required to effect movement of Marine Corps materiel from, to, or between Marine Corps activities and other Service/Agency activities worldwide, except as provided in paragraph b.(1) above.
- (3) Nonsignificant TAC MØØØ is a TAC authorized for use by Military Airlift Command (MAC), Military Sealift Command (MSC), and Military Traffic Management Command (MTMC) only. This TAC is only used to avoid undue delay of materiel because of invalid or erroneous TAC assignment.
- c. TAC Coordination and Assistance. When the proper TAC assignment for Marine Corps sponsored shipments cannot be determined from use of this publication, the following should be contacted for assistance.

2. <u>Decision Table</u>. This decision table is published to assist users in determining the correct appropriation chargeable and TAC for Marine Corps sponsored shipments.

Is shipment

1. Marine Corps sponsored? YES - See paragraphs B.1. through B.6. If Marine Corps sponsored,

but Navy funded, see paragraph C.1., this chapter.

- NO Determine sponsoring Service
- 2. Logistics Materiel requiring FDT?

YES - See paragraph B.1.a. For special projects, see paragraph B.1.a.(5).

and refer to appropriate chapter.

NO - Proceed to next question.

3. Logistics Materiel requiring SDT?

- YES See paragraph B.1.b. For special projects, see paragraph B.1.b.(3)(c), this chapter.
- NO Proceed to next question.
- 4. Ammunition from U.S. Army Ammunition Plants or U.S. Navy Ammunition Storage Facilities?

YES - See paragraphs B.1.b.(3)(b) and B.1.b.(4)(a) $\underline{5}$, this chapter.

NO - Proceed to next question.

5. For civilian employees traveling at the expense of the Marine Corps?

- YES See paragraph B.5.a.(1), this chapter.
- 6. Government Furnished Materiel (GFM)/Government Furnished Equipment (GFE)?
- NO Proceed to next question.

SECTION B. STANDARD TACS

1. Logistics Materiel

- a. First Destination Transportation
- (1) FDT will be funded by the appropriation O&MMC. The definition of FDT is in paragraph A.1.b.(1). Transportation costs for the movement of GFE/GFM used in the production or modification of Marine Corps material will also be considered FDT.
 - (2) TACs for FDT are constructed as follows:
- (a) First Character. An alpha "L" signifies Marine Corps FDT and remains constant.
- (b) Second Character. This character signifies the BAC of the materiel being shipped.
- (c) Third and fourth characters. These characters represent a sequential numbering system. EXCEPTION: When GFE/GFM is being shipped, the third and fourth characters will always be "AG".
- (3) The TACs listed in paragraphs B.1.a.(4) and (5) are chargeable to the following appropriation:

APPN TAC SUB-SUF-SYM HEAD TIC CC 0 B FIX AAA 00027/ 000027 7G0**79E3 17*110.6 2770 2 D

*Insert last digit of current fiscal year.

**Insert the appropriate suffix and fourth character to reflect the mode of shipment from the following table:

CC)

MODE OF SHIPMENT	SUFFIX	COST CODE(
Inland	4	J
MSC	5	Н
MAC	6	F
Port Handling	5	L

(4) Marine Corps TACs for FDT are based on the PMC appropriation subhead. Select the applicable TAC from the following table which is in numerical order by BAC.

2. Marine Corps Stock Fund

a. General Information

- (1) Current DoD directives governing stock fund operations provide for the application of first and second destination transportation costs for the shipment of stock fund material.
- (2) The allocation of transportation costs chargeable to the MCSF appropriation 17X4913 is dependent upon three elements of materiel identification used within the MCSF structure: (1) stock fund owned items, (2) Marine Corps managed items, and (3) integrated managed items. Descriptions of each are as follows:
- (a) Stock fund owned items are owned by the MCSF appropriation 17X4913 and identified in supply record, publications, and price lists as SAC 1 items.
- (b) Marine Corps managed items are those items identified in supply records, publications, and price lists by a (MEC), composed of a Numeric Management Code (1 through 6) and an Echelon Code of 1, 8, or 9 (e.g., 21, 28, or 29). Additionally, for the purpose of transportation costs chargeable to the MCSF appropriation, all items identified by a MEC, composed of a Numeric or Alpha Management Code and an Echelon Code of 4 or 5, will be considered as Marine Corps managed (e.g., A4 or 35).
- (c) Integrated managed items are those items managed by DLA, TACOM, GSA, or another Service under a WIMM assignment and are identified in supply records, publications, and price lists as follows:

B.2.a.(2)(c) (cont.)

- $\frac{1}{1}$ DLA/TACOM managed items are those items identified by an Alpha Management Code and Echelon Code 2; i.e., T2 (DLA) and A2 (TACOM).
- $\underline{2}$ GSA managed items are those items identified by MEC 2.
- $\underline{3}$ WIMM managed items are those items composed of a Numeric Management Code (1 through 6) and an Echelon Code of 6 or 7 (e.g., 26, 27, etc.).
- b. Appropriation for Marine Corps and Integrated Managed Items. The MCSF appropriation 17X4913 will be charged for transportation costs on shipments of stock fund owned (SAC 1) items in the following situations.
 - (1) Marine Corps-Managed Items
- (a) Shipments from suppliers to DSSC storage points or user locations.
 - (b) Shipments from DSSC storage points to users.
 - (c) Shipments between DSSC storage points.
- (d) Return of erroneous shipments from users to DSSC activities.
 - (e) Shipments to and from processors.
- (f) When any of the shipments identified in the preceding are to or from an overseas storage point or user, transportation costs will be paid only to and from aerial or ocean ports of embarkation in CONUS. Overseas transportation costs are chargeable to O&MMC, except for shipments to the commissary store at Kaneohe Bay, Hawaii, for which costs are chargeable to the Commissary Trust Revolving Fund.
 - (2) Integrated Managed Items (DLA/GSA/TACOM/WIMM)
- (a) Return of erroneous shipments from users to DSSC storage point.
- (b) Return of stock fund materiel from DSSC storage points to integrated managers with or without credit to the MCSF.
- (c) Except for the two situations outlined in the preceding, transportation costs for the movement of integrated managed items are chargeable to O&MMC in accordance with the provisions of paragraph B.1.b.

B.2. (cont.)

- c. First Destination CONUS Transportation and Shipments to the Commissary Store, Hawaii
- (1) For those Marine Corps-managed items described in paragraph B.2.a.(2)(b) preceding, purchased with MCSF appropriation 17X4913 funds, and moving from suppliers in CONUS to DSSC storage points or users in CONUS, or the commissary store in Hawaii, cite the transportation allotment and TAC as indicated in paragraph B.2.c.(3) following.
- (2) The TAC is used to segregate the transportation costs applicable to the MCSF appropriation by commodity category. Select the appropriate TAC in accordance with the "DESCRIPTION/USE" column.
- (3) If the procuring appropriation is the MCSF appropriation 17X4913, charge the FDT costs to (see note 1):

APPN SYM	BCN	AAA	TTC	TAC	<u>cc</u>	DESCRIPTION/USE
17X4913	6V665	00027	2 D	L811	00099317	Ordnance-Tank-Auto- motive.

				L813	00099317	Communication/Elec- tronics
				L814	00099317	General Property
				L816	00099317	Subsistence
				L817	00099317	Fuel
				L818	00099317	Unassigned

d. Second Destination CONUS Transportation

- (1) SDT includes only movement of stock fund owned materiel subsequent to the initial shipment from a supplier to a DSSC storage point or user. Any cost of movement of materiel subsequent to the initial shipment from a supplier for which the MCSF is liable for payment as outlined in paragraph b., preceding, will be considered SDT costs and will be so identified by the appropriate TAC listed in paragraph 6.B.2.d.(3) following.
- (2) The MCSF will pay SDT for shipments of stock fund owned material in the following situations:
- Note 1. The transportation allotment and TACs shown in paragraph B.2.c.(3), preceding, will only apply to FDT of Marine Corps managed stock fund items. FDT covers the initial movement of materiel from a supplier to a DSSC storage point or to a user in case of a stock fund procurement for direct delivery to a customer. Any subsequent movement of Marine Corps managed items will be considered SDT and cost will be applied in accordance with paragraph d. following.

B.2.d.(2) (cont.)

- (a) Marine Corps Managed Items. (See paragraph B.2.a.(2)(b), preceding.)
- $\underline{1}$ Shipments from DSSC storage points to Marine Corps customers or other Service customers.
 - 2 Shipments between DSSC storage points.
- $\underline{\mathbf{3}}$ Return of erroneous shipments from users to DSSC storage point.
 - 4 Shipments to and from processors.
- (b) Integrated Managed Items. (See paragraph B.2.a.(2)(c), preceding.)
- $\underline{\underline{1}}$ Return of erroneous shipments from users to DSSC storage points.
- 2 Return of stock fund materiel from DSSC storage points to integrated managers with or without credit.
- $\underline{3}$ Except for the two situations outlined in the preceding, transportation costs for the movement of integrated managed items are chargeable to 0&MMC in accordance with the provisions of paragraph B.l.b.
- (3) The following MCSF appropriation data and TACs will be used to charge SDT costs:

APPN SYM	BCN	AAA	TTC	TAC	cc	DESCRIPTION/USE
17X4913	6V665	000027	20	M623 M624 M625 M626 M627 M628	00099365 00099365 00099365 00099365 00099365	Ordnance Materiel Automotive Materiel Engineer Materiel Communication-Elec- tronics Materiel General Property Materiel Guided Missile Components and Equipment

(4) In order to assign the correct TAC to second destination shipments of MCSF (SAC-1) items, the complete management echelon code, consisting of a management code as the first character and an echelon code as the second character, must be considered. The following outlines the management echelon codes, identifying items for which the MCSF is liable for SDT costs, and the management codes related to the type of materiel and TAC:

B.2.d.(4) (cont.)

(a) Management Echelon Code:

Management Code	Echelon Code
1 Through 6	1,4,8, or 9
Alpha	4

(b) Management Code:

<u>Management Code</u>	TAC	Materiel		
1	M623	Ordnance		
2 and A	M624	Automotive		
3 and C	M625	Engineer		
4 and E	M626	Communication -		
		Electronics		
5, 0, G, I, M.	M626	General		
T, and P		Property		
6	M628	Guided Missile		
		Components and		
		Equipment		

(5) The preceding appropriate TACs will appear in block 13 of the DD Form 1348-1, DoD Single Line Item Release/Receipt Document, prepared by MOWASP programs; and the appropriate transportation appropriation or TAC will be cited on the GBL. When there is more than one TAC applicable for O&MMC and MCSF second destination for a GBL, the TAC with the predominant weight will be inserted in the appropriation block of GBL. Each additional TAC will be inserted on the GBL and/or continuation sheet(s) after the description of articles entry (see note 2).

3. Nonappropriated Funds

a. General Information. The Marine Corps, as the sponsoring Service, will assume responsibility for transportation costs, including port handling costs, from the CONUS APOE/SPOE to the overseas destination as described below:

b. Appropriation Chargeable. Overseas transportation charged for the categories of shipments listed below are properly chargeable to the following O&MMC appropriation.

Note 2. For ocean and air transportation of Marine Corps managed stock fund items, the appropriation O&MMC TAC shown in paragraph B.1.b. will be used.

5. Personal Property

- a. Military Personnel and Dependents. Transportation accounting data to be used on snipping documents in connection with the nontemporary storage and movement of HHGs and PE is provided in this paragraph; for shipments moving under orders appropriately chargeable to FY 84, FY 85, and FY 86, paragraph b. applies. With the exception of funding for nontemporary storage, transportation accounting data is also contained in change of station orders. Further guidelines are contained in the NavCompt Manual, paragraph 022083-10a.
- (1) For shipments of personal property of military personnel on TAD or for civilian employees on TAD or PCS, traveling at the expense of the Marine Corps local activity funds, refer to paragraph B.5.f. following.
- (2) For shipments of HHGs and personal property for RPMC, refer to paragraph B.5.g. following.
- (3) For shipment of foreign-manufactured automobiles via MSC, purchased or delivered in a foreign country, refer to chapter 4 and part H of the JTR.
- b. Construction of TACs. TACs relative to the movement of MPMC, HHGs and PE for FYs 84, 85, and 86 are constructed on the following basis:

EXAMPLE: M566

- (1) First Character. The alpha "M" (to remain constant) is used to identify Marine Corps owned and/or sponsored material.
- (2) Second and Third Characters. This alphanumeric combination of characters denotes the officer or enlisted status of the member and the description/purpose of the movement. In the second position, codes 5 and 8 denote "Officer" and codes 7 and 9 denote "Enlisted." (In the preceding example, "56" denotes "Officer, Trailer Allowances, PCS within CONUS, Other Than Unit Move.")
- (3) Fourth Character. This numeric character identifies the FY within which the member's detachment date falls. (In the preceding example, "6" denotes an FY effective date.)

The GBLs and TCMDs provided will be used by the appropriate cost center as obligation documents and must cite correct and complete appropriation data and estimated cost so that they can be matched to appropriate expenditure documents.

f. Inland Shipments. For inland shipments made by GBL each Force Commander will identify a block of consecutive four digit numbers to be used in the last four positions of the PAA portion of the accounting classification data. These numbers should be assigned by the Force Commander to the individual activities authorized to requisition subject transportation. Additionally, the Force Commanders will require these activities to include on all shipment requests (DD Form 1348-1/DD Form 1149) the complete chargeable appropriation data, including the assigned consecutive PAA numbers. The entire appropriation data and estimated cost will be annotated on the

B.6.f. (cont.)

shipping document (GBL) by the shipper (TMO) and perpetuated throughout the system. The consecutively serialized PAA numbers will provide a means of matching the obligation document (with estimate cost) and the 634s (with actual costs) for inland transportation.

- g. Ocean/Air Shipments. For ocean/air shipments made by TCMDs, each shipper/TMO will annotate the chargeable appropriation data and estimated cost on the shipping document and provide advance copies as instructed in paragraphs d. and e. preceding. The CG, MCLB (Code 470), Albany, GA, will provide mechanized listings of all TCNs along with the paid voucher to the appropriate AAA address. The mechanized listing of TCNs (with actual costs) will provide a means of matching the obligation documents (TCMDs) with the TCNs.
- h. Unique Cost Account Codes. In order to identify subject obligations and expenditures by FMF Commanders and mode of transportation (inland, ocean, port handling, and MAC air), the following unique CACs will be used, in O&MM decision unit 72, by FMFLANT to collect and report subject TOT shipments:

TRANSPORTATION ACCOUNT CODES, DEPARTMENT OF THE NAVY

7-i. INTRODUCTION

The Navy Transportation Account Codes (TACs) listed and defined herein identify management information and costs initially financed through the Navy Management Fund (NMF) Transportation of Things subhead. TACs are used within the accounting appropriation data to identify the appropriation or user ultimately responsible for paying the transportation costs incurred.

b. Definitions

(1) First Destination. First Destination shipments originate from the contract or contractual relationship between the procurement source and the procurer. FOB origin contracts require that Navy shipping costs, paid initially by the NMF, be identified and billed to the appropriations having funding responsibility for moving purchased materiels. This is achieved by citation of the TAC listed in paragraph B.l.a. which relates to the appropriation procuring the materiel. First Destination Transportation (FDT) funding responsibility rests with either NAVSUP for APN, WPN, SCN, and OPN or the "administering office" of the procuring appropriation and subhead series as listed in NAVCOMPT Manual, Volume II. FDT is that transportation required to effect the delivery of materiel from a procurement source to the first point of use or storage for subsequent

board.

A.1.b.(1) (cont.)

distribution within the supply system. The procurement source and first point of use or storage may be in CONUS or overseas. procurement source, as used herein, is any supplier outside the DoD supply system and any DoD activity which fabricates new material. FDT also includes transportation from point of origin to point of use or storage when Navy owned material or equipment is provided incident to an R&D project or a system/equipment acquisition or modification. Charges include those for freight cartage, port handling, and other costs (except demurrage) incurred incident to the shipment of the materiel. "Freight cartage" means any cartage included in throughdelivery documentation. However, in instances of cartage for consignments to a shore-based activity, ship, or other mobile unit when there is a shore-based activity assigned responsibility, the delivery costs, including commercial charges, will be funded from the operating resources of the activity assigned area responsibility. Port Handling costs are paid from transportation funds. In general, overseas port handling costs are chargeable to either the activity handling the cargo or the fleet CINC having responsibility. following guidelines for determining the proper TAC are provided to activities and offices requisitioning materiel or requesting procurement of materiel:

- (a) Procurement and contract administration personnel will assure that for F.O.B. origin procurements, transportation funding will be cited separately and made available to the shippers. The proper first destination TAC to be cited is the one associated with the appropriation procuring the material.
- (b) Navy Industrial Fund (NIF) and modified industrial activities offering materials for shipment will provide to the following information:
 - 1 Materiel to be shipped is:
 - <u>a</u> Manufactured, assembled, and fabricated on
- \underline{b} Navy owned materiel incident to a system/equipment acquisition or research and development project.
- \underline{c} Navy owned materiel incident to overhaul, rework, or repair project.
- $\underline{2}$ If \underline{a} or \underline{b} above, provide funding appropriation and subhead.
 - 3 If c, see Second Destination TAC section.

A.1.b.(1)(b)3 (cont.)

All Navy shipping activities engaged in both original shipments and transshipments must ensure that local procedures provide the traffic component with information indicating if material was procured; associated with a system/equipment acquisition or RDT&E Projects; associated with an overhaul, repair, rework project; stock material consigned to Navy requisitioners; FMS or Grant Aid Material; Organic (Fleet owned) material; excess material; other. The Transportation Officer (TO) will specify the necessary information required from the shipper to select the correct TAC.

Shipments of Government Property for use or consumption by contractors or industrial activities are chargeable to the appropriation funding the project or contract involved and are considered new procurement/first destination.

(2) Second Destination. Second destination transportation (SDT) is the subsequent distribution of materiel within the supply system after the completion of first destination. It includes shipments required to fill Navy requisitions; redistribute materiel; and return materiel for overhaul, rework, repair, or disposal action. It does not include the issue of Navy owned materiel incident to a system of equipment acquisition, modification, or a research and development project (see first destination).

Government furnished material shipped incident to a foreign military sales (FMS) or grant aid project must cite on the shipment documentation, the FMS or Grant Aid TAC as derived in accordance with instructions in chapter 11. Government furnished property shipment costs incident to an overhaul, rework, or repair project are considered second destination for O&MN funded shipments. For Navy Stock Fund, see SDT "COG" TACs. Other appropriations should cite FDT TACs.

Second destination shipments are generated by inventory manager decision to redistribute materiel; in response to organic Navy requisition for resupply; supply officer decisions to retrograde materiel for disposal or repair; in connection with an overhaul or repair project; and miscellaneous intra-Navy shipments of non stock materiel.

Other shipment costs paid by the NMF such as FMS, Household Goods (HHGs), other Government Agencies, etc., are separate systems with different material movement decision and funding responsibilities. (See chapter 11 for FMS.)

Return of excess/surplus materiel to an inventory manager or for disposal or rework is second destination and will cite the appropriate SDT COG TAC.

If excess materiel is acquired with Navy funds other than Military construction, Navy (MCN), Research, Development, Test and Evaluation, Navy (RDT&E), Navy Industrial Fund (NIF) Family Housing Navy and

Marine Corps, use second destination Navy COG TAC, if COG is known; if not known, use Navy non-COG TAC explained in paragraph B.1.b.(1). MCN, RDT&E, NIF, and Family Housing should cite FDT TACs shown in paragraph B.1.a. If shipper is Defense Logistics Agency (DLA) (e.g., defense depot), contact the TAC coordinator shown in MILSTAMP, Volume II, chapter 8 for the appropriate reutilization DLA-TAC.

- (3) Nonsignificant TACs. Shippers are not authorized to use the Navy nonsignificant TAC which is NØØØ. Its use is restricted to Air Terminals (MAC, QUICKTRANS, and LOGAIR) for the expeditious movement of cargo. Shippers of Navy sponsored ocean cargo should resolve TAC problems with the NAVMTO Representative at the appropriate MTMC Area Command (Eastern Area AUTOVON (AV) 247-6458; Western Area AV 836-6116). For all other TAC problems contact NAVMTO (AV 564-3165).
- c. Navy TAC Coordination/Assistance. Navy Material Transportation Office (NAVMTO) maintains the Navy TAC system. The TO or designated agent is responsible for the correct assignment of TACs in accordance with instructions contained herein. The requisitioner or directing/authorizing agent is responsible for providing the TO with the data needed to determine the correct TAC. Transportation personnel may contact the NAVMTO, NMF (Code Ø6) for assistance on Navy-sponsored shipments. AUTOVON is 564-3165; commercial is 804/444-3165.
 - d. Appropriations Chargeable
- (1) General. The complete NMF appropriation line of accounting to be cited for shipment of all Navy material for all fiscal years is as follows:

17X3980.2379/022/_____/0/063408/2D/000000 000_____98003

The five digit Bureau Control Number (BCN) field should be filled in accordingly:

- BCN 71001 This BCN will be charged for all shipments diverted from the United States Postal Service (USPS) to United Parcel Service (UPS). TAC N200 must be shown for these shipments.
- BCN 72001 and TACs This BCN will be used to identify shipments to be billed by the NMF for reimbursement by the benefiting customer. Shipments which are usually shipped on a GBL and charged to FDT or NIF Accounts TACs must be summarized accordingly.
- BCN 73001 and TAC N100 This BCN will be charged for all shipments which would usually be charged to SDT or NSF Transportation Accounts. (Shipments that would usually be shipped on a GBL and diverted to UPS hazardous materiel, etc.)

A.1.d.(1) (cont.)

"TAC N100" must be shown for these shipments.

BCN 74001 - Use 74001 for GBL.

BCN 76001 - This BCN will be used within the NMF to separately identify and control the shipment by UPS of FMS material.

NAVMTO will accumulate all charges associated with this BCN and bill them to the NAVILCO who has funds set aside to pay for these shipments. TAC N300 must be shown for these shipments.

The four blanks preceding the functional account code (98003) will be completed with the TAC constructed or extracted in accordance with this publication. For example, TAC N696 would be reflected as "...N696980/3."

(2) Government Bills of Lading. In preparation of GBLs payable to NAVMTO, Code Ø21.2, the following abbreviated NMF accounting citation is authorized for the appropriations chargeable block:

- (3) Retrograde. (See SDT COG TACs in paragraph B.2.b.)
- 2. Decision Table

IS SHIPMENT

1. Navy Sponsored?

YES - Is first position of the requisition number of source document (DD Form 1348-1) in record position 30 an an N, R, or V? Does source document such as DD Form 1149 cite appropriation beginning with 17?

NO - Determine sponsoring agency. Cite their TAC from applicable chapter in MILSTAMP, Volume II. Contact other Service/Agency (S/A) if assistance is needed.

2. Originating at Resource Point (contractor, plant, or Navy Industrial Activity)?

YES - This constitutes FDT except rework materiel. Cite FDT TAC associated with procuring appropriation or fund. TACs N780 through N914 apply. (See paragraph B.1.a.)

NO - See SDT in paragraph B.1.b.

DoD 4500.32-R Vol. II

A.2. (cont.)

IS SHIPMENT

3. Navy owned, incident to RDT&E or System/Equipment acquisition or modification?

YES - Cite appropriate FDT TAC associated with RDT&E or system acquisition or modification procuring appropriation or fund. TACs N78Ø through N998 apply. (See paragraph B.1.a.).

NO - Proceed to next question.

4. Excess materiel acquisition?

YES - Effective FY 83 the shipper pays. If shipper is DLA, such as a defense depot, contact the TAC coordinator in MILSTAMP, Vol. II, chapter 8. If Navy COG material is shipped from Navy activity, cite the appropriate COG TAC. Example: COG 7E excess material would need TAC N504.

NO - Proceed to next question.

5. SDT requisition/ redistribution or return of Navy COG materiel?

YES - See paragraph B.1.b. For Navy shippers, descriptions of materiel included/excluded in each COG are determined from NAVSUPPUB 1, Volume II.

NO - Proceed to next question.

6. Rework materiel?

YES - If Navy stock funded, use SDT. COG TACs cited in paragraph B.1.b. For repair/rework of Navy owned materiel incident to a system or equipment acquisition or modification research and development project, cite FDT TAC according to appropriation cited.

NO - Proceed to next question.

7. FMS or MAP materiel?

YES - See chapter 11 for FMS/MAP.

NO - Proceed to next question.

8. Materiel required by and for an NIF activity citing the NIF appropriation 17X4912?

YES - Cite the NIF TAC associated with the procuring subhead. TACs N915 through N998 apply. See paragraph B.1.a.(11).

NO - Proceed to next question.

A.2. (cont.)

9. HHGs, Personal Effects or POV for military?

YES - Obtain TAC from paragraph B.4.a. for MPN-funded shipments citing appropriation 17_1453.___ on PCS Travel Orders.

NO - Proceed to next question.

10. HHGs, Personal Effects, or POV for reserve personnel, Navy? YES - See paragraph B-4e for RPN-funded shipments citing appropriation 17_1405.___ on PCS Travel Orders.

NO - Proceed to next question.

11. HHGs, Personal Effects, or POV for civilian?

YES - For non-MPN (civilian) funded shipments, obtain TAC from paragraph B.4.b. according to appropriation.

NO - Proceed to next question.

12. Overseas transportation of subsistence under DLA management (WIMS)?

YES - Obtain subsistence TAC from MILSTAMP, Volume II, chapter 8.

NO - Proceed to next question.

13. Any of above, but incurs a demurrage charge?

YES - Charge demurrage to TAC N161. Refer to paragraph B.1.b.(5).

NO - Refer to other questions.

14. Prepay and Add?

YES - Prepay and Add (PP and A) is a procurement and financial procedure to allow a vendor to arrange transportation to a destination, pay the transportation costs, and add it to the vendor bill as a separate line item. See FAR 42-1403-2 and FAR 19-403-2 concerning details on parameters of utilizing PP and A procedures. The material cost is paid from the procurement appropriation. However, the transportation charges will be billed to NAVSUP 0&M, N via the NMF. PP and A charges for the below listed procurement appropriations will be

DoD 4500.32-R Vol. II

A.2. (cont.)

separately identified through the use of individual TACs. Contracting offices utilizing PP and A will include in the contract the appropriate transportation accounting data for obligation purposes. The NMF accounting citation chargeable is: 17X3980.2379 022 74001 0 063408 2D 000000 000 ----98003. The hyphen (-) positions (4 each) will be filled by a TAC which is dependent upon the funds appropriation procuring the materiels. The TACs available for use to pay PP and A charges are found in paragraphs B.1.a.(4) thru (9). If PP and A TAC is applicable, all subheads under the related appropriations should be charged to the same PP and A TAC.

NO - Refer to other questions.

15. Administrative Materiel Shipment?

YES - Administrative materiel consists of items such as: general correspondence, personnel records, payroll records, laborat y samples (except whole blood and urine samples), computer tapes, legal/ financial/recruiting/contracting/ blueprints or similar documents, and technical manuals not requisitioned through stock. Shipment of administrative materiel will be funded by local activity requesting shipment. The requisitioning activity will prepare a requisition and invoice/shipping document (DD Form 1149) and forward same to shipper for retention until receipt of the carrier's invoice/CBL. Carriers will be instructed to forward invoice/CBL to shipper, who will certify, attach DD Form 1149 and forward to paying office.

NO - Refer to other questions.

YES - Use COG TAC cited in para. B.1.(b)(2) or, if non-COG, see

16. GFM/GFE?

A.2. (cont.)

paragraph B.1.b.(1). If further assistance is needed, contact NAVMTO on AUTOVON 564-3165 or Commercial (804) 444-3165.

NO - Refer to other questions.

YES - Use TAC N914.

NO - Refer to other questions.

YES - Use TAC NØ82.

NO - Refer to other questions.

18. Navy owned military readiness equipment and support materiel assigned to Coast Guard units in support of Navy missions?

17. Surcharge Collections, Sales of Commissary Stores, Navy (Appropriation 17X8420)?

19. Red Cross supplies and equipment to and from overseas for ocean or air shipments sponsored by the Department of Navy?

YES - Applicable cost will be done by operations and maintenance funds of the bureau, office, or operating force having financial responsibility of activity to which shipment is ultimately consigned. For other than fleet sponsored, use TAC N651. Contact the fleet to obtain a TAC for appropriation 17-1804.6000 or 7000 series.

NO - Refer to other questions.

SECTION.B. STANDARD TACS

1. Logistics Materiel

a. First Destination Transportation. Transportation personnel will extract the TAC listed in this section which corresponds to the appropriation and subhead provided by the shipper. Unless otherwise specified or excepted, the subheads listed will be considered as covering a series. For example, subhead .2300 includes all subheads beginning with ".2301" up to and including .2399. In the current year OPN appropriation, the second character of the subhead (a digit), determines the TAC unless otherwise specified. Navy Stock Fund procurements require that the budget project be identified. Appropriations listed below are in numerical order as well as the subheads within appropriations:

In addition, shipments of materiel incident to the fabrication, assembly, or production effort must be considered FDT, such as acquisition of excess. Multi stage shipments of produced materiel or equipment requiring additional machining, testing, modification, etc., before reaching ultimate point of Navy use or storage, is FDT. Information on the nature and appropriate funding of the materiel being shipped must be provided to the servicing traffic organization by the program/project manager directing shipment of materiel. These TACs are also used for HHG and POV shipments when NIF funded.

(2) SDT shipments of Navy Stores Account materiel will cite TACs listed in series NIØl-N599. The third and fourth digits of these TACs are fixed to represent the materiel (determined by the materiel cognizance codes). The second digit must be selected as "l", "2", "3", "4", or "5" to represent the purpose of the shipment as a result of requisition action, redistribution, or return/retrograde/disposal. For example: Four digit TAC (in NIØl-N599 series)

NX XX

Specifically assigned below. Assign purpose code 1, 2, 3, 4, or 5, as appropriate.

The second digit illustrated above represents a shipment purpose code assignment and is defined as follows:

USE NUMERAL:

1 . . . For shipments made in response to a requisition for materiel if service code is "N" (for example, service code is reflected in rp 30 of DD Form 1348-1 immediately preceding Unit Identification Code (UIC) of the requisitioner).

- 2 . . . For shipments made in response to a requisition for materiel if service code is "V" (for example, service code is reflected in rp 30 of DD Form 1348-1 immediately preceding UIC of the requisitioner).
- 3 . . . For shipments made in response to a requisition for materiel if service code is "R" (for example, service code is reflected in rp 30 of DD Form 1348-1 immediately preceding UIC of the requisitioner).
- 4 . . . For shipments made in response to redistribution orders of Stores Account Materiel as directed by an Inventory Control Point, or other inventory stocking point (normally reflected by DI Code series A2) (NOTE: does not include returns/retrograde).
- 5 . . . For shipments made in response to various actions or directives to return materiel to inventory managers, retrograde of repairable carcasses to Designated Overall Points (DOP), other retrograde actions, and disposal movements.

For example, shipments in response to requisition action with requisition number VØ3367 6182 ØØØ1, and materiel COG of 25 would have a correct TAC of N227. For Service codes other than "N", "V", or "R" cited in requisitions where accounting data of the other service is cited on the requisition, that accounting data will be transcribed to the shipping document for payment of transportation charges. For requisitions shipping Navy cognizance materiel with no other accounting data listed, use the appropriate COG TAC listed below and cite purpose code "l." (See chapter 11 for Security Assistance Program (SAP) TACs when service codes "P" or "K" are cited.)

If DD Form 1348-1 is a non-Navy requisition and rp 55-56 is an even Navy COG, i.e., ZZ, the other S/A TAC such as "F," "M," or "Z" requiring the shipment of Navy COG materiel will be assigned for all modes of transportation. If the non-Navy requisition is for an odd Navy COG, e.g., 1R, the Navy TAC will be assigned for shipments within the 50 United States and the other S/A TAC will be assigned for movement overseas from the POE/APOE.

The following Stores Account Materiel list is provided in sequence of materiel cognizance (COG) symbols and specifies the fixed (first, third, and fourth) positions of the SDT TAC for shipments of these commodities. The correct Navy COG will appear in the "R" block on DD Form 1348-1 requisitions. Further description of COGs may be found in NAVSUP, Volume II, paragraph 21148.

a. FDT. The budget project determines the TAC. The budget project is the first two digits in the Bureau Control Number. For example: "17X4911.2310 000 14000" is the partial accounting list for the Navy Stock Fund appropriation. 14000 represents the Bureau Control Number field and indicates that 14 is the appropriate budget project. As shown below, the corresponding TAC is N901.

- (1) General. The Financial Management Handbook for Permanent Change of Station (PCS) Travel (NAVPERS 159282C) requires data on shipping documents in addition to the NMF citation and applicable TAC. Paragraphs (2) thru (8) below define and explain the accounting data pertinent to household goods shipments resulting from permanent change of station orders.
- (2) Accounting Data Shown in Member's Orders. Pertinent account data shown in member's orders will include appropriation symbol, subhead, bureau and activity control numbers, allotment, and TAC as applicable; on PCS orders the TAC, customer identification code, and other data will be included. Example of accounting data as it will appear in orders is included in paragraph (3) below. It will be the responsibility of the household goods offices arranging

TCMDs (DD Form 1384) will include the TAC transcribed from the member's orders or from incoming shipping documents. Paragraph (5) below explains elements of the Navy TAC for Military household goods.
- (4) Rank or Rate Code A one-digit alpha code is used to designate the rank or rate of the member involved in PCS move. The rank or rate codes are indicated in the following chart:

(5) Explanation of the TAC Structure. The TAC is explained by the following example and pertinent data:

Example: Household goods shipment of an officer to his duty station in the United States (land travel) for the purpose of training, detached July 1981.

B.4.a.(5) (cont.)

First Position: Navy transportation account code always prefixed by

"N."

Second Position: Purpose identification code (see paragraph (6)

below).

Third Position: Month of detachment code and, in some instances,

the month of shipment (see paragraph (7) below).

Fourth Position: Last digit of the fiscal year of detachment or

fiscal year of shipment.

(6) Purpose Identification Code. One character codes (alphanumeric) in the second position of the TAC are used to identify (a) the purpose of PCS, (b) whether the move is land or to and from overseas, and (c) whether the member is an officer or an enlisted person. These codes are as follows:

Classification	Description	Purpose Identification Code (second position of TAC)

(8) Transportation Costs are properly chargeable to the Navy Military Personnel Appropriation covering Personal Effect shipments when PCS orders have not been issued to the member. Shipments of household goods are sometimes shipped under special, unusual, and emergency circumstances. When the customer identification code or the TAC is not available, the TAC listed in the following charts will be used on the shipping documents with the blank spaces (third and fourth position of TAC) filled in with the codes applicable to month and fiscal year in which dependents traveled, or the month and fiscal year of shipment, as appropriate:

(1) General

The TACs listed by appropriation and subhead sequence in paragraph (2) below will be used for HHG/POV movement of military personnel and overseas movement of civilian personnel where PCS travel orders cite the appropriations and subheads indicated. For these four-character TACs, the first and last character will always be alpha and the second and third characters will always be numeric. BCN indicated in parenthesis after the subhead must be considered before assigning a TAC.

- c. American Red Cross Employees (HHGs). Not Applicable.
- d. TDY Military and Civilian. See paragraph B.4.b in accordance with appropriation on the temporary orders.
- e. Reserve Personnel, Navy (RPN) Funded. TACs for shipments of personal property of Reserve Personnel, Navy.
- (1) General. The NMF requires citation of the applicable transportation account code. Subparagraphs (2)-(8) define and explain the accounting data pertinent to HHGs shipments resulting from permanent change of station orders.
- (2) Accounting Data Shown in Member's Orders. Pertinent accounting data shown in member's PCS orders will include TAC, appropriation symbol, rank/rate code (suballotment), authorization accounting activity, customer identification code and other data as applicable. An example of accounting data as it will appear in orders is included in subparagraph (3). It will be the responsibility of the HHGs offices arranging for land, ocean, and air shipments to apply the proper TAC and other accounting data to shipping documents, or furnish such data to the local shipping offices.

B.4.e. (cont.)

(3) TAC data for shipments when NMF transportation costs are properly chargeable ultimately to the appropriation reserve personnel Navy. Example of accounting data cited in member's orders covering permanent change of station is as follows:

NAS3	1731405.225A	A 99992	2 AA AS 3/1/	1/1 AS3987654	321

GBLs will cite the TAC shown in the member's orders in the NMF citation. In addition, the grade or rank code and the full CIC in the member's orders will be shown elsewhere on the bill of lading. TCMDs (DD Form 1384) will include the TAC transcribed from the member's orders or from incoming shipping documents. Subparagraph (5) explains elements of the Navy TAC and subparagraph (6) explains the purpose identification code used as one element of the TAC.

(4) Rank or Rate Code. A one-digit alpha code is used to designate the rank or the rate of the member involved in PCS move. The rank or rate codes are indicated in the following chart:

Classification	Pay grade	Rank or rate code
Enlisted:		
Recruit	E-1	Α
Apprentice	E-2	В
Seaman	E - 3	C

DoD 4500.32-R Vol. II

(5) Explanation of the TAC Structure. The TAC is explained by the following example and pertinent data:

Example: Household goods shipment for an officer to his duty station in the United States (land travel) for the purpose of training, detached October 1985.

B.4.e.(5) (cont.)

Fourth position: Last	t digit of the fiscal year of etachment or fiscal year of shipment		

(6) Purpose Identification Code. One character codes (alpha or numeric) in the second position of TAC are used to identify the purpose of PCS, whether the move is land or to and from overseas, and whether the member is an officer or an enlisted personnel.

These codes are as follows:

Classifi	<u>cation</u>	Purpose identification code (Second position of TAC)
Officers	Accession, land travel	2

(8) Transportation costs are properly chargeable to the Navy Reserve Personnel Appropriation covering Personal Effect shipments when Permanent Change of Station Orders have not been issued to the member.

Shipments of household goods are sometimes shipped under special, unusual, and emergency circumstances. When the CIC or the TAC is not available, the TAC listed in the following charts will be used on the shipping documents with the blank spaces (third and fourth position of TAC) filled in with the codes applicable to month and fiscal year in which dependents traveled, or the month and fiscal year of shipment as appropriate:

SECTION A. GENERAL

1. General Information

- a. Reference: DLAM 7000.1
- b. Definitions
- (1) First Destination Transportation (FDT). This is transportation of DLA materiel from the contractor to the first point of use or storage:
 - (a) Contractor to DLA depot (Note 1).
 - (b) Contractor to CONUS port (Note 1).
 - (c) Contractor to CONUS customer (Note 1).
 - (d) Contractor to overseas customer.
- (2) Second Destination Transportation (SDT). This is transportation from the first point of storage to the second point of use or storage:
 - (a) CONUS port to overseas customer.
- (b) DLA depot to CONUS port or CONUS customer (Note 1).
- (3) Nonsignificant TACs. Shipping activities are not authorized to use the DLA nonsignificant TAC. DLA nonsignificant TAC SOPP is authorized for use by MAC, MSC, and MTMC activities only to assure the uninterrupted flow of cargo through Aerial/Water ports.

Nonsignificant TAC

5000

- (4) TAC Construction. TACs relative to the movement of DLA material are constructed on the following basis:
- (a) First Character. The alpha "S" is used to identify Defense Logistics Agency owned and/or sponsored material.
- Note 1. A fund citation from the Defense Stock Fund will be used. These fund cites are disseminated annually by letters to selected shippers (major Service/Agency activities). In the absence of this funding guidance shippers are instructed to contact the DLA TAC coordinator per A.1.c., this chapter.

DoD 4500.32-R Vol. II

A.1.b.(4) (cont.)

- (b) Second Character. The alpha or numeric character which identifies the appropriation applicable to the shipment.
- (c) Third Character. The alpha or numeric character which identifies the commodity (Defense Stock Fund) or fiscal year (O&M) chargeable to shipment.
- (d) Fourth Character. The alpha character that identifies the DLA Center to which the transportation charges should be billed for payment.
- c. DLA TAC Coordination/Assistance. The following DLA TAC coordinator has been established to provide assistance in unusual DLA TAC assignment problems that cannot be otherwise resolved through use or research of this chapter. This is also for any coordination required for the establishment/modification of all TACs.

Headquarters, Defense Logistics Agency ATTN: DLA-CFG Cameron Station Alexandria, VA 22304-6100

Telephone: AUTOVON 284-6217

Commercial (202) 274-6217

- d. Appropriations Chargeable
- (1) Retrograde cargo of Defense Stock Fund materiel will not cite DLA TACs/appropriations. It is the responsibility of the requisitioning activity to provide the TAC/appropriation.
- (2) Property Disposal Equipment moving between a CONUS property disposal activity and an overseas property disposal activity will use the following fund cite for the CONUS portion of the transportation. This fund cite is also applicable for the CONUS transportation of precious metals which are turned into the Defense Reutilization and Marketing Service (DRMS).

97*Ø1ØØ.5141 Ø1 P5ØØ 22 S2Ø114

2. Decision Table

Is Shipment

1. DLA-owned materiel?

YES - Go to question 2.

NO - Determine from the source document (DD Form 1348-1 rp 30) the requiring Service by the first position of requisition number and refer to the appropriate chapter in Vol. II, MILSTAMP for TAC assignment.

2. Is requisitioner located in CONUS?

YES - A DLA TAC does not apply but a DLA fund cite must be cited on GBL. Shipments by QUICKTRANS and LOGAIR will use DLA TACs (see B.2.b.).

NO - Go to question 3.

3. Subsistence Materiel?

YES - If shipment is from a CONUS vendor, a CONUS port, or from an overseas vendor source, see Vol. II, chapter 8 of MILSTAMP. Shipments from overseas DLA storage points will charge appropriate customer's TAC. Shipments to Army consignee in Saudi Arabia will utilize Army TAC A811.

NO - Go to question 4.

YES - If shipment is from CONUS port to overseas locations, see Vol. II, chapter 8 of MILSTAMP.

NO - Go to question 5.

YES - If shipment is from CONUS port to Alaska, Hawaii, or Puerto Rico, see Vol. II, chapter 8 of MILSTAMP. Other destinations will require appropriate TAC from customer.

NO - Go to question 6.

4. Bulk Fuel?

5. Clothing & Textiles Materiel?

DoD 4500.32-R Vol. II

A.2. (cont.)

6. Construction, Electronics, General, Industrial, or Medical Materiel? YES - If shipment is from CONUS port to Alaska or Hawaii, see Vol. II, chapter 8 of MILSTAMP. Other destinations will require appropriate TAC from the customer.

NO - Go to question 7.

7. Precious Metals Returned to DRMS?

YES - Shipments from overseas to CONUS ports will use TAC in Vol. II, chapter 8 of MILSTAMP.

NO - Go to question 8.

8. Equipment of a Defense Reutilization and Marketing Region (DRMR)?

YES - First, identify the receiving DRMR and cite the applicable TAC from Vol. II, chapter 8 of MILSTAMP for the transportation between the CONUS port and the overseas activity. A DLA TAC will be used only for shipments between property disposal activities. An Agency receiving items from or turning items over to a property reutilization activity will cite their own funds.

NO - Go to question 9.

9. Equipment to Defense Fuel Supply Center (DFSC)?

YES - Shipments from CONUS ports to an overseas DFSC operation will use a TAC from Vol. II, chapter 8 of MILSTAMP.

NO - Go to question 10.

10. Household Goods and/or POV of DLA Personnel?

YES - Shipments from CONUS port to overseas DLA activity will cite applicable TAC from Vol. II, chapter 8 of MILSTAMP. Shipments from overseas to CONUS DLA activities will cite applicable TAC from Vol. II, chapter 8 of MILSTAMP.

NO - Go to question 11.

A.2. (cont.)

11. Defense Industrial Plant Equipment Center (DIPEC) directed shipments of Industrial Plant Equipment (IPE)?

YES - DIPEC directed IPE shipment to and from overseas locations (including Alaska & Hawaii) will cite applicable TAC from Vol. II, chapter 8 of MILSTAMP.

NO - If review of Volume II of MILSTAMP does not solve problem, contact DLA TAC coordinator.

SECTION B. STANDARD TACS

1. Logistics Materiel

- a. First Destination Transportation (FDT). This situation does not arise in respect to the logistics material mentioned below.
 - b. Second Destination Transportation (SDT). (Note 2)
- (1) TAC for Precious Metals. This TAC is cited for shipments destined for CONUS ports from overseas:

Precious Metals: S6*S

(2) TACs for Equipment Defense Fuel Supply Center. This TAC is cited for shipments from CONUS ports to overseas:

Equipment Defense Fuel Supply Center: S5*A

(3) TACs for Equipment Defense Reutilization and Marketing Service (DRMS). These TACs are cited for the overseas portion of the transportation of equipment to the respective regions. A DLA TAC will be used only for shipments between reutilization activities. An Agency will cite its own funds for transportation when it requisitions items from or turns items over to a property reutilization activity.

Equipment Headquarters DRMS S5*S Equipment DRMR Columbus S2*S Equipment DRMR Memphis S4*S Equipment DRMR Ogden S7*S Equipment DRMR Europe S8*S Equipment DRMR Pacific S9*S

(4) TACs for Industrial Plant Equipment (IPE). When the Defense Industrial Plant Equipment Center (DIPEC) directs the movement of IPE to a storage site or user (to or from overseas locations) a DLA TAC applies. A DLA TAC will also be used for IPE shipments by QUICKTRANS or LOGAIR. The shipper assigning the DLA TAC will send a copy of both the DD Form 1348-1 and TCMD for the respective shipment to the following address:

Defense Industrial Plant Equipment Center ATTN: DIPEC-PF Memphis. TN 38114-5297

Note 2. Asterisk in third position of TAC denotes fiscal year chargeable to shipment.

2. Defense Stock Fund (DLA)

- a. FDT. A TAC may be applicable in this instance for subsistence only, e.g., when a vendor ships subsistence items directly to a customer or DLA storage point (see B.2.b.).
- b. SDT. Stock Fund materiel shipped by QUICKTRANS or LOGAIR will use the appropriate TAC listed below:
- (1) The following TAC (Clothing & Textiles) is restricted to shipments from ports to Alaska, Hawaii, and Puerto Rico only.

Clothing & Textiles S1TP

(2) The following TACs are restricted to shipments from CONUS ports to Alaska and Hawaii:

Construction	SICC
Electronics	SIEE
General	S1GG
Industrial	S1KK
Medical	S1MP

(3) The following TAC (Bulk Fuel) is restricted to shipments from CONUS ports to worldwide locations:

Bulk Fuel (Worldwide) S1FA

(4) The following TACs (Subsistence) are restricted to shipments meeting the criteria set below:

Subsistence shipments to Army consignee in Saudi Arabia will utilize Army TAC A811 (see chapter 2).

Shipments from CONUS ports to Alaska and Hawaii, including port handling costs and inland transportation in Alaska for troop issue. - - - - - - SISP

Shipments from CONUS ports to Alaska and Hawaii, including port handling costs and inland transportation in Alaska for resale. - - - - - - - - - - - SIRP

(5) When mixed shipments of DLA commodities are shipped in SEAVANs to Alaska or Hawaii, each TX4 (Shipment Unit) card must designate the proper TAC that describes the shipment, viz: S1RP (S one R P) (Subsistence for Resale), S1SP (S one S P) (Subsistence for Troop Issue), etc. The TX4 card will indicate the total pieces, weight, and cube of the DLA TAC for each Stock Fund commodity shipped in the SEAVAN. The combined total pieces, weight, and cube of all TX4 cards must be shown in rp 68 thru 80 of the TX2 (Prime SEAVAN Data) card.

DoD 4500.32-R Vol. II

B.2. (cont.)

- c. DLA Materiel Positioned at Non-DLA Storage Sites. When a DLA ICP directs shipment of this materiel, that DLA ICP will be responsible for transportation to the CONUS port. To determine whether DLA is responsible for the overseas transportation costs, see DLA Decision Table. Shipment of DLA materiel held at a non-DLA storage site which is directed by a non-DLA ICP will require citation of the non-DLA ICP's funds for transportation.
- d. Non-DLA Materiel Positioned at DLA Storage Sites. Transportation will be charged to the ICP directing the shipment of this materiel.
 - 3. Nonappropriated Funds. Not applicable.
 - 4. Personal Property
 - a. Military/Dependents. Not applicable.
- b. Civilian/Dependents. (Note 3). The appropriate TACs below will be cited for the movement of Household Goods and POVs.

DPSC Employees
DRMS Employees
S3*S
DFSC Employees
All other DLA employees
The DLA TAC coordinator (see 8-I-1c) will be contacted for appropriate guidance before the TCMD is prepared.

- c. Red Cross Employees. Not applicable.
- d. Baggage for TDY $\mathsf{Military}$ and $\mathsf{Civilians}$. Not applicable.
 - 5. Deceased Personnel. Not applicable.

Note 3. Asterisk in third position of TAC denotes fiscal year chargeable to shipments.

SECTION C - OTHER TACs (Reserved)

SECTION D - BILLING INFORMATION.

8-D-1. BILLING ADDRESSES. The fourth position of DLA TACs denotes the activity/center responsible for payment of transportation bills.

a. TOAs will submit bills according to the 4th position of the TAC for service to the appropriate address listed below:

Defense Supply Center or Activity	Code Billing Address
Defense Personnel Support Center	P 28 South 20th Street Philadelphia, Pa 19145-5001

CHAPTER 9

TRANSPORTATION ACCOUNT CODES, U.S. COAST GUARD

9-i. INTRODUCTION

This chapter provides definitions, instructions, and information to guide personnel in assigning the proper TACs to CG. The assignment of the correct TAC will eliminate questions about the accuracy of Defense Transportation System (DTS) billings and speed up the payment of charges. CG TACs are normally generated from the Transportation Control Numbers (TCN) and Military Standard Requisition and Issue Procedures (MILSTRIP) fund codes. Special situations concerning personal property are explained in this chapter. Alternative procedures for generating TACs from appropriation accounting data are also provided. A decision table has been added to this chapter to provide a quick reference to the proper assignment of CG TACs.

SECTION A. GENERAL

1. General Information. TACs are derived from information contained in the purchase orders, requisitions, contracts or other documents accompanying the shipments. The TAC consists of four alphanumeric characters:

First Character - The first character of all CG sponsored shipments is the letter "Z."

Second Character - The second character of the TAC will be the alphanumeric character representing the cost center (cost code). See A.1.b.(5).

Third Character - The third character of the TAC will be the MILSTRIP fund code indicating the Operating Guide chargeable as shown on the documentation or derived from appropriation accounting data. (See note 1.)

Fourth Character - The fourth character of the TAC will be the MILSTRIP fund code indicating object class as shown on the documentation or the figure "9." See C.6. (and note 1, this chapter).

If the documentation accompanying the shipment does not contain all the necessary information (cost code and MILSTRIP fund code) to derive the TAC, refer to C.6., this chapter, "TACs Derived From Accounting Data."

a. Referenced CG Publications. Materiel presented in this chapter is extracted from various CG publications:

<u>Title</u> <u>Information</u>

CG-264, Volume 1, Comptrollers Manual Cost Centers, Appropriation Symbols. MILSTRIP fund codes

COMDTINST M5440.2, Operating Facili- Cost centers ties of the U.S. Coast Guard

Note 1. When the third and fourth characters cannot be determined, "AA" will be used in these positions to prevent delaying the shipment.

b. Definitions

- (1) First Destination Transportation (FDT). FDT is the direct movement of materiel from a procurement source to: the final destination; the point of use or storage; a site for subsequent distribution; or, the point where the transportation media changes from commercial to Governmental, or vice versa. FDT ends at the first military or DTS activity where the cargo is delivered for onward transportation. "Free on board" (FOB) terms of a contract effect the termination of FDT:
- (a) FOB Destination. The vendor is responsible for delivery of the material to a specified destination. All transportation costs are FDT.
- (b) FOB Origin. The direct movement of material is stopped at the vendor's loading dock. The Coast Guard considers all subsequent transportation costs second destination transportation (SDT). For FOB-Origin shipments directed OUTCONUS, both fund cites and TACs must be provided in the documentation to move the cargo.
- (2) Second Destination Transportation (SDT). SDT is the movement of materiel from where FDT stopped to the final destination. SDT costs are charged against funds cited on the GBL covering the shipment when movement is in CONUS. SDT is charged to the sponsoring agency indicated on the TCMD, for overseas cargo moved by DTS. SDT costs include port handling charges, freight, cartage, demurrage and other charges associated with the transportation of materiel.
- (3) Nonsignificant TAC. The nonsignificant TAC to be used for Coast Guard sponsored shipments is ZØØØ. Vendors, contractors and other suppliers of Coast Guard materiel are not authorized to use the nonsignificant TAC. Cost Guard shipping activities have the capability of determining the correct TAC and are not authorized to use the nonsignificant TAC. The only activities authorized to use the nonsignificant TAC are Defense Transportation System Aerial/Water Port Terminal personnel:

Military Airlift Command (MAC)

Military Sealift Command (MSC)

Military Traffic Management Command (MTMC)

The nonsignificant TAC will not be used if the CG cost center (cost code) is known. See "General Information."

(4) Cost Center Conversion Table. Cost centers are five digit numbers assigned to identify ships, facilities, offices, programs and special activities. These are found on the following documents as indicated:

<u>Document</u>	<u>Location</u>
DD Form 1348-1	Record Position (rp) 31-35
DD Form 1384	Block 10
DD Form 1155, Order for Supplies or Services	Block 17 "Cost Code"
SF 344, Multiuse Standard Requisitioning/Issue System Document	RP 31-35
DD Form 1384	Block 10 characters 2-6 of the 17 digit Transportation Control Number (TCN)
All Others	In the space assigned for "Cost Code", "Requisitioner" or as characters 2-6 of the TCN

The table lists the most commonly encountered cost centers and the alphanumeric representation of those cost centers to be used as the second character of the TAC. This element is critical, because it indicates the administrative target to be charged and, in many cases, the geographical location and accounting office serving the responsible activity.

 $\mbox{(5)}$ Accounting Data Conversion. Coast Guard accounting data is normally presented as follows:

(a) Appn	(b) <u>FY</u>	(c) Target Unit	(d) Operating Guide	(e) Point Account	(†) Cost Center	(g) Object
1 -	1 -	99.	30.	99.99	70099	2634

(a) The appropriation indicators are one (1) character alphanumeric codes:

Code	<u>Appropriation</u>
1	Operating Expense
2 3	Reserve Training
3	Acquisition, Construction, and Improvements (AC&I)
4	Operating Expenses Prior Year
5	Reserve Training Prior Year
6 7	Supply Fund
7	Yard Fund
8	Research, Development, Test and
	Evaluation (RDT&E)
N	AC&I Prior Years
T, V, W, X, Y	AC&I Multi year

(b) The fiscal year code is a one (1) character numeric representing the units position of the calendar year - i.e., "7" represents 1987; "8" represents 1988; 0 represents 1990; etc.

(c) The target unit indicators are a two character numeric code to show the administrative control of funds (note 2):

Code	Administrative Unit
01	1st CG District
02	2nd CG District
03	3rd CG District
05	5th CG District
07	7th CG District
08	8th CG District
09	9th CG District
11	11th CG District
12	12th CG District
13	13th CG District
14	14th CG District
17	17th CG District
20	Area Office, Atlantic
21	Area Office, Pacific
35	Supply Center Brooklyn
40	Aircraft Repair & Supply Center, Elizabeth City
42	Air Station, Washington, DC
51	Oceanographic Unit, Washington, DC
52	OMEGA Navigation System, Washing- ton, DC
56	Strike Team Atlantic

71	Institute
80	Yard
81	Research & Development Center
82	National Oceanographic & Atmospheric Administration (NOAA) Detail
96	Activities Europe
98	Headquarters Administrative
99	Headquarters General

Note 2. No target unit codes are assigned for the RDT&E or AC&I appropriations. These funds are controlled centrally at Coast Guard Headquarters and are accounted for under project numbers.

DoD 4500.32-R Vol. II

A.1.b.(5) (cont.)

(d) The operating guide indicators are two character numeric codes used to indicate the purpose for which funds are made available. The code also indicates the first character of the MILSTRIP fund code.

Code	Purpose	MILSTRIP
30	Operating Expense	G or H or S
41	Aircraft Program	J
42	Electronics Program	K
43	Shore Unit Program	L
45	Vessel Program	M
46	Ocean Engineering Program	F
54	Ammunition and Small Arms Program	Q
56	Personnel Training and Procurement	R
57	Medical Equipment	E
80	Reimbursements	E T
88	Reimbursements - Special Purpose Account	I
90	Reserve Training	PorU
96	AC&I	W or 0 or B
98	RDT&E	8
	Supply Fund	X
m =	Coast Guard Yard	Y
	Pollution Fund	Z

- (e) Point Accounts are not used for the assignment of TACs.
- (f) The Cost Center has already been explained under A.1.b.(4).
- (g) Object means "object class." The second character of the MILSTRIP Fund Code identifies object class. TACs assigned from appropriation accounting data cannot identify object class, because the fourth character of the TAC always shows a "9."
- c. Coast Guard TAC Coordination/Assistance. A TAC Coordinator has been established to provide assistance in TAC assignment problems for CG shipments. When a TAC cannot be determined by using the instructions in this publication contact the TAC Coordinator:

A.1.e. (cont.)

Commandant U.S. Coast Guard ATTN: G-FAC-3

Washington, DC 20593-0001

Telephone: FTS/Commercial (202) 426-1422

d. Appropriations Chargeable. Except for a very small number of cases, transportation and other charges are made against each individual activity and not against a single account for the entire CG. The main exception, for TAC purposes, is the transportation of military and civilian employees, their dependents, their household goods, their private vehicles and their trailers. These costs are chargeable as follows (See note 3.):

1-X*-99.20.YY*.00 70099 2ZZZ

(1) Retrograde Shipments. Supplies, materiel, and equipment not accepted at final destinations will be returned to shipper under the TAC assigned for the initial shipment. Where a portion of the return transportation will involve shipment under a GBL charge costs as follows (See note 4.):

ATT items - 1-X*99.30.00.00 70099 2200, TAC is ZYG9

(2) Diversions. TACs required for the movement of diversion cargo will be supplied by the CG activity requesting the diversion. All transportation costs for diversion of shipments will be Second Destination Transportation. When diversion requires movement by GBL, charge costs to appropriation as follows:

Personal Property = 1-X-99.20.YY.00 7099 2ZZZ Shipments (as explained in 9.B.4.)

Note 3. *X represents the last digit of FY. Y represents variable data; see B.1.b.(5). Z represents variable data, see B.1.b.(5).

Note 4. *X represents last digit of FY.

2. <u>Decision Table</u>. This decision table is presented in a series of questions to enable both CG and other Service/Agency transportation personnel to determine the correct TAC to apply to cargo shipments.

Is the Shipment

- 1. Entirely within CONUS?
- 2. Is the shipment between CONUS and Alaska or Hawaii?
- 3. Is the shipment from a Defense Logistics Agency (DLA) Depot?
- 4. Is the shipment documentation on standard DoD requisition forms i.e., DD Form 1348-1; DD Form 1149; DD Form 250, Materiel Inspection and Receiving Report; SF 344; and/or DD Form 1155 showing a requisition number beginning with "Z"?
- 5. Is the shipment on GBL or CBL showing appropriation symbol of "69X____"?

- YES TACs are not used for CG shipments within CONUS. Go to next shipment.
- NO Continue with questions.
- NO Go to "First Character TAC."
- YES Continue with questions.
- YES Refer to Chapter 8, to determine if DLA pays transportation. If DLA is not chargeable go to "First Character TAC."
- NO Go to "First Character TAC."
- YES The shipment is CG sponsored. Assign a "Z" as the position of the TAC. Go to "Second Character TAC."
- NO A requisition beginning with a character other than "Z" indicates some other Service/Agency. Refer to chapter 1 to determine sponsoring Service/Agency or go to last question under "First Character TAC."
- YES The shipment is CG sponsored. Assign "Z" as the first position of the TAC. Go to "Second Character TAC."

A.2. (cont.)

- 6. Does the Shipment documentation show appropriation accounting data?
- 7. Does shipment documentation state "Bill To" or "Payment Will Be Made By" U.S. Coast Guard?
- 8. Is the shipment identifiable to any Service/Agency having TAC assignments in the TAC regulation?
- 9. Does the shipment documentation contain a TCN?

10. Does the shipment documentation contain appropriation accounting data? NO - Refer to Department of Treasury, "Federal Account Symbols and Titles" to determine Service/Agency. Refer to appropriate chapter this regulation or go to last question under "First Character TAC."

YES - If appropriation accounting data is in the form shown in A.1.b.(5), the shipment is CG sponsored. Assign a "Z" as the first character of TAC. Go to "Second Character TAC."

NO - Continue with questions.

YES - The shipment is CG sponsored. Assign "Z" as the first position of TAC. Go to "Second Character TAC."

NO - Go to appropriate Service/ Agency chapter in this regulation or go to next question.

YES - Contact the TAC coordinator for the Service/Agency and request assistance. Assign TAC as directed. Go to next shipment.

NO - Request shipper, consignor, or individual presenting shipment to provide proper TAC.

YES - Use positions 2 thru 6 of TCN to assign second character of TAC. See A.1.b.(4), this chapter for instructions on second characters of TAC determined by cost center. Go to "Third Character TAC."

 ${\sf NO}$ - Continue with questions.

YES - Use the appropriation accounting data cost center to assign the second character of the TAC. See A.1.b.(4), this chapter for instructions on using cost centers to determine the second character to be

A.2. (cont.)

- 11. Is there any other information available in the shipment document that would identify the destination of the shipment?
- 12. Does the shipment documentation show a fund code?

assigned to TACs. Go to "Third Character TAC."

NO - Continue with questions.

YES - Call the CG TAC coordinator at the number shown in A.1.c., this chapter. Assign TAC as advised. Go to next shipment.

NO - Assign Coast Guard nonsignificant TAC (Z999). Go to next shipment.

YES - Assign the first character of the fund code as the third character of the TAC. Go to "Fourth Character TAC."

NO - Continue with questions.

YES - Assign the MILSTRIP fund code shown for the operating guide as the third character of the TAC. See A.1.b.(5)(d), this chapter, for instructions and list of operating guide MILSTRIP fund codes. Assign "9" as the fourth character of the TAC. Go to next shipment.

NO - Continue with questions.

YES - Assign "AA" as the third and fourth character of the TAC. Go to next shipment.

NO - Call the CG TAC Coordinator at number shown in A.1.c., this chapter. Assign TAC as directed. Go to next shipment.

YES - Assign the second character of the fund code as the fourth character of the TAC. Go to the next shipment.

NO - Assign the letter "Z" as the fourth character of the TAC. Go to the next shipment.

SECTION B. STANDARD TACS

- 1. <u>Logistics Materiel</u>. Supplies, material, and equipment for Coast Guard (CG) use; or, CG sponsored and funded from CG appropriations.
- a. FDT TAC Assignments and Procedures. The CG does not assign any cost for transportation of logistic material as FDT.
- b. SDT TAC Assignments and Procedures. Charge all costs for the movement of logistic material cargo from the supplier to the point of embarkation, all OUTCONUS transportation charges, and charges to final destination as SDT. Use the cost center and MILSTRIP fund codes to determine the CG TAC chargeable.
- 2. Stock Fund. All supplies, materiels, and equipment purchased by or for the CG stock fund.
- a. FDT TAC Assignments and Procedures. The CG does not assign any cost for transportation of stock fund items as FDT.
- b. SDT TAC Assignments and Procedures. The CG does not assign any cost for transportation of stock fund items as SDT to the stock fund. These transportation costs are funded under the CG appropriations for which the items are to be used: Operating Expense; Research, Development and Testing; Acquisition, Construction and Installation; CG Reserve; CG Pollution Fund; etc. Use the cost center and MILSTRIP fund codes to determine the CG TAC chargeable.
- 3. Nonappropriated Fund Activities. Supplies, materiels, and equipment purchased with nonappropriated funds.
- a. FDT TAC Assignments and Procedures. The CG does not assign any cost for transportation of nonappropriated fund activity items as FDT.
- b. SDT TAC Assignment and Procedures. Charge all OUTCONUS transportation costs for the movement of nonappropriated fund activity items to the TAC ZYHJ appropriation 1-X-99.30.00.00 70099 2200. All CONUS shipments of NAFA materiel are paid from NAFA funds and are not proper charges to CG appropriations.
- 4. <u>Personal Property</u>. Household goods, personal effects, private vehicles, and other personal property of regular active duty CG personnel, retired members of the CG, civilian employees of the CG, and their dependents.

DoD 4500.32-R Vol. II

B.4. (cont.)

- a. FDT TAC Assignments and Procedures. The CG does not assign any costs for transportation of personal property as FDT.
- b. SDT TAC Assignments and Procedures. Charge all costs for the movement of personal property cargo from the shipper to the point of embarkation, all OUTCONUS transportation charges and charges to final destination as SDT. Normally these transportation charges will arise out of PCS orders. All costs associated with PCS movement of personal property are funded by the CG operating expense appropriation and charged to CG Headquarters. The TAC for these charges is an exception to the rule for standard TAC derivation:

First Character - Always "Z"

The following TAC characters are obtained from appropriation accounting data on the individual's travel orders.

Second Character - Always "Y"

Third Character - (from the fifth and sixth digit of the Operating Guide)

- Officers and their dependents "2" 99.20.2X or - Enlisted and their dependents "3" 99.20.3X or - Civilian and their dependents "4" 99.20.04

Fourth Character -

(from cited "object account")

Travel (object class 1111) "A"

- Travel (object class 2114) "B"

- Household goods (object class 2211) "C"
- Private vehicles (object class 2212) "D" - House Trailers (object class 2213) "E"
- Storage (object class 2526) "F" Other "G"
- 5. Deceased Persons. The remains of deceased CG members, CG civilian employees, and their dependents.
- a. FDT TAC Assignments and Procedures. The CG does not assign any cost for transportation of deceased persons as FDT.

B.5. (cont.)

b. SDT TAC Assignments and Procedures. Charge all costs for the movement of deceased persons from the shipper to the point of embarkation, all OUTCONUS transportation charges and charges to final destination as SDT. These TAC codes are derived, like those for personal property, from the travel orders of the individual. These TACs do not conform to the standard TAC derivation. Assign TAC as follows:

First Character - Always "Z"

Second Character - Always "Y"

Third Character - "2" Officers (from the fifth and sixth positions of the Operating Guide)

"3" Enlisted

and

"4" Civilian

Fourth Character - Always "Z"

- 6. Coast Guard Reserve (CGR). Supplies, material, and equipment for CGR use or sponsored and funded by the CGR appropriation.
- a. FDT TAC Assignments and Procedures. The CGR does not assign any cost of transportation of CGR items as FDT.
- b. SDT TAC Assignments and Procedures. Charge all costs for the movement of CGR cargo from the supplier to the port of embarkation, all OUTCONUS transportation charges and charges to final destination as SDT. Use the cost center and MILSTRIP fund codes to determine the CGR TAC chargeable.

SECTION C. OTHER TACS

- 1. <u>Coast Guard Contractors</u>. All supplies, materiels, and equipment for CG contractors use when sponsored and funded by CG appropriations.
- a. FDT TAC Assignments and Procedures. The CG does not assign any cost for transportation of CG contractor material as FDT.
- b. SDT TAC Assignments and Procedures. Charge all costs for the movement of CG contractor cargo from the supplier to the point of embarkation, all OUTCONUS transportation charges and charges to final destination as SDT. Use the cost center and MILSTRIP fund codes to determine the CG TAC chargeable.
- 2. <u>DoD Dependent Schools</u>. Supplies, materiel, and equipment for schooling for CG dependents outside the continental United States.
- a. FDT TAC Assignments and Procedures. The CG does not assign any cost for transportation of dependent school items as FDT.
- b. SDT TAC Assignments and Procedures. Charge all costs for movement of dependent school cargo from the supplier to the point of embarkation, all OUTCONUS transportation charges to final destination as SDT. The TAC assigned for SDT will be:

ZYHX Appropriation 1-X-99.30.00.00 70099 2558

- 3. Account Handling Codes. Not currently used by the CG.
- 4. Special Projects TACs. The Commandant will issue special project TACs as required through the TAC focal point. Special Project TACs will remain in effect until cancelled by the TAC coordinator.
- a. FDT TAC Assignments and Procedures. The CG does not assign any cost for transportation of special project cargo as FDT.
 - b. SDT TAC Assignments and Procedures. (Reserved)

- 5. Reserved. These TACs will be reserved to be authorized for Coast Guard use by the TAC coordinator without coordination among other Service/Agency TAC coordinators. When used the CG TAC coordinator will advise the Transportation Office, DTS and others as necessary.
- a. FDT TAC Assignments and Procedures. FDT TAC for CG cargo from supplier to entry within the DTS network:
 - Z9A _____(an alpha character A-Z will be supplied to complete the four character TAC)
- b. SDT TAC Assignments and Procedures. SDT TAC for CG cargo for OUTCONUS transportation charges and charges to final destination:
 - Z9B _____(an alpha character A-Z will be supplied to complete the four character TAC)
- 6. TACs Derived from Accounting Data. When no TCNs or MILSTRIP fund codes are provided in the documents accompanying the cargo, a TAC may be derived from the accounting data cited in purchase orders, requisitions, contracts or other documents. The composition of CG accounting data is explained at A.1.b(5), this chapter.
- a. FDT TAC Assignments and Procedures. The CG does not assign any cost for transportation as FDT.
- b. SDT TAC Assignments and Procedures. Charge all costs for the movement of cargo from the supplier to the point of embarkation, all OUTCONUS transportation charges and charges to final destination as SDT. The correct TAC is determined using A.1.b.(5), this chapter:

First Character - Always "Z"

Second Character - If the first character of the appropriation code is 3, N, T, V, W, X, X, or Y, use "4."

If the first character of the appropriation code is 8, use "5."

For any other first characters of the appropriation code use the character indicated by the cost center.

Third Character - Use the MILSTRIP fund code corresponding to the Operating Guide indicator.

C.6.b. (cont.)

Fourth Character - Always use "9." This will indicate that the TAC code has been generated from accounting data.

7. Movement of Mail and Joint Support Cargo

- a. FDT TAC Assignments and Procedures. The CG does not assign any cost for transportation as FDT.
- b. SDT TAC Assignments and Procedures. Charge all costs for the movement of mail and joint support cargo from point of origin to point of embarkation, all OUTCONUS transportation charges and charges to final destination as SDT. Mail transportation charges to, from or within overseas area, for both aviation and surface transportation systems, through APOs, FPOs, and ARFCOS are assigned TAC:

ZYSA Appropriation 1-X-98.30.00.00 70099 2634

SECTION C - OTHER TACs (Reserved)

SECTION D. BILLING INFORMATION

1. <u>Billing Address</u>. All bills for transportation charges are handled centrally at CG Headquarters. Mail all billings for GBLs and DTS charges to:

Commandant
U.S. Coast Guard Headquarters
ATTN: G-FAC-3
2100 Second Street, SW
Washington, DC 20593-0001

Telephone: Commercial: (202) 426-1422 FTS: 426-1422

2. Special Information. The TAC coordinator will advise other Services/Agencies when special information is developed.

SECTION D - BILLING INFORMATION (Reserved)

CHAPTER 10

STANDARD TRANSPORTATION BILLING FORMAT

10-i. INTRODUCTION

This chapter establishes a standard transportation billing format (STBF) for the transportation services rendered by the Military Airlift Command (MAC), the Military Sealift Command (MSC), and the Military Traffic Management Command (MTMC). The purpose of the STBF is to provide the customers of the Defense Transportation System a simplified and uniformly structured transportation bill, thus increasing efficiency in the customers' processing of these bills.

SECTION A. GENERAL. A DoD directed study was made to determine the feasibility and desirability of developing a standard transportation bill. The study group consisting of representatives of the Transportation Operating Agencies (TOAs) and the Military Departments, developed a proposed standard bill and requested the TOA customers to comment on the bill. Upon receipt of the customers comments the proposed bill was adjusted and the format in Figures 10-B-1 and 10-B-2 adopted and approved. The DoD standard transportation billing format provides the TOAs, the Military Services, and other users of the DTS with the capability to exchange data electronically. These data are essential to the billing and disbursing processes required by law. The DoD standard billing format in figures 10-B-1 and 10-B-2 facilitates these actions.

SECTION B. STANDARD FORMATS AND DESCRIPTIONS. The print/tape formats and a description of the data elements are provided in Figures 10-B-1 through 10-B-5.

CHAPTER 11

TRANSPORTATION ACCOUNT CODES FOR SECURITY ASSISTANCE PROGRAM SHIPMENTS

ALL SERVICES - (ARMY, AIR FORCE, NAVY, AND MARINE CORPS)

11-i. INTRODUCTION

This chapter provides definitions, instructions, and other information pertaining to the assignment of Transportation Account Codes (TACs) applicable to shipments of the Security Assistance Program sponsored by the DoD. For transportation purposes the Security Assistance Program encompasses the Military Assistance Program (MAP) and Foreign Military Sales (FMS). MAP is commonly referred to as "Grant Aid." Details of the Security Assistance Program are set forth in JCS PUB 1 and the DoD 5105.38-M, Security Assistance Management Manual (SAMM).

SECTION A. GENERAL

1. General Information. The alphabetic characters listed below (first position of the TAC) will be applicable for compiling MAP and FMS TACs, and will identify the appropriate sponsoring Service.

Sponsoring	First position of	First position of
<u>Service</u>	MAP Grant Aid TAC will be:	FMS TAC will be:
Army	В	Α
Air Force	D	D
Navy	P	Р
Marine Corps	K	K

The second and third positions will always be alpha characters; the fourth position may be either numeric or alphabetic.

b. Definitions

- (1) Military Assistance Program (MAP). That portion of the U.S. security assistance authorized by the Foreign Assistance Act of 1961 as amended, which provides Defense articles and services to recipients on a nonreimbursable (grant) basis (JCS PUB 1). MAP is an annual program for which the U.S. Government receives no dollar reimbursement, showing a detailed funding program for a given fiscal year related to specific military assistance requirements by area and country, and taking into account the lead times necessary to effect the deliveries or perform the services in that program.
- (2) Foreign Military Sales (FMS). That portion of United States security assistance authorized by the Foreign Assistance ance Act of 1961, as amended, and the Arms Export Control Act of 1976, as amended. This assistance differs from the Military Assistance and the International Military Education and Training Program, in that the recipient provides reimbursement for Defense articles and services transferred (JCS PUB 1). Includes cash sales from stocks (inventories, services, training) by the DoD; DoD guarantees covering financing by private or Federal Financing Bank services of credit sales of Defense articles and Defense services (Secs 21, 22, 23, and 24 of the AECA).
- (3) International Military Education and Training (IMET). Formal or informal instruction provided to foreign military students, units, and forces on a nonreimbursable grant basis by officers or employees of the United States, contract technicians, and contractors. Instruction may include correspondence courses; technical, educational, or informational publications; and media of all kinds (JCS PUB 1). IMET is identified by ICP, Type of Assistance Code "9" in the fourth position of MAP Grant Aid TACs.
- (4) FMS Case Designator. A unique designator assigned by the implementing agency to each FMS case. The designator originates with the offer of a sale, identifies the case through all subsequent transactions, and is generally a three letter designator.
- c. MAP/FMS TAC Coordination/Assistance. The following TAC focal points of contact will provide assistance in unusual TAC assignment problems that cannot otherwise be resolved through research and use of this regulation:

d. Appropriations Chargeable

(1) FDT. There are no FDT costs applicable to MAP or FMS shipments.

(2) SDT

(a) MAP

Army sponsored: MAP funds are provided the U.S. Army Finance and Accounting Center, Indianapolis, IN for disbursement upon receipt of bills from the TOAs. USAFAC converts the MAP TAC to the appropriate MAP accounting classification(s).

Air Force sponsored: 57-11*1989.##1 38*-6359 L19 46X S593999 (* = fiscal year indicator; ## = MAP two-digit country code; X = mode of transportation; the numeric two identifies commercial air, and the numeric three identifies commercial surface).

Navy and Marine Corps sponsored: NMF-* plus the TAC (* = fiscal year identifier).

DoD 4500.32-R Vol. II

A.1.d.(2) (cont.)

(b) FMS. The following accounting classification applies to all FMS transportation costs, to be cited on the GBL, regardless of sponsoring service:

97-11X8242 LØØ9 84Ø1

(3) GBLs

(a) MAP

Army-sponsored:

Air Force sponsored: 57-11*1989.#1 38*-6359 L1Q 46X S593999 (* = fiscal year indicator; #2 MAP 2-digit country code; X = mode of transportation, the number two identifies commercial air, and the numeric three identifies commercial surface).

Navy and Marine Corps sponsored: NMF-* plus the TAC (8 = fiscal year indicator).

2. Decision Table

a. To differentiate between MAP Grant Aid and FMS shipments, the following guidance is offered:

- FMS = If record position 34 of the shipping document DD Form 1348-1, which equates to the 5th position in the TCN, indicates an alpha A thru H and J or numeric other than a one or a zero, the shipment is FMS. (NOTE: The numeric or alpha code entry in the fifth position of the TCN identifies the FMS delivery term code. FMS delivery term codes are contained in MIL-STAMP, Volume I. If shipment is FMS, assign TAC in accordance with paragraph B.2.)
- MAP = MAP Grant Aid shipments do not have a delivery term code; therefore, record position 34 of the shipping document, which also equates to the fifth position in the TCN will be a zero. If shipment is MAP, assign TAC in accordance with paragraph B.1.

b. The following reflects the relationship of data elements on the shipping document of the first six positions in the TCN:

	RECORD POSITION ON SHIPPING DOCUMENT	POSITION IN THE TCN
Sponsoring service code	30	1
Country/Activity Code	31 and 32	2 and 3
Customer within country (MAPAD)	33	4
FMS Delivery Term Code (Note	1) 34	5
Type of Assistance (MILSTRIP) 35	6

Note 1. Must be either a numeric 2, 3, 4, 5, 6, 7, 8, or 9 or an alpha A, B, C, D, E, F, G, H, or J in record position 34 to identify the shipment as FMS. MAP Grant Aid shipments do not have delivery term codes that apply; therefore, record position 34 will always be a zero (0).

SECTION B. SECURITY ASSISTANCE PROGRAM (FMS & MAP)

1. $\underline{\mathsf{MAP}}$ Grant Aid. The following table provides criteria to follow in developing $\underline{\mathsf{MAP}}$ Grant Aid TACs.

TAC POSITION	DATA ELEMENT	MILSTRIP REQUISITION DATA ELEMENT WILL BE IN THIS POSITION:	TAC STRUCTURE
1	Service Code	30	First position of TAC will be: B for Army D for Air Force P for Navy K for Marine Corps
2 and 3	Country Code	31 and 32	The two-digit country code in rp 31 & 32 will be the 2nd and 3rd positions in the TAC.
4	Type of Assista		The "Type of Assistance" code in rp 35 will be the 4th position in the TAC.

EXAMPLES OF MAP GRANT AID TACS:

2. FMS. The following table provides criteria to follow in developing FMS TACs:

TAC POSITION	DATA ELEMENT	MILSTRIP REQUISITION DATA ELEMENT WILL BE IN THIS POSITION	TAC STRUCURE
1	Service Code	30	First position of TAC will be: A for Army D for Air Force P for Navy K for Marine Corps

The FMS Sales Case identity (ALWAYS alpha) will be the 2nd, 3rd, & 4th posions in the TAC. (rp 48, 49, & 50 of DD Form 1348-1 will identify the FMS case.)

EXAMPLES OF FMS TACs:

AUKV	FMS Sales Case identity A for Army-sponsored
PVGR	FMS Sales Case identity P for Navy-sponsored

3. Retrograde of FMS Cargo. FMS materiel shipments returned to the United States Military Service (Army, Navy, Air Force, or Marine Corps), or to DoD supply activities under authority of an approved Report of Discrepancy (ROD) which finds the U.S. Government at fault will cite "III" in the 2nd, 3rd, and 4th positions of the TAC (see note 2). The first position of the TAC will identify the sponsoring Service, e.g., if the shipment is Air Force-sponsored the TAC will be DIII, if Navy-sponsored, the TAC will be PIII, etc.

logistics task groups. Compatibility among these systems and groups must be accomplished prior to final coordination with the Services/Agencies.

- $\underline{4}$ Disseminate to Services/Agencies and OASD(P&L) a quarterly status review of all change proposals which have not yet been approved for publication.
- 5 Report to OASD(P&L) the findings and recommendations of evaluations and staff assistance visits, along with comments of the affected DoD Components.
- $\underline{6}$ Review and coordinate with Services/Agencies all requests for system deviations and exemptions and make appropriate recommendations to OASD(P&L) based on detailed analysis of the justification submitted by the requestor.
 - b. Heads of participating Services/Agencies will:
- (1) Designate an office of primary responsibility for MILSTAMP to serve as the TAC coordinator to:
- (a) Serve on the TAC coordination committee. The decisions reached at these committee meetings will represent a Services/Agencies position unless otherwise announced by the Service/Agency representative.
- (b) Assure continuous liaison with the DoD MILSTAMP System Administrator and other Services/Agencies on all matters, procedures, systems, etc., which impact upon or otherwise affect DoD 4500.32-R.
- (c) Evaluate all suggested changes (including those submitted under the Incentive Awards Program) to MILSTAMP which originate within their organization. If suggestions are received by the DoD MILSTAMP System Administrator directly for evaluation, they will be forwarded to the appropriate Services/Agencies TAC Coordinator for review and evaluation. If the Services/Agencies consider the suggestion worthy of adoption, a change proposal will be submitted to the DoD MILSTAMP System Administrator, stipulating specific narrative changes to the regulation. Such proposed changes will be staffed through appropriate channels. Suggestions will be handled in accordance with Services/Agencies Incentive Awards Program procedures.
- (d) Provide assistance with TAC assignments and * ensure questionable, erroneous, or missing TAC applications are resolved within 5 working days of notification of TAC error by the *TOA. In the event a Service/Agency believes a TAC error listing, or * parts thereof, are not applicable to it, appropriate annotations for * nonapplicability will be made on the listings and returned to the TOA.*

(e) Develop and submit recommended change proposals to the DoD MILSTAMP System Administrator with justification and expected benefits. The recommended change proposals will be submitted in the following format:

 $\underline{1}$ A narrative description of the basic concept being proposed and reasons therefor.

 $\frac{2}{\text{For coordination with other DLSS or non-DLSS}}$ logistics systems.

 $\frac{3}{\text{tages/disadvantages}}$ Operational statement identifying known advantages/disadvantages resulting from the proposed revision.

 $\underline{\underline{4}}$ Proposed wording required for the MILSTAMP Regulation.

(f) TAC Changes Requiring Coordination

 $\frac{1}{1}$ TAC revisions in the following categories (note 1) will require coordination and the development of leadtime requirements prior to implementation:

 $\underline{\underline{a}}$ TAC(s) involving the introduction of a new billing address.

 \underline{b} TAC(s) involving a change in billing address.

c The introduction of a new series of TACs.

 \underline{d} TACs which will affect an edit criterion being performed at the request of a Service/Agency by a TOA prior to submission of bills.

2 Proposed changes will be forwarded to DLSSO-BV, * 6301 Little River Turnpike, Suite 210, Alexandria, VA 22312-5044, in accordance with the format required by DoD Directive 4000.25, and chapter 1, paragraph A.6.b.(1)(e) this regulation.

(g) Proposed TAC changes that do not require coordination are those which do not meet the criteria of chapter 1.

Note 1. TAC changes are made in accordance with the instructions contained in the notification of change that deletes or adds the TAC. The TOAs are authorized to honor the use of discontinued TACs in order to bill the original sponsor for delayed shipments, unless formal disposition is provided in the request for the TAC discontinuance. Resolution of errors is applicable to CONUS outbound ship-

* ments only.

paragraph A.6.b.(1)(f) (note 2). The following statement will be included in the request: "TAC revision(s) proposed herein (does/do) not involve: a new or revised billing address, the introduction of a new TAC series, or an edit criterion performed by a TOA prior to submission of a bill to this Service (or Agency)."

- (2) Provide a single, coordinated Service/Agency position to the MILSTAMP System Administrator on all proposed system changes. Services/Agencies responses to proposed system changes will be provided to the DoD MILSTAMP System Administrator within the time specified (normally 60 days).
- (3) Assure that all operating activities under their jurisdiction comply with this regulation.
- (4) Report to the DoD MILSTAMP System Administrator those problems, violations, and deviations which impact system operations.

c. The OASD(P&L) will:

- (1) Resolve issues concerning resources, policy, and requests for deviation of exemption from MILSTAMP procedures.
- (2) Direct system changes, when necessary, to implement DoD policy.
- (3) Resolve and take necessary action with Service/Agency heads on matters referred/recommended by the DoD MILSTAMP System Administrator.

d. TOAs will:

- (1) Bill Services/Agencies for applicable port handling, freight, and other charges using the standard billing formats prescribed in chapter 10 of this publication.
- (2) Provide TAC error listing/notification to Service/Agency representatives for resolution. If TAC resolution is not provided within 5 working days of notification, assign a non-significant TAC. For Navy sponsored shipments, nonsignificant TACs will only be assigned in accordance with chapter 7, paragraph A.1.b.(3) (pg 7-A-4).

Note 2. TAC changes are made in accordance with the instructions contained in the notification of change that deletes or adds the TAC. The TOAs are authorized to honor the use of discontinued TACs in order to bill the original sponsor for delayed shipments, unless formal disposition is provided in the request for the TAC discontinuance.

- 7. Publication of the Regulation. The regulation will be updated by republication in its entirety at intervals not to exceed 4 years. It may be republished at the discretion of the DoD MILSTAMP System Administrator whenever the volume of change dictates, normally when changes affect 40 percent of the total.
- 8. <u>Supplementation of the Regulation</u>. This regulation will not be supplemented except to provide more detailed local implementing instructions required by action offices, e.g., data entry instructions to cover variances in capabilities to generate, process, perpetuate, and communicate MILSTAMP data.
- 9. <u>Distribution</u>. Supply of this publication, changes and forms, data formats prescribed herein will be requisitioned through established Service/Agency publications distribution channels.

SECTION B. INTRODUCTION TO TRANSPORTATION ACCOUNT CODES

1. Structure of the TAC:

a. TACs consist of a 4-position alphanumeric code. The first position identifies the sponsoring Military Shipper Service, DoD/non-DoD Agency, or contractor who will be charged (billed) for all services performed incident to movements in the DTS. Sponsoring Service/Agency and contractor codes are:

CODE	ASSIGNED TO	CHAPTER
A	Army (includes FMS)	2 & 11
A B C	Army (MAP only)	11
С	Army (AID shipments-Definition in chapter 2)	2
Ð	Air Force (MAP & FMS only)	11
D F	Air Force	3
Н	Other DoD and U.S. Government	
	Agencies	4
J	Joint Task Force 8	5
K	Marine Corps (MAP & FMS only)	11
L	Marine Corps First Destination	
	Transportation	6
M	Marine Corps Second Destination	
	Transportation	6
N	Navy	7
	Navy (MAP and FMS only)	11
P S T	DLA	8
T	Contractor	See notes 3 & 4

Note 3. This first alphabetic character (T) is used for constructing a MAC TAC covering the transportation of materiel of certain Agencies and activities, the movement of which is authorized and sponsored by the Military Components and Agencies of the DoD. Use of this alphabetic character indicates that direct billing will be accomplished for the cost of transportation to the applicable contractor. "T" TACs are assigned and controlled by the Military Airlift Command.

Note 4. This first alphabetic character (X) is used for the constructing of a MAC TAC covering the transportation of materiel of non-DoD U.S. Government Agencies, the movement of which is authorized and sponsored by the Military Components and Agencies of the DoD. Use of this alphabetic character indicates that direct billing will be accomplished for the cost of transportation to the applicable customer. "X" TACs are assigned and controlled by the MAC.

> X Government Agencies not listed herein Z Coast Guard

See notes 4 & 5

- b. The second, third, and fourth positions are assigned and controlled by each sponsoring Service/Agency; these positions may be alpha, numeric, or both. They are assigned to identify the appropriate fund citations, functional identity of the cargo, commodity, or any other description that relates to the accounting classification that is applicable to the transportation costs. TACs are entered in block 17 (or column 43a) of the DD Form 1384, Transportation Control and Movement Document (TCMD), or in rp 64-67 of the prime TCMD (T_{-} 0, T_{-} 1, T_{-} 4). Alphabetic I and O will not be used in TACs except for Military Assistance Program (MAP) and Foreign Military Sales (FMS) cargo shipments.
- 2. Nonsignificant TACs are established to facilitate data flow through the DTS system and to assure uninterrupted cargo movements through the various segments of the DTS. The use of a nonsignificant TAC will be as specified in this volume by each Service/Agency.
- a. The first positions of the TAC will identify the sponsor* ing Service/Agency and will be based on the first position of the TCN
 * for personal property and unit move shipments, or the first position
 * of the consignee DoDAAC for all other shipments. The three remaining positions will be 990. Billing documents citing charges against a nonsignificant TAC will include backup data as specified in chapter 10.
 - b. Reconciliation of nonsignificant TACs to significant TACs is necessary and is the responsibility of the Service/Agency finance office responsible for payment of charges.
 - 3. Account Handling TACs (MAC application only). For customers who pay cash, who must be charged the non-Government tariff rate, or who are entitled to use common user airlift service, but are not assigned a regular TAC, the following special account handling codes are provided.

A--Account Handling

Identifies a user who does not have a regular TAC assigned and pays the Government rate (AFR 76-11) on a credit basis.

C--Account Handling

Identifies a user who does not have a regular TAC assigned and reimburses MAC at the Government rate (AFR 76-11) by paying cash.

Note 5. Requests for a "T" or an "X" TAC should be addressed to the Military Airlift Command, ATTN: ACIA, Scott AFB, IL 62225-5001, telephone: AUTOVON 638-3631.

SECTION A. GENERAL

1. General Information

a. References:

- (1) AFM 172-1, Vol. I, Chapter 10, SECTION E TRANSPORTATION OF PROPERTY (Air Force transportation funding policy).
 - (2) AFLCR/AFSCR 170-2, First Destination Transportation.
- b. Definitions: The following are approved Air Force definitions of first and second destination transportation:
- (1) First Destination Transportation (FDT). FDT is that transportation required to effect the delivery of logistics materiel from a procurement source outside the DoD logistics system to the first point of use or storage for subsequent distribution within the Air Force logistics system. Includes the charges for freight cartage and demurrage incurred incident to shipment of the materiel. Amplifications of this definition are as follows:
- (a) When logistics materiel is procured within the CONUS for delivery to a CONUS point of use or storage, FDT includes all transportation by land, air, and inland or coastal waterways.
- (b) When logistics materiel is procured within an overseas area for delivery to a point of use or storage within that area, FDT includes all transportation by land, air, and inland or coastal waterways.
- (c) When logistics materiel, incident to a HQ USAF approved System Package Program (AFR 375 Series) and Research and Development (R&D) Projects, is provided to the contractor by the Air Force for use or storage at an overseas location, FDT includes all transportation from point of origin of shipment to the point of use or storage, unless otherwise provided under the terms of the system package program or the R&D project.
- (d) When logistics materiel, other than materiel for a "package program" is procured within the CONUS for or on behalf of an overseas command for delivery to an overseas point of use or storage, FDT is considered to terminate when the materiel is delivered to a CONUS air or water port.
- (2) Second Destination Transportation (SDT). SDT is any transportation other than FDT. It includes port handling charges and charges for freight, cartage, demurrage, and other charges incurred incident to shipment of Air Force logistics material.

- (3) Nonsignificant TACs. Air Force nonsignificant TACs (chapter 1) are authorized for use by MAC aerial ports, MTMC CONUS Area Commands, and MSC only. They are not to be used for any shipments in the LOGAIR system.
- c. Air Force TAC Coordination/Assistance. The following Air Force TAC coordinator has been established to provide assistance in TAC assignment problems that cannot be determined by research of this publication.

HQ AFLC/DSTTT Wright-Patterson AFB OH 45433-5001

Telephone: AUTOVON 787-4814/4934 Commercial (513) 257-4818/4934

- d. Appropriations Chargeable:
- (1) FDT is chargeable according to the Free on Board (FOB) terms of procurement. The FOB terms determine funding responsibility between U.S. Government and contractor.
- (a) FOB Destination is a contractor's responsibility and the FDT is included in the price of the item. Use of TAC is not appropriate.
- (b) FOB Origin is a U.S. Government responsibility and AFLC/AFSC Regulation 170-2 contains Abbreviated Transportation Accounting Classification (ATAC) and fund cites for use on FDT shipments.
- (2) SDT is properly chargeable to the appropriate Air Force TAC for DTS shipments or ATAC/fund cite for Government Bill of Lading (GBL) shipments.
- (3) Government Bills of Lading (GBLs). Instructions for use of Air Force Logistics Command funding for GBL shipments are published annually prior to the beginning of the fiscal year. These instructions are sent to all DoD Services/Agencies. All questions concerning the use of HQ AFLC funds on GBLs should be directed to HQ AFLC/DSXR, Wright-Patterson AFB, OH 45433-5001, AUTOVON 787-2613, commercial 513-257-2613.
- (4) Budgeting and Funding Responsibility. The responsibility for budgeting and funding for transportation charges is prescribed in paragraph 1-53 and figure 10-2. AFM 172-1.
- (4) Diversions. TACs required for diversions in accordance with volume I, chapter 2, paragraph B.3.e. of this regulation will be assigned by the authorized diversion activity (primarily AFLC

ALCs). Diversions of Air Force cargo to storage or Air Force base activities are considered an SDT shipment (TAC F8AO). Diversions to ANG destinations will cite TAC F8EO. Diversions to Security Assistance will cite the applicable TAC from chapter 11 of this volume.

(a) Shipping activities making diversions will cite the appropriate Abbreviated Transportation Accounting Classification (ATAC) corresponding to the TAC contained in the diversion order for shipments to be made by commercial carrier using a GBL (see (6) below).

(b) Retrograde - Water or aerial ports will cite the appropriate ATAC which corresponds to the TAC on the retrograde shipment in order to use commercial GBL modes as follows:

TAC	ATAC/ACCOUNTING CLASSIFICATION (notes 1 and 2)
F8UT	F8UT*#L

SECTION B. STANDARD TACS

1. Logistics Materiel

a. First Destination Transportation (FDT). Financial responsibility for movement of Air Force FDT cargo procured FOB to origin, to ultimate CONUS consignee, and/or CONUS port of embarkation via LOGAIR and/or commercial transportation (except F-16 coproduction items which are chargeable to FDT from Operating Agency Code (OAC) and Budget Program Activity Code (BPAC)). Both of these codes are identified in the appropriation accounting classification contained in contracts, purchase orders, MIPRs, etc. TACs for shipment by DTES and ATACs for shipment by GBL of FDT cargo are assigned as follows:

d. American Red Cross (ARC) Employees Household Goods. The following apply to the movement of Air Force sponsored ARC employee household goods, baggage, and privately owned vehicles. Special orders for ARC personnel entitled to Air Force sponsored movement will be issued by the 1947 Admin Spt Gp/DASAO, Washington, DC, which will reflect fund cites obtained from Air Force overseas commanders. These fund cites will be provided through ARC administrative channels. The TAC assigned for the ARC movements via DTS (MTMC, MAC, and MSC) will reflect FRC in the first three positions. The fourth position will be the alpha designator of the MAJCOM providing the fund cite for the orders. A listing of the MAJCOM alpha designators appears in paragraph 3.4.4.c. A valid example of an ARC TAC is FRCR which denotes Air Force approved ARC employees' movement under sponsorship of Pacific Air Force (PACAF).

SECTION B. STANDARD TACS

1. Logistics Materiel

- a. First Destination Transportation. Reserved.
- b. Second Destination Transportation.
- (1) DoD Washington Headquarters Service (WHS). The Directorate of Budget and Finance, DoD-WHS, establishes and maintains the Agency level central accounting controls for:

Secretary of Defense Activities (OSD).

Office of the Joint Chiefs of Staff (OJCS).

Defense Advance Research Projects Agency (DARPA).

American Forces Information Service (AFIS).

Defense Security Assistance Agency (DSAA).

Department of Defense Dependents Schools (DoDDS).

- (a) TAC Composition. The TACs for DoD-WHS accounting purposes are constructed as follows:
 - 1st Position Code "H" Is a constant. Is assigned by Defense Logistics Agency. Identifies DoD-WHS and Defense Agencies (other than DLA, which has TAC codes provided by chapter 8 this regulation).
 - 2nd Position Code "D" Is a constant. Is assigned by DoD-WHS. Identifies, as a group, DoD-WHS, OJCS, DARPA, AFIS, DSAA, and DoDDS.
 - 3rd Position Code "A" Is assigned by DoD-WHS. Identifies DoD-WHS as an organization to be charged.

Code "B" - Is assigned by DoD-WHS. Identifies OJCS. Code "C" - Is assigned by DoD-WHS. Identifies DARPA. Code "D" - Is assigned by DoD-WHS. Identifies AFIS. Code "E" - Is assigned by DoD-WHS. Identifies DSAA. Code "F" - Is assigned by DoD-WHS. Identifies DoDIG.

4th Position - Code "A" - Identifies Appropriate Account 97 9199.

Code "B" - Identifies Appropriate Account 97 9399.

Code "C" - Identifies Appropriate Account 97 9499.

Code "D" - Identifies Appropriate Account 97 9459.

Code "E" - Identifies Appropriate Account 97 111989.

Code "G" - Identifies Appropriate Account 970100.30.

(b) TAC Coordination/Assistance. The following TAC coordinator has been established to provide assistance with TAC assignment problems:

DoD Washington Headquarters Service Directorate of Budget and Finance Finance and Accounts Division Room 3B269, Pentagon Washington, DC 20301-1155

Telephone: AUTOVON: 8-224-0973

Commercial: (202) 694-0973

(c) Billing Addressees. The following TACs are applicable to OSD, OJCS, DARPA, AFIS, DSAA, and DoDDS. No transportation activity has the authority to arbitrarily use a TAC listed below without prior approval of DoD-WHS. Approval may be obtained by electronic message or telephone 202-694-0973 or AUTOVON 224-0973. After approval has been received for the use of a specific TAC, an advance copy of the actual shipping document must be forwarded to DoD-WHS. Any deviations will result in the charges for all transportation costs being rejected for payment by this activity.

(8) Department of Defense Dependents Schools (DoDDS) TACs (note 1).

Note 1. The TACs shown in paragraph B.1.b.(8) are to be used incident to PCS movement of DoDDS employees only. Shipping activities will obtain necessary fund cites (appropriations) and TACs from travel orders of DoDDS employees. If a TAC is not available in the travel order, shipping activity will contact the order issuing Agency or use a TAC obtained from above table. Except for terminating employees, the gaining region/command's TAC should always be used. The Military Departments or DoD Agencies responsible for funding for second destination transportation of other cargo in support of DoDDS will use their appropriate TAC.

(a) TAC Composition. TACs applicable to the DoDDS are established as follows:

 $\underline{1}$ First digit (rp 64) is an alphabetic "H" (constant) and identifies the DoDDS as a miscellaneous DoD agency.

 $\underline{2}$ Second digit (rp 65) is an alphabetic code "E" and identifies DoDDS.

 $\frac{3}{2}$ Third digit (rp 66) is an alphanumeric code and identifies the fiscal year (note 2) and/or type of materiel being shipped. See paragraph B.1.b.(8)(a) $\frac{5}{2}$, this chapter.

 $\frac{4}{1}$ Fourth digit (rp 67) is an alphabetic code and identifies billing address as follows:

DoDDS TACS

CHAPTER 5

JCS DIRECTED CONTINGENCY AND EXERCISE TRANSPORTATION ACCOUNT CODES JOINT TASK FORCE EIGHT

5-1. INTRODUCTION

This chapter provides information pertaining to the assignment of TACs for JCS directed contingencies and exercises. TACs established *for JTF8 application are primarily for contingency use. TACs identify the appropriation of the user of the Defense Transportation System (DTS). TACs and other essential shipment details must be provided the Transportation Operating Agencies to permit necessary billing and funds accountability associated with the movement of material by DTS.

SECTION B. STANDARD TACS - LOGISTICS MATERIEL

- 1. TAC Composition
 - a. For Joint Task Force Eight (JTF8) shipments.
- (1) First digit. "J" is constant. J indicates to the billing Agency that JTF8 is the organization to be billed.
- (2) Second and third digits (below). The second and third digits are two alphanumeric digits which identify the benefiting organization or Agency within JTF8.
- (3) Fourth digit. The fourth digit of the TAC will be either an "F" or "N" depending upon the mode of shipment. N will identify surface and F will identify air shipments.

EXAMPLE:

2 n d	3rd	2nd and 3rd digits
5	0	TG 815 AEC
5	1	TU 8.5.1 H&N
8	6	TG 8.6 Johnston Island

- b. For JCS directed exercises.
- (1) First position "Y" is constant and indicates to the billing Agency that JCS is the organization to be billed.
- (2) Second position indicates the sponsoring shipper service and is selected from the following:

A = Army F = Air ForceN = Navy M = Marine Corps

(3) Third and fourth positions. A two letter abbreviation of the exercise selected from the following:

EXERCISE	CODE	EXERCISE	CODE
Anchor Express	AE	Display Determination	DD
Arrowhead Express	AH	Gallant Eagle	GE
Ahaus Tara	AT	Kech Edge	ΚE
Blazing Trails	ΒT	Northern Wedding	NW

(11) NIF activity fabricated, assembled, or produced materiel is considered new procurement and shipments associated with the acquisition of this materiel are considered FDT including follow-on modification kits. In addition, shipments of materiel incident to the fabrication, assembly, or production effort must be considered FDT, such as acquisition of excess. Multi-stage shipments of produced materiel or equipment requiring additional machining, testing, modification, etc., before reaching ultimate point of Navy use or storage, is FDT. Information on the nature and appropriate funding of the materiel being shipped must be provided to the servicing traffic organization by the program/project manager directing shipment of materiel. These TACs are also used for HHG and POV shipments when NIF funded.

SECTION B. STANDARD TACS

1. Logistics Materiel

- a. First Destination Transportation (FDT). This situation does not arise in respect to the logistics material mentioned below.
 - b. Second Destination Transportation (SDT). (note 2)
- (1) TAC for Precious Metals. This TAC is cited for shipments destined for CONUS ports from overseas:

Precious Metals: S6*S

(2) TACs for Equipment Defense Fuel Supply Center. This TAC is cited for shipments from CONUS ports to overseas:

Equipment Defense Fuel Supply Center: S5*A

(3) TACs for Equipment Defense Reutilization and Marketing Service (DRMS). These TACs are cited for the overseas portion of the transportation of equipment to the respective regions. A DLA TAC will be used only for shipments between reutilization activities. An Agency will cite its own funds for transportation when it requisitions items from or turns items over to a property reutilization activity.

Precious Metals, (DRMS) S2*S Reutilization, (DRMS) S4*S Equipment and Supplies, (DRMS) S5*S

(4) TACs for Industrial Plant Equipment (IPE). When the Defense Industrial Plant Equipment Center (DIPEC) directs the movement of IPE to a storage site or user (to or from overseas locations), a DLA TAC applies. A DLA TAC will also be used for IPE shipments by QUICKTRANS or LOGAIR. The shipper assigning the DLA TAC will send a copy of both the DD Form 1348-1 and TCMD for the respective shipment to the following address:

Defense Industrial Plant Equipment Center ATTN: DIPEC-PF Memphis, TN 38114-5297

Note 2. Asterisk in third position of TAC denotes fiscal year chargeable to shipment.

2. Defense Stock Fund (DLA)

- a. FDT. A TAC may be applicable in this instance for subsistence only, e.g., when a vendor ships subsistence items directly to a customer or DLA storage point (see B.2.b.).
- b. SDT. Stock Fund materiel shipped from DLA depots by LOGAIR or QUICKTRANS will use the TAC assigned to each depot as follows:

Defense	Depot	Tracy, CA		S1*C
		Mechanicsburg, P	A	S1*M
		Columbus, OH		S1*0
		Memphis, TN		S1*T
		Ogden, ÚT		S1*U
		Richmond, VA		S1*V

(1) The following TAC (Clothing & Textiles) is restriced to shipments from ports to Alaska, Hawaii, and Puerto Rico only.

Clothing & Textiles S1TP (excludes clothing and textile shipments to Army and Air Force Exchange Services).

(2) The following TACs are restricted to shipments from CONUS ports to Alaska and Hawaii:

(5) When mixed shipments of DLA commodities are shipped in SEAVANs to Alaska or Hawaii, each TX4 (Shipment Unit) record must designate the proper TAC that describes the shipment, viz: S1RP (S one R P) (Subsistence for Resale), S1SP (S one S P) (Subsistence for Troop Issue), etc. The TX4 record will indicate the total pieces, weight, and cube of the DLA TAC for each Stock Fund commodity shipped

in the SEAVAN. The combined total pieces, weight, and cube of all TX4 records must be shown in rp 68 thru 80 of the TX2 (Prime SEAVAN Data) record.

- c. DLA Materiel Positioned at Non-DLA Storage Sites. When a DLA ICP directs shipment of this materiel, that DLA ICP will be responsible for transportation to the CONUS port. To determine whether DLA is responsible for the overseas transportation costs, see DLA Decision Table. Shipment of DLA materiel held at a non-DLA storage site which is directed by a non-DLA ICP will require citation of the non-DLA ICP's funds for transportation.
- d. Non-DLA Materiel Positioned at DLA Storage Sites. Transportation will be charged to the ICP directing the shipment of this materiel.
 - 3. Nonappropriated Funds. Not applicable.
 - 4. Personal Property
 - a. Military/Dependents. Not applicable.
- b. Civilian/Dependents. (note 3) The appropriate TACs below will be cited for the movement of Household Goods and POVs.

DRMS Employees S3*S
DFSC Employees S3*0
All other DLA employees The DLA TAC coordinator (see 8-I-1c) will be contacted for appropriate guidance before the TCMD is prepared.

- c. Red Cross Employees. Not applicable.
- d. Baggage for TDY Military and Civilians. Not applicable.
 - 5. Deceased Personnel. Not applicable.

Note 3. Asterisk in third position of TAC denotes fiscal year chargeable to shipments.

SECTION D - BILLING INFORMATION

8-D-1. BILLING ADDRESSES. The fourth position of DLA TACs denotes the activity/center responsible for payment of transportation bills.

a. TOAs will submit bills according to the 4th position of the TAC for service to the appropriate address listed below:

MILITARY STANDARD TRANSPORTATION AND MOVEMENT PROCEDURES

- I. This change, published by direction of the Deputy Assistant Secretary of Defense (Logistics) (DASD(L)), under the authority of DoD Instruction 4140.60, DoD Materiel Management, is effective upon receipt. Appropriate leadtime for implementation of new billing addresses; changes to billing addresses; new series of Transportation Account Codes (TACs); and new TAC edit criteria may be required by the Transportation Operating Agencies as provided in Chapter 1.
- II. This change incorporates:
- A. Interim changes associated with Chapter 4, Transportation Account Codes Other Than DoD and U.S. Government Agencies, including interim changes 3-4, 3-8, 3-10, 3-13, 3-15, 3-18, 3-19, and 3-22.
- B. New information in Chapter 4 concerning TACs for the General Services Administration, not previously published.
 - C. A revision of Chapter 6, Marine Corps Transportation Account Codes.
- D. Miscellaneous editorial revisions to correct and/or clarify existing information.
- III. Chapters, paragraphs, and figures that contain additions or modifications are highlighted by **bold italic type**.
- IV. Remove old pages listed below and insert new revised pages as follows:

CHAPTER 4

TRANSPORTATION ACCOUNT CODES OTHER THAN DOD AND U. S. GOVERNMENT AGENCIES

SECTION A. GENERAL

1. <u>Introduction</u>. This chapter provides information pertaining to the assignment of TACs for other DoD and U.S. Government Agencies. TACs identify the appropriation of the user of the Defense Transportation System. The TAC, in conjunction with other critical shipping data, permits the Transportation Operating Agencies to bill the Agency (activity) responsible for payment of transportation costs incurred as a result of a movement of material.

2. General Information

- a. References. Reserved.
- b. Definitions:
- (1) First Destination Transportation (FDT). FDT is that transportation required to effect the delivery of logistics material from a procurement source outside the DoD supply system to the first point of use or storage for subsequent distribution within the DoD supply system.
- (2) Second Destination Transportation (SDT). SDT is any transportation of materiel which is considered other than FDT. It includes port handling, freight, cartage, demurrage, and other charges incident to the overocean movement of materiel by means of the Defense Transportation System methods, i.e., AMC, MSC, and/or MTMC port handling.
- (3) Nonsignificant TACs. Other DoD and U.S. Government Agencies nonsignificiant TACs are authorized for use by AMC, MTMC, and MSC activities only. TAC H000 is the nonsignificant TAC designated for these Agencies.
- c. TAC Coordination/Assistance. TAC coordinators for each agency (listed in B.1.b.(1) thru (13)) have been established to provide assistance with TAC assignment problems that cannot be determined by research of this publication.

- d. Appropriations Chargeable. The appropriations chargeable are listed independently for each agency (see B.1.b.(1) through (13), this chapter); if none listed, contact the appropriate TAC coordinator.
 - 3. <u>Decision Table</u> Reserved.

SECTION B. STANDARD TACS

1. Logistics Materiel

- a. First Destination Transportation. Reserved.
- b. Second Destination Transportation.
- (1) DoD Washington Headquarters Service (WHS). The Directorate of Budget and Finance, DoD-WHS, establishes and maintains the Agency level central accounting controls for:

Secretary of Defense Activities (OSD)
Office of the Joint Chiefs of Staff (OJCS)
Defense Advance Research Projects Agency (DARPA)
American Forces Information Service (AFIS)
Defense Security Assistance Agency (DSAA)
Department of Defense Dependents Schools (DoDDS)

(a) TAC Composition. The TACs for DoD-WHS accounting purposes are constructed as follows:

1st Position	Code "H"	Is a constant. Is assigned by Defense Logistics Agency. Identifies DoD-WHS and Defense Agencies (other than DLA, which has TAC codes provided by chapter 8 this regulation).
2nd Position	Code "D"	Is a constant. Is assigned by DoD-WHS. Identifies, as a group, DoD-WHS, OJCS, DARPA, AFIS, DSAA, and DoDDS.
3rd Position	Code "A" Code "B" Code "C" Code "D" Code "E" Code "F"	Is assigned by DoD-WHS. Identifies DoD-WHS as an organization to be charged. Is assigned by DoD-WHS. Identifies OJCS Is assigned by DoD-WHS. Identifies DARPA Is assigned by DoD-WHS. Identifies AFIS Is assigned by DoD-WHS. Identifies DSAA Is assigned by DoD-WHS. Identifies DoDIG
4th Position	Code "A" Code "B" Code "C" Code "D" Code "E" Code "G"	Identifies Appropriate Account 97 0100 Identifies Appropriate Account 97 0300 Identifies Appropriate Account 97 0400 Identifies Appropriate Account 97 0450 Identifies Appropriate Account 97 111080 Identifies Appropriate Account 97970100.30

(b) TAC Coordination/Assistance. The following TAC coordinator has been established to provide assistance with TAC assignment problems:

DoD Washington Headquarters Service (NHS) Installation

Accounting Division

Room 3B269, Pentagon

Washington, DC 20301-1155
Telephone: DSN 224-0987

Commercial (202) 614-0987

(c) Billing Addresses. The following TACs are applicable to OSD, OJCS, DARPA, AFIS, DSAA, and DoDDS. No transportation activity has the authority to arbitrarily use a TAC listed below without prior approval of DoD-WHS. Approval may be obtained by electronic message or telephone (202) 614-0987 or DSN 224-0987. After approval has been received for the use of a specific TAC, an advance copy of the actual shipping document must be forwarded to DoD-WHS. Any deviations will result in the charges for all transportation costs being rejected for payment by this activity.

- (2) Defense Communications Agency (DCA) TACs.
 - (a) DCA TAC composition consist of the following:

The first digit (rp 64) is alphabetical. identifies the miscellaneous DoD Agencies.

The second digit (rp 65) is alphabetical. identifies the Defense Communications Agency.

The third digit (rp 66) is numerical and identifies the fiscal year of the funds to be charged. In the example, subparagraph $\underline{4}$ below, the fiscal year is shown as FY 86.

The fourth digit (rp 67) is alphabetical and identifies the disbursing office to be billed for transportation charges applicable to the DCA activities shown in paragraph B.10.(2)(c). example below, the disbursing office servicing DCA headquarters is shown.

Example:

CHAPTER 6

MARINE CORPS TRANSPORTATION ACCOUNT CODES

SECTION A. GENERAL

1. <u>Introduction</u>. This chapter provides definitions, instructions, and other information pertaining to the assignment of Marine Corps Transportation Account Codes (TACs).

2. General Information.

- a. Shipping activities responsible for the movement of Marine Corps material shall apply the appropriate appropriation and TAC as indicated herein.
- b. Regardless of the year in which procurement is initiated, all transportation charges for the movement of Marine Corps material will be charged to the fiscal year in which the material actually moves. Costs for all first destination transportation (FDT) shipments will be charged to the Procurement, Marine Corps (PMC) appropriation listed in Section B.
- c. The Marine Corps TAC is the final four characters of the cost code (CC) for O&MMC and Operation and Maintenance, Marine Corps Reserve (O&MMCR). The Marine Corps TAC is the first four characters of the CC for Department of the Navy Stock Fund (DONSF) (Marine Corps Division), Military Personnel, Marine Corps (MPMC), and Reserve Personnel, Marine Corps (RPMC). The Marine Corps TAC is the final four characters of the property accounting activity (PAA) code for PMC.
- d. A single appropriation/TAC will apply to the movement of Marine Corps material throughout the transportation system.
- e. The applicable appropriation and TAC shall be cited on all GBLs issued for the movement of Marine Corps material. When Marine Corps material is moved on a Transportation Control and Movement Document (TCMD), only the TAC will be cited.
- f. Payments for accessorial charges for packing, crating, handling, and transportation will not be made on recurring reimbursement issues and nonreimbursable transfers of materiels, supplies, and equipment to other Department of Defense (DoD) components. (Not applicable to sales and transfers of materiel to the Military Assistance Grant Aid

CH 2

DoD 4500.32-R

Vol. II

Program and the Foreign Military Sales (FMS) Program.) The NavCompt Manual, paragraph 035963, contains this policy.

- g. Procedures for the shipment of excess property along with guidance on agency responsibility for the payment of transportation charges are in MCO 4500.11.
- h. TAC M000 will be used <u>only</u> by sea ports of embarkation (SPOE) and aerial ports of embarkation (APOE) when shipments are received at ports with invalid or missing TACs and then only after interjection of the shipper or Marine Corps clearance authority. (Note: <u>Not</u> to be used by shipping activities.)
- i. Container detention charges will be billed directly from the Military Sealift Command (MSC) area command to the activity to which the container is assigned. For Marine Corps activities, the traffic management officer (TMO) will validate the billing for payment and forward same to the COMMARCORLOGBASES (Code 470), Albany. TAC M103 will be used (only by COMMARCORLOGBASES Code 470) for MSC detention charges at Marine Corps activities only.
- j. TAC M104 will be used only by the COMMARCORLOGBASES (Code 470), Albany, for the MSC accessory charges not included in the tariff rates for cargo moved in commercial (SEAVAN) containers.

k. Definitions:

- (1) First Destination Transportation (FDT) is that transportation required to effect the delivery of material from a procurement source to the first point of use or storage for subsequent distribution within the supply system. The procurement source and first point of use or storage may be in the Continental United States (CONUS) or overseas. The procurement source is any supplier outside the DoD supply system and DoD industrial activity which fabricates new material. FDT also includes transportation from point of origin to point of use or storage when Department of Navy-owned material or equipment is provided to a contractor incident to a Research and Development (R&D) project or a system acquisition or modification.
- (2) Second Destination Transportation (SDT) is that transportation required to effect movement of Marine Corps material from, to, or between Marine Corps activities and other Service/Agency activities worldwide, except as provided in paragraph a.2.k.(1), above.
- (3) Nonsignificant TAC M000 is authorized for use by the Air Mobility Command (AMC), MSC, and Military Traffic Management Command

(MTMC) only. This TAC is only used to avoid undue delay of materiel because of invalid or erroneous TAC assignment.

1. TAC Coordination and Assistance. When the proper TAC assignment for Marine Corps-sponsored shipments cannot be determined from use of this publication, the following should be contacted for assistance.

3. <u>Decision Table</u>. This decision table is published to assist users in determining the correct appropriation and TAC chargeable for Marine Corps sponsored shipments.

Is Shipment:

1. Marine Corps Sponsored?

Yes - See paragraphs B.1. through
B.6. If Marine Corps sponsored,
but Navy funded, see paragraph
C.1., this chapter.

No - Determine sponsoring Service and refer to appropriate chapter.

2. Logistics Materiel requiring FDT? Yes - See paragraph B.1.a. For special projects, see paragraph B.1.a. (5).

No - Proceed to next question.

3. Logistics Materiel requiring SDT? Yes - See paragraph B.1.b. For special projects, see paragraph B.1.b.(3)(c), this chapter.

No - Proceed to next question.

4. Ammunition from U.S. Army Ammuni- Yes - See paragraphs B.1.b.(3)(b) tion Plants or U.S. Navy Ammunition and B.1.b.(4)(a)5, this chapter. Storage Facilities?

No -	Proceed	to	next	question.

SECTION B. STANDARD TACS

1. Logistics Materiel.

- a. First Destination Transportation (FDT).
- (1) The definition of FDT is provided in par. A.2.k.(1). FDT will be funded by the **Procurement**, **Marine Corps (PMC) appropriation**. Transportation costs for the movement of Government-Furnished Equipment/Government-Furnished Materiel (GFE/GFM) used in the production or modification of Marine Corps materiel will also be considered FDT.
 - (2) TACs for FDT are constructed as follows:
- (a) First Character. An alpha "L" signifies Marine Corps FDT and remains constant.
- (b) Second Character. This character signifies the Budget Activity Code (BAC) of the material being shipped.
- (c) Third and Fourth Characters. These characters represent a sequential numbering system. Exception: When GFE/GFM is being shipped, the third and fourth characters will always be "AG."
- (3) The TACs listed in paragraphs B.1.a.(4) and (5) are chargeable to the following PMC appropriation:

APPN SYM	SUB- HEAD	<u>obj</u> Class	<u>BCN</u>	<u>AAA</u>	TTC	<u>PAA</u>	<u>cc</u>
17*1109. ¹	6992	022	00703/0	000027	2D	00**2	6992300*600*** ³

(4) Marine Corps TACs for FDT are based on the PMC appropriation subhead. Select the applicable TAC from the following table which is in numerical order by BAC.

^{3 ***} Insert the appropriate suffix from the following table to reflect the mode of shipment:

 - b. Second Destination Transportation.
- (1) The definition of SDT is provided in paragraph A.2.k.(2). SDT of Marine Corps logistics material is funded by appropriation O&MMC or O&MMCR as indicated below.
- (2) The following category of shipments <u>will not</u> be charged to the O&MMCR appropriation:
- (a) Shipments of household goods (HHG) and personal effects (PE). See paragraph B.5.
- (b) Shipments of Military Assistance Program (MAP) materiel. See paragraph C.1.b.
- (c) Shipments of the remains of deceased Marine Corps personnel. See paragraph C.1.c.
- (d) Materiel procured under the appropriation Operations and Maintenance, Navy (O&MN). See paragraph C.1.e.

2. <u>Defense Business Operations Fund (DBOF) Marine Corps Supply Management Business Area.</u>

a. General Information

- (1) Current DoD directives governing **DBOF** operations provide for the application of first and second destination transportation costs for the shipment of **DBOF** materiel. **DBOF** material consists of consumable and non-critical low density (CLD) items.
- (2) The allocation of transportation costs chargeable to the DBOF appropriation 97X4930.NC2A is dependent upon three elements of materiel identification used within the DBOF structure: DBOF-owned items, Marine Corps-managed items, and integrated-managed items owned by Marine Corps Division Stock Fund (MCDSF). Descriptions of each are as follows:
- (a) DBOF-Owned Items. DBOF-owned consumable and non-CLD reparable items are identified in supply records, publications, and price lists as Stores Account Code (SAC) 1 items, and includes items locally procured; consumable and non-CLD reparable items which have not been assigned to INM (echelon code 1) (SAC 1 and 2); consumable and non-CLD reparable items decontrolled by the INM for local procurement (Echelon Code 4); nonstandard, nonstocked consumable and non-CLD reparable items (echelon code 5).
- (b) Marine Corps-Managed Items. Marine Corps-managed consumable and non-CLD reparable items are those items identified in

CH 2 DoD 4500.32-R Vol. II

supply records, publications, and price lists by a Management Code of 1, 2, 3, 4, 5, or 6, and Echelon Codes 8 or 9 (e.g., 28 or 29).

- (c) Integrated-Managed Items. Integrated-managed items are those items managed by Defense Logistics Agency (DLA), Tank Automotive Command (TACOM), General Services Administration (GSA), or another Service under a Wholesale Integrated Materiel Management (WIMM) assignment and are identified in supply records, publications, and price lists as follows:
- $\underline{\mathbf{1}}$ DLA/TACOM-managed items are those items identified by an alpha management code and echelon code 2; i.e., T2 (DLA) and A2 (TACOM).
- $\underline{\mathbf{2}}$ GSA-managed items are those items identified by echelon code 2.
- <u>3</u> WIMM-managed items are those items composed of a numeric management code (1 through 6) and an echelon code of 6 or 7 (e.g., 26, 27, etc.).
- **b. DBOF** appropriation will be charged for transportation costs on shipments of stock fund-owned (SAC 1 **and 2**) items in the following situations.
 - (1) DBOF-owned Items/Marine Corps-Managed Items.
- (a) Shipments from suppliers to Remote Storage

 Activity/Direct Support Stock Control (RSA/DSSC) storage points or user locations.
 - (b) Shipments from RSA/DSSC storage points to users.
 - (c) Shipments between RSA/DSSC storage points.
- (d) Return of erroneous shipments from users to RSA/DSSC activities.
 - (e) Shipments to and from processors.
- (f) When any of the shipments identified in the preceding are to or from an overseas storage point or user.
 - (2) Integrated-Managed Items (DLA/GSA/TACOM/WIMM)
- (a) Return of erroneous shipments from users to RSA/DSSC storage points.

- (b) Return of DBOF materiel from RSA/DSSC storage points to integrated managers with or without credit to the DBOF.
- (c) Except for the two situations outlined in the preceding, transportation costs for the movement of integrated-managed items are chargeable to **the respective IMM**.
 - c. First Destination Transportation.
- (1) DBOF-owned items and Marine Corps-managed items described in paragraph B.2.a.(2)(a) and (b), preceding, purchased with DBOF appropriation 97X4930.NC2A funds, FDT costs will be charged to DBOF appropriation 97X4930.NC2A on shipments of DBOF (SAC 1 and 2). Cite the transportation allotment and TAC as indicated in paragraph B.2.c.(3), following.
- (2) The TAC is used to segregate the transportation costs applicable to the **DBOF** appropriation by commodity category.
- (3) If the procuring appropriation is the **DBOF appropriation** 97X4930.NC2A, charge the FDT costs to: 11

APPN SYM	<u>oc</u>	BCN	<u> XXX</u>	TTC	TAC	<u>cc</u>	<u>Description/USE</u>

					L81400	099317	General Property

- d. Second Destination Transportation.
- (1) SDT includes only movement of **DBOF**-owned materiel subsequent to the initial shipment from a supplier to an **RSA**/DSSC storage point or user. Any cost of movement of materiel subsequent to the initial shipment from a supplier for which the **DBOF** is liable for payment as outlined in paragraph B.2.b., preceding, will be considered SDT costs and will be so identified by the appropriate TAC listed in paragraph B.2.d.(3) following.
- (2) The **DBOF** will pay SDT for shipments of DBOF materiel in the following situations:

The transportation allotment and TACs shown in paragraph B.2.c(3), preceding, will apply only to FDT of Marine Corps-managed DBOF-owned items and Marine Corps-managed DBOF items identified in paragraph B.2.a(2)(a) and (b) preceding. FDT covers the initial movement of material from a DBOF procurement for direct delivery to a customer. Any subsequent movement of Marine Corps-owned and Marine Corps-managed items will be considered SDT, and cost will be applied per paragraph B.2.d., following.

(a) DBCF-Owned Items/Marine Corps-Managed Items. (See paragraph B.2.a.(2)(a) and (b), preceding.)

1 Shipments from **RSA/DSSC** storage points to Marine Corps customers or other Service customers.

2 Shipments between RSA/DSSC storage points.

3 Return of erroneous shipments from users to **RSA/DSSC** storage points.

Shipments to and from processors.

(b) Other Integrated-Managed Items. (See paragraph B.2.a.(2)(c), preceding.)

 $\underline{\mathbf{1}}$ Return of erroneous shipments from users to $\mathbf{RSA}/\mathrm{DSSC}$ storage points.

2 Return of **DBOF** materiel from **RSA**/DSSC storage points to integrated managers with or without credit.

3 Except for the two situations outlined in the preceding, transportation costs for the movement of integrated managed items are chargeable to **the respective IMM listed in** paragraph B.2.a.(2)(c), preceding.

(3) The following DBOF appropriation data and TACs will be used to charge SDT costs:

APPN SYM	<u>oc</u>	BCM	λλλ	TTC	TAC CC	DESCRIPTION/USE
97X4930.MC2A	000	8V605	00027	2D	M62300099365	Ordnance Materiel

(4) To assign the correct TAC to second destination shipments of DBOF (SAC 1 and SAC 2) items, the complete MEC, consisting of a management code as the first character and an echelon code as the second character, must be considered. The following outlines the MEC, identifying items for which the DBOF is liable for SDT costs, and the management codes and echelon codes related to the type of material and TAC:

(5) The preceding appropriate TACs will appear in block 13 of the DD Form 1348-1 (DoD Single Line Item Release/Receipt Document), prepared by Mechanization of Warehousing and Shipment Processing (MOWASP) programs; and the appropriate transportation appropriation or TAC will be cited on the GBL. When there is more than one TAC applicable for O&MMC and DBOF second destination for a GBL, the TAC with the predominant weight will be inserted in the appropriation block of GBL. Each additional TAC will be inserted on the GBL and/or continuation sheet(s) after the description of articles entry.

e. Transportation for Security Assistance Customers.

- (1) The standard price for Marine Corps-managed DBOF materiel will be charged to foreign military sales (FMS) customers. The standard price includes a factor for first and second destination transportation services to the CONUS pickup points of the FMS customer's freight forwarder and/or port of embarkation. Shipments are to be sent via government bill of lading. The appropriate DBOF transportation appropriation listed in paragraph 4, shall be cited on the government bill of lading. The FMS customer is responsible for transportation beyond CONUS services to pickup points or to points of embarkation.
- (2) While FMS customers should not be charged for CONUS transportation, in cases where Marine Corps-managed DBOF material is shipped via collect commercial bills of lading within CONUS, FMS customers may submit Reports of Discrepancy (ROD) for credit for possible DBOF transportation overcharges. When such reports are validated (that is, a determination made that transportation services in fact were billed through the standard DBOF price and the stock funded item moved commercially within CONUS at customer expense), a credit in the amount of the approved DBOF transportation factor shall be made to the customer's FMS case from the appropriate transportation appropriation.

3. Nonappropriated Funds

- a. General Information. The Marine Corps, as the sponsoring Service, will assume responsibility for transportation costs, including port handling costs, from the CONUS APOE/SPOE to the overseas destination as described below:
- **b.** Appropriation Chargeable. Overseas transportation charged for the categories of shipments listed below are properly chargeable to the following O&MMC appropriation.

5. Personal Property

a. Military Personnel and Dependents. Transportation accounting data to be used on shipping documents in connection with the non-temporary storage and movement of HHGs and PE is provided in this paragraph; for shipments moving under orders appropriately chargeable to FYs 1992, 1993, and 1994, paragraph B.5.b., following, applies. With the exception of funding for non-temporary storage, transportation accounting data is also contained in change of station orders. Further guidelines are contained in the NavCompt Manual, paragraph 022083-10a.

^{* -} Insert last digit of current fiscal year.

^{16 ** -} Insert TAC

__ Insert appropriate digit in subhead and BCN as identified in member's orders.

- (1) For shipments of personal property of military personnel on temporary additional duty (TAD) or for civilian employees on TAD or permanent change of station (PCS), traveling at the expense of the Marine Corps local activity funds, refer to paragraph B.5.f. following.
- (2) For shipments of HHGs and personal property for RPMC, refer to paragraph B.5.g. following.
- (3) For shipment of foreign-manufactured automobiles via MSC, purchased or delivered in a foreign country, refer to chapter 5 and part E of the Joint Federal Travel Regulation (JFTR).
- b. Construction of TACs. TACs relative to the movement of MPMC, HHGs and PE for FYs 1991, 1992, and 1993, are constructed as follows in accordance with paragraphs B.5.c. through B.5.g., following:
- (1) First Character. The alpha "M" (to remain constant) is used to identify Marine Corps-owned and/or -sponsored material.
- (2) Second and Third Characters. This alpha/numeric combination of characters denotes the officer or enlisted status of the member and the description/purpose of the movement. In the second position, codes 5 and 8 denote "Officer" and codes 7 and 9 denote "Enlisted."
- (3) Fourth Character. This numeric character identifies the FY within which the member's detachment date falls.

Example: M564 "56" signifies "Officer, Trailer Allowances, PCS within CONUS (other than Unit Move)"; "4" signifies FY94

e. In addition to the AAA addresses listed in paragraphs B.6.d.(1) and (2) preceding, the shippers will provide advance copies of all GBLs and TCMDs with estimated cost annotated thereon and copies of shipping document requests (e.g., DD Form 1348-1/DD Form 1149, Requisition and Invoice/Shipping Document) to the cost centers to the following TACs:²⁰

The GBLs and TCMDs provided will be used by the appropriate cost centers as obligation documents and must cite correct and complete appropriation data and estimated cost so that they can be matched to appropriate expenditure documents.

- f. For inland shipments made by GBLs, each Force Commander will identify a block of consecutive four-digit numbers to be used in the last four positions of the PAA portion of the accounting classification data. These numbers should be assigned by the Force Commander to the individual activities authorized to requisition subject transportation. Additionally, the Force Commanders will require these activities to include on all shipment requests (DD Form 1348-1/DD Form 1149) the complete chargeable appropriation data, including the assigned consecutive PAA numbers. The entire appropriation data and estimated cost will be annotated on the shipping document (GBL) by the shipper (TMO) and perpetuated throughout the system. The consecutively serialized PAA numbers will provide a means of matching the obligation documents (with estimate cost) and the 634s (listing of expenditures/collections) (with actual costs) for inland transportation.
- g. For ocean/air shipments made by TCMDs, each shipper/TMO will annotate the chargeable appropriation data and estimated cost on the

shipping document and provide advance copies as instructed in paragraphs B.6.d. and B.6.e. preceding. The CG, MCLB (Code 470), Albany, GA, will provide mechanized listings of all TCNs along with the paid voucher to the appropriate AAA address. The mechanized listing of TCNs (with actual costs) will provide a means of matching the obligation documents (TCMDs) with the TACs.

h. To identify subject obligations and expenditures by MARFOR Commanders and mode of transportation (inland, ocean, port handling, and AMC air), the following unique cost account codes (CACs) will be used, in O&MM decision unit 72, by MARFORPac to collect and report subject TOT shipments:

MILITARY STANDARD TRANSPORTATION AND MOVEMENT PROCEDURES

- I. This change, published by direction of the Deputy Assistant Secretary of Defense (Logistics) (DASD(L)), under the authority of DoD Directive 4140.1, Materiel Management Policy, is effective upon receipt. Appropriate leadtime for implementation of new billing addresses; changes to billing addresses; new series of Transportation Account Codes (TACs); and new TAC edit criteria may be required by the Transportation Component Commands as provided in Chapter 1.
- II. This change incorporates:
- A. Interim Change associated with Chapter 4, Transportation Account Codes Other Than DoD and U.S. Government Agencies, specifically Interim Change 3-26 (erroneously disseminated as Interim Change 5-6).
- B. New information in Chapter 4 concerning TACs for Washington Headquarters Service, Defense Information Systems Agency, and Defense Mapping Agency, not previously published.
- C. A revision of Chapters 7, Department of the Navy Transportation Account Codes and 8, Defense Logistics Agency Transportation Account Codes.
- D. Miscellaneous editorial revisions to correct and/or clarify existing information.
- III. Chapters, paragraphs, and figures that contain additions or modifications are highlighted by **bold italic type**.
- IV. Remove old pages listed below and insert new revised pages as follows:

SECTION B. STANDARD TACS

1. Logistics Materiel

- a. First Destination Transportation. Reserved.
- **b.** Second Destination Transportation.
- (1) DoD Washington Headquarters Service (WHS). The Directorate of Budget and Finance, DoD-WHS, establishes and maintains the Agency level central accounting controls for:

Secretary of Defense Activities (OSD)
Office of the Joint Chiefs of Staff (OJCS)
Defense Advance Research Projects Agency (DARPA)
American Forces Information Service (AFIS)
Defense Security Assistance Agency (DSAA)
Department of Defense Dependents Schools (DoDDS)

(a) TAC Composition. The TACs for DoD-WHS accounting purposes are constructed as follows:

1st Position	Code "H"	Is a constant. Is assigned by Defense Logistics Agency. Identifies DoD-WHS and Defense Agencies (other than DLA, which has TAC codes provided by chapter 8 this regulation).
2d Position	Code "D"	Is a constant. Is assigned by DoD-WHS. Identifies, as a group, DoD-WHS, OJCS, DARPA, AFIS, DSAA, and DoDDS.
3d Position	Code "A" Code "B" Code "C" Code "D" Code "E" Code "F"	Is assigned by DoD-WHS. Identifies DoD-WHS as an organization to be charged. Is assigned by DoD-WHS. Identifies OJCS Is assigned by DoD-WHS. Identifies DARPA Is assigned by DoD-WHS. Identifies AFIS Is assigned by DoD-WHS. Identifies DSAA Is assigned by DoD-WHS. Identifies DoDIG

Code "G" Identifies Appropriate Account 97970100.30

(b) TAC Coordination/Assistance. The following TAC coordinator has been established to provide assistance with TAC assignment problems:

DoD Washington Headquarters Service (WHS) Installation Accounting Division Room 3B269, Pentagon Washington, DC 20301-1155 Telephone: DSN 224-0987

Commercial (202) 614-0987

applicable to OSD, OJCS, DARPA, AFIS, DSAA, and DoDDS. No transportation activity has the authority to arbitrarily use a TAC listed below without prior approval of DoD-WHS. Approval may be obtained by electronic message or telephone (202) 614-0987 or DSN 224-0987. After approval has been received for the use of a specific TAC, an advance copy of the actual shipping document must be forwarded to DoD-WHS. Any deviations will result in the charges for all transportation costs being rejected for payment by this activity.

- (2) Defense Information Systems Agency (DISA) TACs.
 - (a) DCA TAC composition consist of the following:

Α

1 The first digit (rp 64) is alphabetical. "H" identifies the miscellaneous DoD Agencies.

<u>2</u> The second digit (rp 65) is alphabetical. "A" identifies the **DISA**.

3 The third digit (rp 66) is numerical and identifies the fiscal year of the funds to be charged. In the example, subparagraph 4 below, the fiscal year is shown as FY 86.

4 The fourth digit (rp 67) is alphabetical and identifies the disbursing office to be billed for transportation charges applicable to the DISA activities shown in paragraph B.10.(2)(c). In the example below, the disbursing office servicing DISA headquarters is shown.

Example:

The TACs shown in paragraph B.1.b.(8) are to be used incident to PCS movement of DoDDS employees only. Shipping activities will obtain necessary fund cites (appropriations) and TACs from travel orders of DoDDS employees. If a TAC is not available in the travel order, shipping activity will contact the order issuing Agency or use a TAC obtained from above table. Except for terminating employees, the gaining region/command's TAC should always be used. The Military Departments or DoD Agencies responsible for funding for second destination transportation of other cargo in support of DoDDS will use their appropriate TAC.

CHAPTER 7

DEPARTMENT OF THE NAVY TRANSPORTATION ACCOUNT CODES

SECTION A. GENERAL

1. <u>Introduction</u>. The Navy Transportation Account codes (TACs) listed and defined herein identify management information and costs initially financed through the Navy Management Fund (NMF) Transportation of Things subhead. TACs are used within the accounting appropriation data to identify the appropriation or user ultimately responsible for paying the transportation costs incurred.

2. General Information.

b. Definitions

- (1) First Destination/(FDT). FDT is that transportation required to effect the delivery of material from a procurement source to the first point of use or storage. The procurement source and first point of use or storage may be in CONUS or overseas. The procurement source, as used herein, is any supplier outside the DoD supply system and any DoD activity which fabricates new material. FDT also includes transportation from point of origin to point of use or storage when Navy-owned material or equipment is provided to a contractor incident to a Research and Development project or a system/equipment acquisition or modification. Charges include those for freight cartage, CONUS port handling, and other transportation costs (except demurrage) incurred incident to the shipment of FDT material. Although packing services and other miscellaneous shipment preparation charges may be found in commercial carriers' tariffs, tenders or schedules, only intransit charges may be paid with transportation funds. Preparation and destination charges will be funded from other than transportation funds. CONUS port handling costs are paid with transportation funds. In general, overseas port handling costs are chargeable to either the activity handling the cargo or the fleet Commander-in-Chief having area responsibility.
- specify Free on Board (FOB) destination or FOB origin material delivery instructions. FOB destination means the vendor is required to deliver the material at vendor expense to the ultimate consignee. There is no separate transportation charge to the Government, as the cost of transportation is included in the cost of the goods. On FOB origin shipments, the Government is responsible for funding the cost of moving the material from the vendor's location to the ultimate consignee as a separate charge. Procurement and contract administration personnel will ensure that for FOB origin procurements, transportation funding will be cited separately and made available to the shipper. The appropriate FDT TAC to be cited is the TAC associated with the appropriation used to procure the material. FDT TACs are found in Section B, paragraph 1.a.
- (b) <u>DoD Activity Fabricated Material</u>. Many Navy and other DoD industrial activities manufacture components for installation on Navy aircraft, ships and other projects. The movement of these newly manufactured components is chargeable to FDT. FDT TACs for industrial activities are found in section B, paragraph 1.a.(14). The term: "DoD

activity fabricated material" excludes material used to install the newly fabricated component. For example, when an industrial activity manufactures a component for installation on a ship and is then required to send personnel, material, or tools to the site to accomplish the installation, the cost of moving the personnel, material, or tools between the industrial activity and installation site is funded by the organic material TAC of the industrial activity (see section B, paragraph 1.a. (14)).

- (SDT) is the subsequent distribution of material after shipment to the first destination has been completed. It includes shipments required to fill Navy requisitions; redistribute material; and return material for overhaul, rework, repair, or disposal action. It does not include the issue of Navy-owned material incident to a system or equipment acquisition, modification, or a research and development project (see first destination). Government furnished material shipped incident to a Foreign Military Sales (FMS) or Grant Aid project must cite the country and case number on the shipping documentation. The FMS or grant aid TAC will be derived in accordance with instructions in Chapter 11.
- (a) Second destination **stock point** shipments are generated by an inventory manager's decision to issue material in response to Navy requisitions or to redistribute material to other stock points and by a supply officer's decision to retrograde material for disposal or repair. Stock point SDT TACs are found in section B, paragraph 1.b.(1).
- (b) Redistribution of organic material is funded by the activity directing the redistribution. TACs for redistribution of organic material are found in section B, paragraph 4.a.
- (c) Shipments of excess/surplus material by a Navy stock point activity to another location for storage, disposal, or rework are SDT and will cite the appropriate stock point SDT TAC as indicated in section B, paragraph 1.b. (1). Movement of excess/surplus material from one end-use activity (includes DRMO sites) to another end-use activity will be funded by the receiving activity and will cite the appropriate organic material TAC as indicated in section B, paragraph 4.a. Shipments of excess/surplus material in support of military construction, Navy (MCN), Navy RDT&E and Family Housing Navy and Marine Corps appropriations may be charged to the appropriate FDT TACs found in section B, paragraph 1.a.

- (d) Marine Corps transportation costs for the movement of aviation material purchased with Navy appropriations are chargeable to the Navy FDT (section B, paragraph 1(a)) and Navy SDT (section B, paragraph 1(b)). Marine Corps aviation unit movements, including transportation of organic supplies and equipment are the responsibility of the major claimant or Fleet Commander directing the movement.
- (3) Nonsignificant TACs. Shippers are not authorized to use the Navy nonsignificant TAC which is N000. Its use is restricted to Air Terminals (Air Mobility Command and QUICKTRANS) for the expeditious movement of cargo. Shippers of Navy-sponsored ocean cargo should resolve TAC problems with the Navy Material Transportation Office (NAVMTO) representative at the appropriate MTMC Area Command (Eastern Area DSN 247-6458 or commercial (201) 823-6458 and Western Area DSN 672-4712 or commercial (415) 466-4712). For all other TAC problems, contact NAVMTO at DSN 564-3165 or commercial (804) 444-3165).
- (4) Organic Material. The term organic material refers to any material held by organizations other than stock points. Common material in this classification includes minor plant property, property book material, aircraft maintenance stands and test equipment, organization clothing, unit-owned tools and equipment, and end-use owned equipment. Unlike stock-point issued material, material on the financial inventory records of a stock point, organic material shipments are usually transported as a result of crossdecking or unit deployment directives. The following are POCs available to provide guidance on matters concerning use of organic TACs (all phone numbers are commercial):

- c. Appropriation Chargeable.
 - (1) General.
- (a) For Navy-sponsored shipments requiring a line of accounting, cite the NMF appropriation as follows:

17X3980.2379/022/_ ___ /0/063408/2D/000000/000 _ __ 98003 *(see (b) below) * (see (c) below)

(b) The five digit Bureau Control Number (BCN) field should be filled in accordingly:

BCN 72001 This BCN will be used to identify shipments paid on a public voucher or a Commercial Bill of Lading (CBL) and charged to FDT, SDT, or Defense Business Operations Fund (DBOF) accounts. This does not include shipments made on Government Bills of Lading or Military Freight Warrants.

BCN 74001 This BCN will be used when transportation is paid on a Government Bill of Lading (GBL) or Government Freight Warrant.

- (c) The four blanks preceding the functional account code (98003) will be completed with the TAC constructed in accordance with this publication. For example, if TAC N696 is the correct TAC for a particular GBL shipment, the cost code field would be constructed as "000N69698003".
- (d) Government Bills of Lading. Most Navy-sponsored shipments moving on GBLs do not require a full accounting line in the GBL "appropriation chargeable" block. Navy transportation officers are authorized to simply cite the appropriate Navy TAC in the GBL "appropriation chargeable" block rather than the full accounting line. For Navy-sponsored shipments, show Defense Accounting Office-Transportation Payment Center (DAO-TPC), Code ISBBB as the paying activity (see section D).

(2) Decision Table for determining appropriate TAC1

Is the shipment:

- 1. Navy sponsored?
 Is the first position of the requisition number on source document (DD Form 1348-1) in record position 30 an N, R, Q, or V? Does source document such as DD Form 1149 cite appropriation beginning with 17 or 97x4930.N___?
- YES Proceed to next question. NO - Determine sponsoring agency. Cite agency's TAC from applicable vol II chapter.

- 2. Newly manufactured material originating at resource point (contractor, plant, or Navy industrial activity) for installation in a Navy ship, or use by another unit?
- YES This constitutes FDT (except rework) material. For shipments from commercial vendors cite the FDT TAC associated with procuring appropriation or fund. For shipments from Navy industrial activities cite TACs listed in section B, paragraph 1.1(14).
- 3. Navy-owned non-stock material incident to RDT&E or system/equipment acquisition or modification?

material issued by a Navy

stock point?

- NO Proceed to next question.
- 4. Transportation of
- YES Cite appropriate FDT TAC associated with RDT&E or system acquisition or modification procuring appropriation or fund.

NO - Proceed to next question.

YES - Charge odd-cognizance (cog) material to the TAC of the activity issuing material. Charge even-cog material issues

Navy TAC coordination/assistance. NAVMTO maintains the Navy TAC system. The local transportation officer is responsible for the assignment of correct TACs in accordance with this instruction. The **shipment directing activity** is responsible for providing the data needed by the transportation officer to assign the correct TAC. Transportation personnel **and shipment directing personnel** may contact the NAVMTO TAC coordinator for assistance with Navy-sponsored shipments at DSN 564-3165 or (804) 444-3165. **The FAX number is DSN 564-7383 or (804) 444-7383**.

16. Prepay & Add?

YES - Prepay & Add (PP&A) is a procurement and financial procedure used to allow a vendor to arrange transportation to a destination, pay the transportation costs, and add it to the vendor bill as a separate line item. Refer to FAR 42-1403-2 and FAR 19-403-2 for details on parameters of using PP&A procedures. The material cost is paid from the procurement appropriation. transportation charges will be billed to the appropriate procurement account via the NMF. PP&A charges for the below listed procurement appropriations will be separately identified through the use of individual TACs. Contracting offices utilizing PP&A will include in the contract the appropriate transportation accounting data for obligation purposes. The NMF accounting citation chargeable is: 17X3980.2379/022/72001/0/063408/2D/ 000000/000---98003. The blank (-) positions will be completed by a TAC which is dependent upon the funds appropriation procuring the materials. The TACs available for use to pay PP&A charges are found in section B, paragraph 1.a.(4) through (9). If PP&A TAC is applicable, all subheads under the related appropriations should be charged to the same PP&A TAC.

- 19. Red Cross supplies and equipment to and from overseas for ocean or air shipments sponsored by the Navy?

YES - Applicable cost will be charged to the Operations and Maintenance funds of the bureau, office, or operating force having financial responsibility of activity to which shipment is ultimately consigned.

NO - Proceed to next question.

20. Other shipments directed by FLTCOM/TYCOMS/SYSCOMS?

YES - Transportation of organic material, i.e., items on the custody or plant account records of field activities or deployable units, incident to relocation and/or rotational deployment, is a funding responsibility of the major claimant or management command who directs the movement. Contact CINCS/TYCOMS/SYSCOMS listed in section A, paragraph 4. Use TACs listed in section B, paragraph 1.a. (3) for Naval Construction Force (NCF) shipments.

NO - Proceed to next question.

21. Asset Capitalization Program (ACP)?

YES - In FY90, Congress transferred the funding authority for the ACP from the industrial funds to the procurement appropriations. Transportation costs

(e.g., shipping) as an integral cost incurred in the procurement of ACP equipment will be funded in the same appropriation funding the purchase of the equipment. Refer to NAVCOMPT msgs 041850Z Jan 1990 and 150017Z Mar 1990 for guidance on the execution of the ACP. Contact major claimant for further information. See section B, paragraph 1.a. (13).

NO - Refer to other questions.

SECTION B. STANDARD TACS.

1. Logistics Material.

a. First Destination Transportation (FDT). Transportation of newly manufactured material from vendors or Department of Defense industrial activities is chargeable to FDT accounts. For shipments from commercial vendors, cite the TAC that corresponds to the appropriations listed in paragraphs 1.a. (1) through 1.a. (13). For shipments from Navy industrial activities, cite the industrial activity TAC listed in paragraph 1.a. (14). Unless otherwise specified or excepted, the subheads listed will be considered as covering a series. For example, subhead 2300 includes all subheads beginning with ".2301" up to and including ".2399." Navy stock point procurements require that the budget project be identified (see paragraph 2.a.). Appropriations listed below are in numerical order as are the subheads within appropriations. FDT Transportation of Nonappropriated Fund material is chargeable to the TACs Listed in paragraphs 3.a. through 3.b.

- authority for the ACP was transferred by Congress from the industrial funds to the procurement appropriations. This means the procurement appropriations will fund transportation costs incurred in the procurement of ACP equipment. FOB destination costs should already be included in the contract price. FOB origin costs, however, are paid separately by use of a TAC code. In order to properly charge FOB origin costs to the ACP procurement lines, one TAC code per major claim was established in FY90. Refer to decision table for further guidance. (See section A, paragraph 4.c.(2).)
- assembled, or produced material is considered new procurement. Shipments of vendor-supplied material to Navy Industrial Activities is considered to be an FDT cost chargeable to the FDT TAC of the requisitioning activity as indicated below. Transportation of finished products from the industrial activity to the end-use activity is also chargeable to the activity FDT TACs listed below. Multi-stage shipments of produced material or equipment requiring additional machining, testing, modification, etc., before reaching ultimate point of Navy use or storage, is FDT. These TACs are also used for organic material shipments, and HHG or POV shipments when DBOF funded.

b. Second Destination Transportation (SDT)

(1) Stock Points. Shipments of Stock Account odd-cog material from Navy stock points and class 207/224 mobile units will be charged to the unique TACs shown below. The TACs may only be used when issuing stock account material on material release documents (DD Form 1348-1) in response to customer requisitions, ICP directed redistribution actions or non-ATAC returns to an overhaul point. Transportation officers who perform shipment services for customers offering organic or unit-owned material for shipment (material not held on the stock records of the stock point supply officer) will cite the TAC of the activity directing the shipment on all non-stock account material shipments (see section B, paragraph 4.a.).

2. Stock Point Purchased Material

a. Transportation of material purchased from a vendor for delivery to a Navy stock point for stock is chargeable to the following FDT TACs. While stock points are encouraged to buy "L" acquisition advice code material for stock on an FOB destination basis, the following TACs may be used for such acquisitions when material is purchased on an FOB origin basis. The budget project determines the TAC and is the first two digits in the BCN. For example: "97X4930.NC1A 000 14000" is the partial accounting line for DBOF appropriation. 14000 represents the BCN field and indicates that "14" is the appropriate budget project. As shown on the next page, the corresponding TAC is N901.

NOTE: NC1A denotes DBOF, Supply Management Material.

CHAPTER 8

DEFENSE LOGISTICS AGENCY TRANSPORTATION ACCOUNT CODES

SECTION A. POLICY

Under the Defense Business Operations Fund (DBOF) second destination transportation (SDT) for DBOF material only (formerly stock funds and industrial fund) will be charged to the DBOF Appropriation of the distribution depot making the shipment.

SECTION B. GENERAL

- 1. <u>General Information</u>. This chapter provides definitions, instructions, and other information pertaining to the assignment of DLA TACs.
 - a. Reference: DLAM 7000.1
 - b. Definitions
- (1) First Destination Transportation (FDT). This is transportation of DLA material from the contractor to the first point of use or storage:
 - (a) Contractor to DLA depot
 - (b) Contractor to CONUS port
 - (c) Contractor to CONUS customer
- (2) Second Destination Transportation (SDT) for DBOF material includes:
- (a) from a distribution depot to the CONUS customer, to a Containerization Consolidation Point (CCP), or to a point for transshipment to another carrier for overseas shipment;
- (b) OCONUS transportation that originates at a DLA Distribution Depot to an OCONUS port or breakbulk point;
- (c) vendor shipments from a CONUS port to an OCONUS port;
- (d) material return from OCONUS when approved by the inventory manager. DBOF transportation funds will not be cited on return shipments. Once the material is received by the depot and meets the criteria for the authorized return, the customer will be refunded the transportation surcharge when the material is received back into stock.
- 2. <u>Nonsignificant TACs</u>. Shipping activities are not authorized to use the DLA nonsignificant TAC.
- 3. TAC Construction for the majority of items managed and shipped by DLA. TACs relative to the movement of DLA material are generally constructed on the following basis:

- **a.** <u>First Character</u>. The alpha "S" is used to identify Defense Logistics Agency owned and/or sponsored material.
- b. Second Character. The numeric "1" is used for revolving fund (DBOF) shipments. The numeric "3" is used for household goods. The numeric "4" is used for DRMS shipments. The numeric "5" is used for the movement of equipment and supplies.
- c. Third Character. For DBOF shipments, the alphabetic character that denotes the Military Service or Agency which owns the material. "A" denotes Army, "N" denotes Navy, "F" denotes Air Force, "N" denotes Marine Corps, and "L" denotes DLA. For non-DBOF items, this should indicate the fiscal year of the appropriation.
- d. <u>Fourth Character</u>. The alphabetic character which represents the DLA Distribution Region or other activity to be charged. The following activities and their corresponding characters are valid:
 - "M" Defense Distribution Region, East (includes all shipments from distribution sites east of the Mississippi River).
 - "C" Defense Distribution Region, West (includes all shipments from distribution sites west of the Mississippi River).
 - "S" Defense Reutilization and Marketing Service
 - "I" Defense Contract Management Command International
 - "A" Defense Fuel Supply Center
 - "P" Defense Personnel Support Center
- 4. <u>DLA TAC Coordination/Assistance</u>. The following office has a TAC coordinator who can provide assistance in unusual TAC assignment situations or ones which cannot be resolved according to the provisions outlined in this chapter. This office will also coordinate establishment or modification of all TACs.

MILITARY STANDARD TRANSPORTATION AND MOVEMENT PROCEDURES

- This change, published by direction of the Deputy Assistant Secretary of Defense (Logistics) (DASD(L)), under the authority of DoD Directive 4140.1, Materiel Management Policy, is effective upon receipt. Appropriate leadtime for implementation of new billing addresses; changes to billing addresses; new series of Transportation Account Codes (TACs); and new TAC edit criteria may be required by the Transportation Component Commands as provided in Chapter 1.
- This change incorporates:
- Interim Change associated with Chapter 4, Transportation Account Codes Other Than DoD and U.S. Government Agencies, specifically Interim Change 3-26 (erroneously disseminated as Interim Change 5-6).
- New information in Chapter 4 concerning TACs for Washington Headquarters Service, Defense Information Systems Agency, and Defense Mapping Agency, not previously published.
- A revision of Chapters 7, Department of the Navy Transportation Account Codes and 8, Defense Logistics Agency Transportation Account Codes.
- D. Miscellaneous editorial revisions to correct and/or clarify existing information.
- III. Chapters, paragraphs, and figures that contain additions or modifications are highlighted by bold italic type.
- IV. Remove old pages listed below and insert new revised pages as follows:

SECTION B. STANDARD TACS

1. Logistics Materiel

- a. First Destination Transportation. Reserved.
- b. Second Destination Transportation.
- (1) DoD Washington Headquarters Service (WHS). The Directorate of Budget and Finance, DoD-WHS, establishes and maintains the Agency level central accounting controls for:

Secretary of Defense Activities (OSD)
Office of the Joint Chiefs of Staff (OJCS)
Defense Advance Research Projects Agency (DARPA)
American Forces Information Service (AFIS)
Defense Security Assistance Agency (DSAA)
Department of Defense Dependents Schools (DoDDS)

(a) TAC Composition. The TACs for DoD-WHS accounting purposes are constructed as follows:

1st Position	Code "H"	Is a constant. Is assigned by Defense Logistics Agency. Identifies DoD-WHS and Defense Agencies (other than DLA, which has TAC codes provided by chapter 8 this regulation).
2d Position	Code "D"	Is a constant. Is assigned by DoD-WHS. Identifies, as a group, DoD-WHS, OJCS, DARPA, AFIS, DSAA, and DoDDS.
3d Position	Code "A" Code "B" Code "C" Code "D" Code "E" Code "F"	Is assigned by DoD-WHS. Identifies DoD-WHS as an organization to be charged. Is assigned by DoD-WHS. Identifies OJCS Is assigned by DoD-WHS. Identifies DARPA Is assigned by DoD-WHS. Identifies AFIS Is assigned by DoD-WHS. Identifies DSAA Is assigned by DoD-WHS. Identifies DoDIG

Code "G" Identifies Appropriate Account 97970100.30

(b) TAC Coordination/Assistance. The following TAC coordinator has been established to provide assistance with TAC assignment problems:

DoD Washington Headquarters Service (WHS)
Installation Accounting Division
Room 3B269, Pentagon
Washington, DC 20301-1155
Telephone: DSN 224-0987
Commercial (202) 614-0987

(c) Billing Addresses. The following TACs are applicable to OSD, OJCS, DARPA, AFIS, DSAA, and DoDDS. No transportation activity has the authority to arbitrarily use a TAC listed below without prior approval of DoD-WHS. Approval may be obtained by electronic message or telephone (202) 614-0987 or DSN 224-0987. After approval has been received for the use of a specific TAC, an advance copy of the actual shipping document must be forwarded to DoD-WHS. Any deviations will result in the charges for all transportation costs being rejected for payment by this activity.

- (2) Defense Information Systems Agency (DISA) TACs.
 - (a) DCA TAC composition consist of the following:

Α

1 The first digit (rp 64) is alphabetical. "H' identifies the miscellaneous DoD Agencies.

<u>2</u> The second digit (rp 65) is alphabetical. "A" identifies the **DISA**.

3 The third digit (rp 66) is numerical and identifies the fiscal year of the funds to be charged. In the example, subparagraph 4 below, the fiscal year is shown as FY 86.

4 The fourth digit (rp 67) is alphabetical and identifies the disbursing office to be billed for transportation charges applicable to the DISA activities shown in paragraph B.10.(2)(c). In the example below, the disbursing office servicing DISA headquarters is shown.

Example:

DEPARTMENT OF THE NAVY TRANSPORTATION ACCOUNT CODES

SECTION A. GENERAL

1. <u>Introduction</u>. The Navy Transportation Account codes (TACs) listed and defined herein identify management information and costs initially financed through the Navy Management Fund (NMF) Transportation of Things subhead. TACs are used within the accounting appropriation data to identify the appropriation or user ultimately responsible for paying the transportation costs incurred.

2. General Information.

b. Definitions

- (1) First Destination/(FDT). FDT is that transportation required to effect the delivery of material from a procurement source to the first point of use or storage. The procurement source and first point of use or storage may be in CONUS or overseas. The procurement source, as used herein, is any supplier outside the DoD supply system and any DoD activity which fabricates new material. FDT also includes transportation from point of origin to point of use or storage when Navy-owned material or equipment is provided to a contractor incident to a Research and Development project or a system/equipment acquisition or modification. Charges include those for freight cartage, CONUS port handling, and other transportation costs (except demurrage) incurred incident to the shipment of FDT material. Although packing services and other miscellaneous shipment preparation charges may be found in commercial carriers' tariffs, tenders or schedules, only intransit charges may be paid with transportation funds. Preparation and destination charges will be funded from other than transportation funds. CONUS port handling costs are paid with transportation funds. general, overseas port handling costs are chargeable to either the activity handling the cargo or the fleet Commander-in-Chief having area responsibility.
- specify Free on Board (FOB) destination or FOB origin material delivery instructions. FOB destination means the vendor is required to deliver the material at vendor expense to the ultimate consignee. There is no separate transportation charge to the Government, as the cost of transportation is included in the cost of the goods. On FOB origin shipments, the Government is responsible for funding the cost of moving the material from the vendor's location to the ultimate consignee as a separate charge. Procurement and contract administration personnel will ensure that for FOB origin procurements, transportation funding will be cited separately and made available to the shipper. The appropriate FDT TAC to be cited is the TAC associated with the appropriation used to procure the material. FDT TACs are found in Section B, paragraph 1.a.
- (b) <u>DoD Activity Fabricated Material</u>. Many Navy and other DoD industrial activities manufacture components for installation on Navy aircraft, ships and other projects. The movement of these newly manufactured components is chargeable to FDT. FDT TACs for industrial activities are found in section B, paragraph 1.a.(14). The term: "DoD

activity fabricated material" excludes material used to install the newly fabricated component. For example, when an industrial activity manufactures a component for installation on a ship and is then required to send personnel, material, or tools to the site to accomplish the installation, the cost of moving the personnel, material, or tools between the industrial activity and installation site is funded by the organic material TAC of the industrial activity (see section B, paragraph 1.a.(14)).

- (SDT) is the subsequent distribution of material after shipment to the first destination has been completed. It includes shipments required to fill Navy requisitions; redistribute material; and return material for overhaul, rework, repair, or disposal action. It does not include the issue of Navy-owned material incident to a system or equipment acquisition, modification, or a research and development project (see first destination). Government furnished material shipped incident to a Foreign Military Sales (FMS) or Grant Aid project must cite the country and case number on the shipping documentation. The FMS or grant aid TAC will be derived in accordance with instructions in Chapter 11.
- (a) Second destination **stock point** shipments are generated by an inventory manager's decision to issue material in response to Navy requisitions or to redistribute material to other stock points and by a supply officer's decision to retrograde material for disposal or repair. Stock point SDT TACs are found in section B, paragraph 1.b.(1).
- (b) Redistribution of organic material is funded by the activity directing the redistribution. TACs for redistribution of organic material are found in section B, paragraph 4.a.
- (c) Shipments of excess/surplus material by a Navy stock point activity to another location for storage, disposal, or rework are SDT and will cite the appropriate stock point SDT TAC as indicated in section B, paragraph 1.b.(1). Movement of excess/surplus material from one end-use activity (includes DRMO sites) to another end-use activity will be funded by the receiving activity and will cite the appropriate organic material TAC as indicated in section B, paragraph 4.a. Shipments of excess/surplus material in support of military construction, Navy (MCN), Navy RDT&E and Family Housing Navy and Marine Corps appropriations may be charged to the appropriate FDT TACs found in section B, paragraph 1.a.

- (d) Marine Corps transportation costs for the movement of aviation material purchased with Navy appropriations are chargeable to the Navy FDT (section B, paragraph 1(a)) and Navy SDT (section B, paragraph 1(b)). Marine Corps aviation unit movements, including transportation of organic supplies and equipment are the responsibility of the major claimant or Fleet Commander directing the movement.
- (3) Nonsignificant TACs. Shippers are not authorized to use the Navy nonsignificant TAC which is N000. Its use is restricted to Air Terminals (Air Mobility Command and QUICKTRANS) for the expeditious movement of cargo. Shippers of Navy-sponsored ocean cargo should resolve TAC problems with the Navy Material Transportation Office (NAVMTO) representative at the appropriate MTMC Area Command (Eastern Area DSN 247-6458 or commercial (201) 823-6458 and Western Area DSN 672-4712 or commercial (415) 466-4712). For all other TAC problems, contact NAVMTO at DSN 564-3165 or commercial (804) 444-3165).
- (4) Organic Material. The term organic material refers to any material held by organizations other than stock points. Common material in this classification includes minor plant property, property book material, aircraft maintenance stands and test equipment, organization clothing, unit-owned tools and equipment, and end-use owned equipment. Unlike stock-point issued material, material on the financial inventory records of a stock point, organic material shipments are usually transported as a result of crossdecking or unit deployment directives. The following are POCs available to provide guidance on matters concerning use of organic TACs (all phone numbers are commercial):

- c. Appropriation Chargeable.
 - (1) General.
- (a) For Navy-sponsored shipments requiring a line of accounting, cite the NMF appropriation as follows:

17X3980.2379/022/_ _____/0/063408/2D/000000/000 _ ___98003 *(see (b) below) *(see (c) below)

(b) The five digit Bureau Control Number (BCN) field should be filled in accordingly:

BCN 72001 This BCN will be used to identify shipments paid on a public voucher or a Commercial Bill of Lading (CBL) and charged to FDT, SDT, or Defense Business Operations Fund (DBOF) accounts. This does not include shipments made on Government Bills of Lading or Military Freight Warrants.

BCN 74001 This BCN will be used when transportation is paid on a Government Bill of Lading (GBL) or Government Freight Warrant.

- (c) The four blanks preceding the functional account code (98003) will be completed with the TAC constructed in accordance with this publication. For example, if TAC N696 is the correct TAC for a particular GBL shipment, the cost code field would be constructed as "000N69698003".
- (d) Government Bills of Lading. Most Navy-sponsored shipments moving on GBLs do not require a full accounting line in the GBL "appropriation chargeable" block. Navy transportation officers are authorized to simply cite the appropriate Navy TAC in the GBL "appropriation chargeable" block rather than the full accounting line. For Navy-sponsored shipments, show Defense Accounting Office-Transportation Payment Center (DAO-TPC), Code ISBBB as the paying activity (see section D).

(2) <u>Decision Table for determining appropriate TAC¹</u>

Is the shipment:

1. Navy sponsored?
Is the first position of the requisition number on source document (DD Form 1348-1) in record position 30 an N, R, Q, or V? Does source document such as DD Form 1149 cite appropriation beginning with 17 or 97X4930.N ?

YES - Proceed to next question. NO - Determine sponsoring agency. Cite agency's TAC from applicable vol II chapter.

2. Newly manufactured material originating at resource point (contractor, plant, or Navy industrial activity) for installation in a Navy ship, or use by another unit?

YES - This constitutes FDT (except rework) material. For shipments from commercial vendors cite the FDT TAC associated with procuring appropriation or fund. For shipments from Navy industrial activities cite TACs listed in section B, paragraph 1.1(14).

- NO Proceed to next question.
- 3. Navy-owned non-stock material incident to RDT&E or system/equipment acquisition or modification?
- YES Cite appropriate FDT TAC associated with RDT&E or system acquisition or modification procuring appropriation or fund.
- NO Proceed to next question.
- 4. Transportation of material issued by a Navy stock point?

YES - Charge odd-cognizance (cog) material to the TAC of the activity issuing material. Charge even-cog material issues

Navy TAC coordination/assistance. NAVMTO maintains the Navy TAC system. The local transportation officer is responsible for the assignment of correct TACs in accordance with this instruction. The *shipment directing activity* is responsible for providing the data needed by the transportation officer to assign the correct TAC. Transportation personnel and shipment directing personnel may contact the NAVMTO TAC coordinator for assistance with Navy-sponsored shipments at DSN 564-3165 or (804) 444-3165. The FAX number is DSN 564-7383 or (804) 444-7383.

to the SDT even-cog TAC. (See section B, paragraph 1.b(1).)

- NO Proceed to next question.
- 5. Excess material acquisition by end-use activity or shipment of excess/surplus material shipped to a Department of Defense disposal activity?
- YES Charge to transportation funds of requesting activity. Shipments to disposal sites are chargeable to the shipping activity.
- 6. Inventory Control Point directed redistribution or return of Navy material made by Navy stock points?
- NO Proceed to next question.

- 7. Components being sent to an overhaul point for rework?
- YES Charge odd-cog material transportation to issuing activity TAC (see section B, paragraph 1.b(2)). Charge even-cog material to SDT even-cog TAC.
- NO Proceed to next question.
- YES If Navy inventory control point directed use SDT stock point or cog TACs cited in section B, paragraph 1.b. If the component is organic material being directed to an overhaul site by other than an inventory control point, cite one of the organic material TACs in section B, paragraph 4.a.
- NO Proceed to next question.
- 8. FMS or Military
 Assistance Program (MAP)?
- YES See chapter 11 for FMS/MAP.
- NO Proceed to next question.

- 9. Material procured for stock replenishment by a Navy stock point activity citing the appropriation 97X4930.NCIA?
- 10. Material required by and for a Navy industrial activity citing 97X4930.N---?
- 11. HHGs, personal effects, Privately Owned Vehicles (POVs) citing appropriation 17-1453?
- 12. HHGs, personal effects or POVs for Reserve Navy Personnel citing appropriation 17-1405?
- 13. HHGs or POVs for civilians?
- 14. Overseas transportation of Worldwide Integrated Management of Subsistence under DLA management?
- 15. Demurrage/Detention
 incurred?

YES - Cite the FDT TAC associated with the applicable budget project. See section B, paragraph 2.a.

NO - Proceed to next question.

YES - Cite the industrial activity FDT TAC for new procurement/excess material acquisitions. Cite TAC of issuing stock point for SDT requisition issues.

NO - Proceed to next question.

YES - Obtain TAC from military orders.
Military PCS TAC construction procedures
are found in BUPERS INST 7040.6, Series,
"Military Personnel, Navy."

NO - Proceed to next question.

YES - Obtain TAC from military orders. Military TAC construction for RPN is found in BUPERS INST 7040.7, Series, "Military Personnel, Navy Reserves/TAR."

NO - Proceed to next question.

YES - Obtain TAC from section B, paragraph 4.a. according to the appropriation and subhead.

NO - Proceed to next question.

YES - Obtain subsistence TAC from vol II, chapter 8.

NO - Proceed to next question.

YES - Not chargeable to transportation funds. Pay with station funds of responsible activity.

No - Proceed to next question.

16. Prepay & Add?

YES - Prepay & Add (PP&A) is a procurement and financial procedure used to allow a vendor to arrange transportation to a destination, pay the transportation costs, and add it to the vendor bill as a separate line item. Refer to FAR 42-1403-2 and FAR 19-403-2 for details on parameters of using PP&A procedures. The material cost is paid from the procurement appropriation. transportation charges will be billed to the appropriate procurement account via the NMF. PP&A charges for the below listed procurement appropriations will be separately identified through the use of individual TACs. Contracting offices utilizing PP&A will include in the contract the appropriate transportation accounting data for obligation purposes. The NMF accounting citation chargeable is: 17X3980.2379/022/72001/0/063408/2D/ 000000/000----98003. The blank (-) positions will be completed by a TAC which is dependent upon the funds appropriation procuring the materials. The TACs available for use to pay PP&A charges are found in section B, paragraph 1.a.(4) through (9). If PP&A TAC is applicable, all subheads under the related appropriations should be charged to the same PP&A TAC.

NO - Proceed to next question.

17. Administrative Material Shipments?

YES - Administrative material consists of items such as: general correspondence, personnel records, payroll records, laboratory samples (except whole blood and urine samples), computer tapes, legal/financial/recruiting/contracting/blueprints or similar documents, and technical manuals/plaques not requisitioned through stock. Shipments of administrative material will be funded by the local activity requesting shipment

and paid by the local activity disbursing office. For Navy-sponsored administrative shipments originating in overseas areas where the sole source of transportation is via AMC, MSC or GBL, cite the applicable TAC listed on pages 7-B-16 thru 7-B-24.

NO - Proceed to next question.

- 18. Navy-owned military ordnance readiness equipment and associated support material above 50 CAL/40mm assigned to Coast Guard Units in support of Navy Missions?
- YES Use TAC N082.
- NO Proceed to next question.
- 19. Red Cross supplies and equipment to and from overseas for ocean or air shipments sponsored by the Navy?

YES - Applicable cost will be charged to the Operations and Maintenance funds of the bureau, office, or operating force having financial responsibility of activity to which shipment is ultimately consigned.

NO - Proceed to next question.

20. Other shipments directed by FLTCOM/TYCOMS/SYSCOMS?

YES - Transportation of organic material, i.e., items on the custody or plant account records of field activities or deployable units, incident to relocation and/or rotational deployment, is a funding responsibility of the major claimant or management command who directs the movement. Contact CINCS/TYCOMS/SYSCOMS listed in section A, paragraph 4. Use TACs listed in section B, paragraph 1.a.(3) for Naval Construction Force (NCF) shipments.

NO - Proceed to next question.

21. Asset Capitalization Program (ACP)?

YES - In FY90, Congress transferred the funding authority for the ACP from the industrial funds to the procurement appropriations. Transportation costs

(e.g., shipping) as an integral cost incurred in the procurement of ACP equipment will be funded in the same appropriation funding the purchase of the equipment. Refer to NAVCOMPT msgs 041850Z Jan 1990 and 150017Z Mar 1990 for guidance on the execution of the ACP. Contact major claimant for further information. See section B, paragraph 1.a. (13).

NO - Proceed to next question.

- 22. GSA shipments of 9Q cog material from CONUS APOE/WPOE to overseas APOD/WPOD?
- 23. Shipments of Not Ready For Issue (NRFI) - Depot Level Repairables (DLRS) to/from an Advanced Traceability and Control
- 24. ICSS repairable material/ICSS consumable material OR or OQ coq?

(ATAC) Hub or Node?

- YES Cite TAC N194.
- NO Proceed to next question.
- YES Refer to section B, paragraph 1.b. (1).
- NO Proceed to next question.
- YES Cite TAC N826 (interim contractor supply for weapon systems and equipment).
- NO Proceed to next question.
- 25. Navy-sponsored Ready for Issue (RFI) repairable being returned from a contractor's repair site to the supply system? Also, includes shipment of Non-ATAC NRFI repairables to the designated overhaul point or storage point.
- YES Cite TAC "NASO" if material is ASO-controlled or "NSPC" if material is SPCC-controlled.
- NO Refer to other questions.

SECTION B. STANDARD TACS.

1. Logistics Material.

a. First Destination Transportation (FDT). Transportation of newly manufactured material from vendors or Department of Defense industrial activities is chargeable to FDT accounts. For shipments from commercial vendors, cite the TAC that corresponds to the appropriations listed in paragraphs 1.a. (1) through 1.a. (13). For shipments from Navy industrial activities, cite the industrial activity TAC listed in paragraph 1.a. (14). Unless otherwise specified or excepted, the subheads listed will be considered as covering a series. For example, subhead 2300 includes all subheads beginning with ".2301" up to and including ".2399." Navy stock point procurements require that the budget project be identified (see paragraph 2.a.). Appropriations listed below are in numerical order as are the subheads within appropriations. FDT Transportation of Nonappropriated Fund material is chargeable to the TACs listed in paragraphs 3.a. through 3.b.

- (13) Asset Capitalization Program (ACP). The funding authority for the ACP was transferred by Congress from the industrial funds to the procurement appropriations. This means the procurement appropriations will fund transportation costs incurred in the procurement of ACP equipment. FOB destination costs should already be included in the contract price. FOB origin costs, however, are paid separately by use of a TAC code. In order to properly charge FOB origin costs to the ACP procurement lines, one TAC code per major claim was established in FY90. Refer to decision table for further guidance. (See section A, paragraph 4.c.(2).)
- assembled, or produced material is considered new procurement. Shipments of vendor-supplied material to Navy Industrial Activities is considered to be an FDT cost chargeable to the FDT TAC of the requisitioning activity as indicated below. Transportation of finished products from the industrial activity to the end-use activity is also chargeable to the activity FDT TACs listed below. Multi-stage shipments of produced material or equipment requiring additional machining, testing, modification, etc., before reaching ultimate point of Navy use or storage, is FDT. These TACs are also used for organic material shipments, and HHG or POV shipments when DBOF funded.

b. Second Destination Transportation (SDT)

(1) Stock Points. Shipments of Stock Account odd-cog material from Navy stock points and class 207/224 mobile units will be charged to the unique TACs shown below. The TACs may only be used when issuing stock account material on material release documents (DD Form 1348-1) in response to customer requisitions, ICP directed redistribution actions or non-ATAC returns to an overhaul point. Transportation officers who perform shipment services for customers offering organic or unit-owned material for shipment (material not held on the stock records of the stock point supply officer) will cite the TAC of the activity directing the shipment on all non-stock account material shipments (see section B, paragraph 4.a.).

2. Stock Point Purchased Material

a. Transportation of material purchased from a vendor for delivery to a Navy stock point for stock is chargeable to the following FDT TACs. While stock points are encouraged to buy "L" acquisition advice code material for stock on an FOB destination basis, the following TACs may be used for such acquisitions when material is purchased on an FOB origin basis. The budget project determines the TAC and is the first two digits in the BCN. For example: "97X4930.NC1A 000 14000" is the partial accounting line for DBOF appropriation. 14000 represents the BCN field and indicates that "14" is the appropriate budget project. As shown on the next page, the corresponding TAC is N901.

NOTE: NCIA denotes DBOF, Supply Management Material.

4. Organic Material/Personal Property

Civilian Personal Property and Organic Material Shipments. The TACs listed by appropriation and subhead sequence in the paragraph below will be used for HHG/POV movement of civilian personnel where PCS travel orders cite the appropriations and subheads indicated. The BCN shown in parenthesis after the subhead must be considered before assigning a TAC. These TACs may also be utilized for the transportation of organic equipment/excess-surplus material shipments directed or requested by the activity. (See section A, paragraph 1.b. (4) for a definition of organic material.)

CHAPTER 8

DEFENSE LOGISTICS AGENCY TRANSPORTATION ACCOUNT CODES

SECTION A. POLICY

Under the Defense Business Operations Fund (DBOF) second destination transportation (SDT) for DBOF material only (formerly stock funds and industrial fund) will be charged to the DBOF Appropriation of the distribution depot making the shipment.

SECTION B. GENERAL

- 1. <u>General Information</u>. This chapter provides definitions, instructions, and other information pertaining to the assignment of DLA TACs.
 - a. Reference: DLAM 7000.1
 - b. Definitions
- (1) First Destination Transportation (FDT). This is transportation of DLA material from the contractor to the first point of use or storage:
 - (a) Contractor to DLA depot
 - (b) Contractor to CONUS port
 - (c) Contractor to CONUS customer
- (2) Second Destination Transportation (SDT) for DBOF material includes:
- (a) from a distribution depot to the CONUS customer, to a Containerization Consolidation Point (CCP), or to a point for transshipment to another carrier for overseas shipment;
- (b) OCONUS transportation that originates at a DLA Distribution Depot to an OCONUS port or breakbulk point;
- (c) vendor shipments from a CONUS port to an OCONUS port;
- (d) material return from OCONUS when approved by the inventory manager. DBOF transportation funds will not be cited on return shipments. Once the material is received by the depot and meets the criteria for the authorized return, the customer will be refunded the transportation surcharge when the material is received back into stock.
- 2. <u>Nonsignificant TACs</u>. Shipping activities are not authorized to use the DLA nonsignificant TAC.
- 3. TAC Construction for the majority of items managed and shipped by DLA. TACs relative to the movement of DLA material are generally constructed on the following basis:

- **a.** <u>First Character</u>. The alpha "S" is used to identify Defense Logistics Agency owned and/or sponsored material.
- b. Second Character. The numeric "1" is used for revolving fund (DBOF) shipments. The numeric "3" is used for household goods. The numeric "4" is used for DRMS shipments. The numeric "5" is used for the movement of equipment and supplies.
- c. Third Character. For DBOF shipments, the alphabetic character that denotes the Military Service or Agency which owns the material. "A" denotes Army, "N" denotes Navy, "F" denotes Air Force, "M" denotes Marine Corps, and "L" denotes DLA. For non-DBOF items, this should indicate the fiscal year of the appropriation.
- d. Fourth Character. The alphabetic character which represents the DLA Distribution Region or other activity to be charged. The following activities and their corresponding characters are valid:
 - "M" Defense Distribution Region, East (includes all shipments from distribution sites east of the Mississippi River).
 - "C" Defense Distribution Region, West (includes all shipments from distribution sites west of the Mississippi River).
 - "S" Defense Reutilization and Marketing Service
 - "I" Defense Contract Management Command International
 - "A" Defense Fuel Supply Center
 - "P" Defense Personnel Support Center
- 4. <u>DIA TAC Coordination/Assistance</u>. The following office has a TAC coordinator who can provide assistance in unusual TAC assignment situations or ones which cannot be resolved according to the provisions outlined in this chapter. This office will also coordinate establishment or modification of all TACs.

CHAPTER 3

TRANSPORTATION ACCOUNT CODES DEPARTMENT OF THE AIR FORCE

SECTION A. GENERAL

1. <u>Introduction</u>. This chapter provides definitions, instructions, and other information pertaining to the assignment of Air Force Transportation Account Codes (TACs). It provides for unique elements of Air Force transportation policy as it impacts the financing of transportation charges.

2. General Information

a. References:

- (1) AFI 65-601¹, Budget Guidance and Procedures, Chapter 10, Section E (Transportation of Property) and Chapter 18 (Defense Business Operations Fund (DBOF)).
 - (2) AFI 24-201, Cargo Movement.
- **b. Definitions:** The following are approved Air Force definitions of first and second destination transportation:
- (1) First Destination Transportation (FDT). FDT is that transportation required to effect the delivery of logistics material from a procurement source outside the DoD logistics system to the first point of use or storage for subsequent distribution within the Air Force logistics system. *It* includes the charges for freight cartage and demurrage incurred incident to shipment of the material. *This definition is further augmented* as follows:
- (a) When logistics materiel is procured within the CONUS for delivery to a CONUS point of use or storage, FDT includes all transportation by land, air, and inland or coastal waterways.
- (b) When logistics materiel is procured within an overseas area for delivery to a point of use or storage within that area, FDT includes all transportation by land, air, and inland or coastal waterways.
- (c) When logistics materiel is procured within the CONUS for or on behalf of an overseas command for delivery to an overseas point of use or storage, FDT is considered to terminate when the materiel is delivered to a CONUS air or water port.
- (2) Second Destination Transportation (SDT). SDT is any transportation other than FDT. It includes port handling charges and charges for freight, cartage, demurrage, and other charges incurred incident to shipment of Air Force logistics materiel. SDT is paid from two types of funds:
- (a) SDT Centrally Managed Allotment (CMA) fund for which AFMC has financial responsibility. The Air Force SDT/CMA pays for certain movements of non-DBOF materiel (munitions, aircraft engines, investment items, and other items listed in paragraph B.1.b.(3), below.
 - (b) DBOF (AFI 65-601).

¹ AFI 65-601 replaces AFR 172-1.

- (3) Defense Business Operations Fund (DBOF). DBOF is a large revolving fund that combines previously existing commercial or business operations under a single treasury account, but keeps prior organizational structures and command authority relationships. The Air Force DBOF includes the following divisions: Reparable Support Division (RSD), System Support Division (SSD), General Support Division (GSD), and Medical Support Division (MSD). The DBOF charges the requisitioner the cost of a reparable item and the associated operations costs (surcharge). Part of the cost included in this surcharge includes selecting the item, packaging it and moving the item to its intended destination. Normally, the transportation cost of DBOF items is paid with either part of this surcharge or with other budgeted DBOF funds. However, some DBOF items are eligible for movement with SDT funds if the movement is between CONUS and overseas in support of non-item manager directed lateral shipments. It is critical to the billing process that movement of DBOF items is charged to the appropriate TAC.
- c. Nonsignificant TACs. Shippers are not authorized to use the Air Force nonsignificant TAC. All shippers must cite a valid TAC on shipping documents and the TCMD prior to movement to air and water ports. The Air Force nonsignificant TAC is not valid for shipping or billing purposes. It is restricted for use by AMC aerial ports, MTMC CONUS area commands, and MSC to frustrate cargo only.
- d. Air Force TAC Coordination/Assistance. The following Air Force TAC coordinator has been established to provide assistance in TAC assignment problems that cannot be determined by research of this publication.
 - (1) AFMC-LSO/LOTP
 4375 Chidlaw Road, Suite 6
 Wright-Patterson AFB OH 45433-5006
 Telephone: DSN 787-4814
 Commercial (513) 257-4814
 - (2) HQ AFMC/FMOBT 4735 Chidlaw Road, Suite 6 Wright-Patterson AFB, OH 45433-5006 Telephone: DSN 787-7912 Commercial: (513) 257-7912

e. Appropriations Chargeable:

- (1) FDT is chargeable according to the Free on Board (FOB) terms of procurement. The FOB terms determine funding responsibility between U.S. Government and contractor.
- (a) FOB Destination is a contractor's responsibility and the FDT is included in the price of the item. Use of TAC is not appropriate.
- (b) FOB Origin is a U.S. Government responsibility. Abbreviated Transportation Accounting Classifications (ATACs) for use on FDT shipments are listed in Section B, paragraph 1.a.
- (2) Government Bills of Lading (GBLs). Instructions for use of Air Force *Materiel* Command funding for GBL shipments are published annually prior to the beginning of the fiscal year. These instructions are sent to all DoD Services/Agencies *and Air Force major commands (MAJCOMs)*. All questions concerning the use of HQ AF*M*C funds on GBLs should be directed to HQ AF*M*C/*FMOBT*, *4375 Chidlaw Road*, *Suite* 6, Wright-Patterson AFB, OH 45433-5006, DSN 787-7912, commercial 513-257-7912.

- (3) Budgeting and Funding Responsibility. The responsibility for budgeting and funding for transportation charges is prescribed in AFI 65-601, paragraph 10-39.
- (4) Diversions. TACs required for diversions in accordance with volume I, chapter 2, paragraph B.3.d. of this regulation will be assigned by the authorized diversion activity (primarily Air Force Shipper Service Control Office). Diversions of Air Force cargo to storage or Air Force base activities are considered an SDT shipment. The TAC or long line accounting classification appearing on the shipping document will be used to effect diversion. Shipping activities making diversions will cite the appropriate ATAC corresponding to the TAC contained in the diversion order for shipments to be made by commercial carrier using a GBL. Diversions to ANG destinations will cite TAC F8E0. Diversions to Security Assistance will cite the applicable TAC from chapter 11 of this volume.
- (5) Retrograde Water or aerial ports will cite the appropriate ATAC that corresponds to the TAC on the retrograde shipment in order to use commercial GBL modes. For Air Force sponsored Security Assistance retrograde shipments, see chapter 11.
- 3. Decision Table. The purpose of this decision table is to assist in determining the correct TAC for Air Force sponsored shipments moving through the Defense Transportation System (DTS).

SECTION B. STANDARD TACS

1. Logistics Materiel

a. First Destination Transportation (FDT). Financial responsibility for movement of Air Force FDT materiel procured FOB origin to ultimate CONUS consignee, and/or CONUS port of embarkation is determined by the Appropriation, Operating Agency Code (OAC), and Budget Program Activity Code (BPAC). This information is contained in contracts, purchase orders, and Military Interdepartmental Purchase Requests (MIPRs). Overocean and overseas port handling charges via DTS are paid from SDT CMA. ATACs for shipment by GBL of FD1 cargo are assigned as follows:

Type of <u>Procurement</u>	<u>Appropriation</u>	OAC	BPAC	ATAC112
Aircraft	57*3010	47/63/36	All	F8BO*@0
Missiles	57*3020	47/63/36	All	F8CO*@0
Munitions	57*3080	47/63/36	81	F8D1 *@ 0
Vehicles	57*3080	47/63/36	82	F8D2*@0
Comm & Elec	57*3080	47/63/36	83	F8D3 *@ 0
Equip	57*3080	47/63/36	84	F8D4*@0
Other Base <i>Equip</i> <i>Reimbursable</i>	57*3080	47/63/36	87	F8D7 *@ 0

b. Second Destination Transportation (SDT). Movement of Air Force sponsored logistics cargo via AMC, MSC, and MTMC CONUS port handling services is paid from two types of funds: the SDT Centrally Managed Allotment (CMA) for which AFMC has financial responsibility and DBOF (AFI 65-601). Use the TAC for DTS shipments and the ATAC for commercial air and commercial surface GBL shipments.

(1) DBOF Materiel:

(a) Redistribution Orders (RDOs): Systems Support Division (SSD) and Reparable Support Division (RSD) of Air Force DBOF will fund CONUS inland transportation using GBL, overocean transportation provided by AMC and MSC, and CONUS/overseas port handling provided by MTMC. Overseas inland transportation is the Operations and Maintenance (O&M) funding responsibility of the overseas MAJCOM. DBOF items shipped from a DLA depot are moved by a DLA TAC.

(b) Reparable Returns: Air Force DBOF will fund CONUS inland transportation using GBL, overocean transportation provided by AMC and MSC, and CONUS/overseas port handling provided by MTMC. Overseas inland transportation is the O&M funding responsibility of the overseas MAJCOM.

¹ Insert last digit of fiscal year in place of the "*."

² Insert "2" for commercial air or "3" for commercial surface in place of the "@."

(c) Standard Base Supply System (SBSS) program logic identifies Air Force DBOF materiel through the use of the fund code and budget code for each of the Stock Fund Divisions. It automatically assigns the TAC to the shipping document (DD Form 1348-1A) when transportation is the funding responsibility of AFMC. This change incorporates OSD(C) funding policy change dealing with the DBOF. This includes shipments for RSD, SSD, and GSD from Air Force bases as a result of item manager RDOs and the return of reparable assets to repair facilities (both contractors and depot).

(d) The following is a list of TACs and corresponding ATACs (GBL shipments) for DBOF materiel as identified by the fund code, budget code, and expendability, recoverability, repairability, category (ERRC) code. For GBL shipments, the appropriate ATAC must be determined from the logic given below and continued on the following page.

PR	8	RSD	C, T, or L	F#RS	F#RS*@0

(2) DBOF Lateral Support Shipments: For non-item manager directed lateral support shipments of Air Force DBOF material ("SHP" supply transactions) between CONUS Air Force bases and overseas Air Force bases, use the TAC listed below for overocean transportation by MSC, AMC, and CONUS port handling furnished by MTMC. Transportation from a CONUS Air Force base to the port of embarkation for non-item manager directed lateral support is the responsibility of the shipping base. Transportation costs for non-item manager directed lateral support shipments between CONUS Air Force bases is the responsibility of the shipping base. Transportation between an OCONUS Air Force base and an OCONUS port is the responsibility of the OCONUS base.

<u>Description</u>	<u>TAC</u>	ATAC
Lateral Support, Non-Item	F7LS	6

(3) Non-DBOF Materiel:

- (a) Item Manager Redistribution Orders (RDOs): AFMC will fund for CONUS inland transportation using GBL, overseas transportation provided by AMC, and MSC and CONUS port handling services provided by MTMC. Overseas inland and overseas port handling are the O&M funding responsibility of the overseas MAJCOM.
- (b) Reparable Returns: AFMC will fund overocean transportation provided by AMC and MSC, CONUS port handling services provided by MTMC, and CONUS inland transportation from AMC/MTMC CONUS aerial/water ports. AFMC will fund CONUS inland transportation from a repair facility to CONUS Air Force bases. Shipment of investment assets from a CONUS Air Force base to a CONUS repair facility is the responsibility of the owning CONUS MAJCOM. Overseas inland and overseas port handling are the O&M funding responsibility of the overseas MAJCOM.
- (c) SBSS is programmed to identify RDO shipments of non-DBOF materiel and assigns the appropriate TAC on the DD Form 1348-1A. SBSS program logic also identifies non-DBOF materiel shipped from a repair facility through the use of the fund code and budget code and automatically assigns the TAC to the shipping document.
- (d) The following is a list of TACs and corresponding ATACs for non-DBOF materiel. If a project code or federal stock class (FSC) from the list below appears on the DD Form 1348-1A, then the corresponding TAC pays for its movement. For GBL shipments, the appropriate ATAC must be determined from the logic given below.

⁶ Use shipping base O&M appropriation.

¹² The term "Foreign Origin" as used above means those goods produced or manufactured in a foreign country located outside the United States, its possessions, or Puerto Rico. It also includes those aforementioned goods which are physically located in bonded warehouse or foreign trade zones within the U.S., its possessions, or Puerto Rico, but it does not include foreign produced or manufactured goods which have otherwise been lawfully imported into the United States, its possessions, or Puerto Rico.

¹³ Construction of AF Military Personal Property TAC.

¹⁴ Accounting classification for use on GBLs must be obtained from members' PCS orders.

- (1) Second position of TAC identifies the last position of the applicable fiscal year. Applicable fiscal year will be the same as the transfer effective date (TED) on travel orders.
- (2) Third position of TAC identifies officer and enlisted personnel (7 = officer, 8 = enlisted).
- (3) Fourth position of TAC identifies the PCS movement category:

 A = Accession, C = Operational, D = Rotational, E = Separation, F = Unit Moves, G = Base Closure Moves, and H = Emergency PCS.

c. Excess Household Goods. The following procedure applies to the overocean movement of authorized excess household goods to nontemporary storage in the CONUS incident to assignment of USAF Military personnel to Government quarters at overseas duty stations. Shipments made under these provisions which involve CONUS MTMC port handling and MSC overocean transportation and other related services will be billed to *AFMC*. The billing addresses that appear for each MAJCOM are for Air Force internal use only. TAC F89X is applicable. In place of the "X" in the fourth position of the TAC, insert the applicable alpha designator (as listed below) of the MAJCOM whose operation and maintenance appropriation will be charged for the movement of excess household goods to the nontemporary storage point in the CONUS.

CHAPTER 4

TRANSPORTATION ACCOUNT CODES OTHER THAN DOD AND U.S. GOVERNMENT AGENCIES

SECTION A. GENERAL

1. <u>Introduction</u>. This chapter provides information pertaining to the assignment of TACs for other DoD and U.S. Government Agencies. TACs identify the appropriation of the user of the Defense Transportation System. The TAC, in conjunction with other critical shipping data, permits the Transportation Component Commands (TCCs) to bill the Agency (activity) responsible for payment of transportation costs incurred as a result of a movement of materiel.

2. General Information

a. References. Reserved.

b. Definitions:

- (1) First Destination Transportation (FDT). FDT is that transportation required to effect the delivery of logistics material from a procurement source outside the DoD supply system to the first point of use or storage for subsequent distribution within the DoD supply system.
- (2) Second Destination Transportation (SDT). SDT is any transportation of materiel which is considered other than FDT. It includes port handling, freight, cartage, demurrage, and other charges incident to the overocean movement of materiel by means of the Defense Transportation System methods, i.e., AMC, MSC, and/or MTMC port handling.
- (3) Nonsignificant TACs. Other DoD and U.S. Government Agencies nonsignificiant TACs are authorized for use by AMC, MTMC, and MSC activities only. TAC H000 is the nonsignificant TAC designated for these Agencies.
- c. TAC Coordination/Assistance. TAC coordinators for each agency (listed in B.1.b.(1) thru (14)) have been established to provide assistance with TAC assignment problems that cannot be determined by research of this publication.
- d. Appropriations Chargeable. The appropriations chargeable are listed independently for each agency (see B.1.b.(1) through (13), this chapter); if none listed, contact the appropriate TAC coordinator.
 - 3. **Decision Table** Reserved.

SECTION B. STANDARD TACS

1. Logistics Materiel

Code "G"

- a. First Destination Transportation. Reserved.
- b. Second Destination Transportation.
- (1) DoD Washington Headquarters Service (WHS). The Directorate of Budget and Finance, DoD-WHS, establishes and maintains the Agency level central accounting controls for:

Secretary of Defense Activities (OSD)
Office of the Joint Chiefs of Staff (OJCS)
Defense Advance Research Projects Agency (DARPA)
American Forces Information Service (AFIS)
Defense Security Assistance Agency (DSAA)
Department of Defense Dependents Schools (DoDDS)

(a) TAC Composition. The TACs for DoD-WHS accounting purposes are constructed as follows: 1st Position Code "H" Is a constant. Is assigned by Defense Logistics Agency. Identifies DoD-WHS and Defense Agencies (other than DLA, which has TAC codes provided by chapter 8 this regulation). 2d Position Code "D" Is a constant. Is assigned by DoD-WHS. Identifies, as a group, DoD-WHS, OJCS. DARPA, AFIS, DSAA, and DoDDS. 3d Position Code "A" Is assigned by DoD-WHS. Identifies DoD-WHS as an organization to be charged. Code "B" Is assigned by DoD-WHS. Identifies OJCS. Code "C" Is assigned by DoD-WHS. Identifies DARPA. Code "D" Is assigned by DoD-WHS. Identifies AFIS. Code "E" Is assigned by DoD-WHS. Identifies DSAA. Code "F" Is assigned by DoD-WHS. Identifies DoDIG. 4th Position Code "A" Identifies Appropriate Account 97 0100. Code "B" Identifies Appropriate Account 97 0300. Code "C" Identifies Appropriate Account 97 0400. Code "D" Identifies Appropriate Account 97 0450. Code "E" Identifies Appropriate Account 97 111080.

Identifies Appropriate Account 97970100.30.

(b) TAC Coordination/Assistance. The following TAC coordinator has been established to provide assistance with TAC assignment problems:

DoD Washington Headquarters Service (WHS) Installation Accounting Division Room 3B269, The Pentagon Washington, DC 20301-1155
Telephone: DSN 224-0987
Commercial (202) 614-0987

(c) Billing Addresses. The following TACs are applicable to OSD, OJCS, DARPA, AFIS, DSAA, and DoDDS. No transportation activity has the authority to arbitrarily use a TAC listed below without prior approval of DoD-WHS. Approval may be obtained by electronic message or telephone (202) 614-0987 or DSN 224-0987. After approval has been received for the use of a specific TAC, an advance copy of the actual shipping document must be forwarded to DoD-WHS. Any deviations will result in the charges for all transportation costs being rejected for payment by this activity.

- (2) Defense Information Systems Agency (DISA) TACs.
 - (a) DCA TAC composition consist of the following:
 - 1 The first digit (rp 64) is alphabetical. "H" identifies the miscellaneous DoD Agencies.
 - 2 The second digit (rp 65) is alphabetical. "A" identifies the DISA.
- 3 The third digit (rp 66) is numerical and identifies the fiscal year of the funds to be charged. In the example, subparagraph 4 below, the fiscal year is shown as FY 86.
- 4 The fourth digit (rp 67) is alphabetical and identifies the disbursing office to be billed for transportation charges applicable to the DISA activities shown in paragraph B.10.(2)(c). In the example below, the disbursing office servicing DISA headquarters is shown.

SECTION B. STANDARD TACS

1. Logistics Material.

a. First Destination Transportation (FDT). Transportation of newly manufactured material from vendors or Department of Defense industrial activities is chargeable to FDT accounts. For shipments from commercial vendors, cite the TAC that corresponds to the appropriations listed in paragraphs 1.a.(1) through 1.a.(13). For shipments from Navy industrial activities, cite the industrial activity TAC listed in paragraph 1.a.(14). Unless otherwise specified or excepted, the Subheads listed will be considered as covering a series. For example, Subhead 2300 includes all Subheads beginning with ".2301" up to and including ".2399." Navy stock point procurements require that the budget project be identified (see paragraph 2.a.). Appropriations listed below are in numerical order as are the Subheads within appropriations. FDT Transportation of Nonappropriated Fund material is chargeable to the TACs listed in paragraphs 3.a. through 3.b.

(13) Asset Capitalization Program (ACP). The funding authority for the ACP was transferred by Congress from the industrial funds to the procurement appropriations. This means the procurement appropriations will fund transportation costs incurred in the procurement of ACP equipment. FOB destination costs should already be included in the contract price. FOB origin costs, however, are paid separately by use of

a TAC code. In order to properly charge FOB origin costs to the ACP procurement lines, one TAC code per major claim was established in FY90. Refer to decision table for further guidance. (See section A, paragraph 4.c.(2).)

(14) Industrial Activities. Industrial activity fabricated, assembled, or produced material is considered new procurement. Shipments of vendor-supplied material to Navy Industrial Activities is considered to be an FDT cost chargeable to the FDT TAC of the requisitioning activity as indicated below. Transportation of finished products from the industrial activity to the end-use activity is also chargeable to the activity FDT TACs listed below. Multi-stage shipments of produced material or equipment requiring additional machining, testing, modification, etc., before reaching ultimate point of Navy use or storage, is FDT. These TACs are also used for organic material shipments, and HHG or POV shipments when DBOF funded.

b. Second Destination Transportation (SDT)

(1) Stock Points. Shipments of Stock Account odd-cog material from Navy stock points and class 207/224 mobile units will be charged to the unique TACs shown below. The TACs may only be used when

issuing stock account material on material release documents (DD Form 1348-1) in response to customer requisitions, ICP directed redistribution actions or non-ATAC returns to an overhaul point. Transportation officers who perform shipment services for customers offering organic or unit-owned material for shipment (material not held on the stock records of the stock point supply officer) will cite the TAC of the activity directing the shipment on all non-stock account material shipments (see section B, paragraph 4.a.).

For Aviation Supply Office managed stock repairable, the TAC is NASO.

For Ships Parts Control Center managed stock repairable, the TAC is NSPC.

For repairable shipments under the ATAC program: Retrograde shipments of NRFI Deport Level Repair (DLR) to an ATAC hub should be charged as follows:

For NRFI DLR to west coast hub, cite TAC N929.

For NRFI DLR to east coast hub, cite TAC N935.

(2) SDT shipments of Navy even-cog stores account material issued by a stock point to a Navy activity will cite an even-cog TAC in series N102 to N157 as listed below. SDT shipments of Navy even-cog material to another service (service codes other then N, V, R, or Q) will be charged to the transportation funds of the other service.

Even-cog Stores Account Material Account Codes

The following even-cog, stores account material list is provided in material (cog) sequence and specifies the SDT TAC for these commodities. The correct Navy cog will appear in the block 15 of DD Form 1348-1A¹ requisitions. Further description of cogs may be found in NAVSUP, volume II, paragraph 21148.

Navy-owned military ordnance readiness equipment and associated support material assigned above 50 CAL/40mm and assigned to Coast Guard Units in support of Navy missions	N082
Project ZAGREB	N961

2. Stock Point Purchased Material

a. Transportation of material purchased from a vendor for delivery to a Navy stock point for stock is chargeable to the following FDT TACs. While stock points are encouraged to buy "L" acquisition advice code material for stock on an FOB destination basis, the following TACs may be used for such acquisitions when material is purchased on an FOB origin basis. The budget project determines the TAC and is the first two digits in the BCN. For example: "97X4930.NC1A 000 14000" is the partial accounting line for DBOF appropriation.

14000 represents the BCN field and indicates that "14" is the appropriate budget project. As shown on the next page, the corresponding TAC is N901.

NOTE: NC1A denotes DBOF, Supply Management Material.

- 4. <u>Organic Material/Personal Property</u>. Civilian Personal Property and Organic Material Shipments. The TACs listed by appropriation and Subhead sequence in the paragraph below will be used for HHG/POV movement of civilian personnel where PCS travel orders cite the appropriations and Subheads indicated. The BCN shown in parenthesis after the Subhead must be considered before assigning a TAC. These TACs may also be utilized for the transportation of organic equipment/excess-surplus material shipments directed or requested by the activity. (See section A, paragraph 1.b.(4) for a definition of organic material.)

SECTION B. GENERAL

- 1. <u>General Information</u>. This chapter provides definitions, instructions, and other information pertaining to the assignment of DLA TACs.
 - a. Reference: DLAM 7000.1
 - b. Definitions:
- (1) First Destination Transportation (FDT). This is transportation of DLA *DBOF* material from the contractor to the first point of use or storage:
 - (a) Contractor to DLA depot
 - (b) Contractor to CONUS port
 - (c) Contractor to CONUS customer
 - (2) Second Destination Transportation (SDT) for DLA DBOF material includes:
- (a) Shipment from a distribution depot to the CONUS customer, to a Containerization Consolidation Point (CCP), or to a point for transshipment to another carrier for overseas shipment.
- (b) OCONUS transportation that originates at a DLA Distribution Depot to an OCONUS port or breakbulk point.
 - (c) Vendor shipments from a CONUS port to an OCONUS port.
- (d) Material returns from OCONUS when approved by the inventory manager. **DLA TACs** or transportation funds will not be cited on return shipments. Once the material is received by the depot and meets the criteria for the authorized return, the customer will be refunded the transportation.
 - 2. Nonsignificant TACs. Shipping activities are not authorized to use the DLA nonsignificant TAC.
- 3. <u>TAC Construction for the majority of items managed and shipped by DLA</u>. TACs relative to the movement of DLA material are generally constructed as follows:
- a. First Character. The alpha "S" is used to identify Defense Logistics Agency owned and/or sponsored material.
- **b.** Second Character. The numeric "1" is used for revolving fund (DBOF) shipments. The numeric "3" is used for household goods. The numeric "4" is used for DRMS shipments. The numeric "5" is used for the movement of **non-DBOF** equipment and supplies.
- c. Third Character. For DBOF shipments, alphabetic characters denote the Military Service or Agency which owns the material: "A" Army, "N" Navy, "F" Air Force, "M" Marine Corps, "P" Container Consolidation Point, and "L" DLA. For non-DBOF items, this position should indicate the fiscal year of the appropriation.
- d. Fourth Character. The alphabetic character which represents the DLA Distribution Region or other activity to be charged. Valid codes for DLA shipments are as follows:

- "A" Defense Finance and Accounting Service Columbus (includes general operating supplies and equipment and personal property household goods).
- "C" Defense Distribution Region, West (includes all shipments from distribution sites west of the Mississippi River).
 - "I" Defense Contract Management Command International
- "M" Defense Distribution Region, East (includes all shipments from Distribution Sites East of the Mississippi River).
 - "P" Defense Personnel Support Center
 - "S" Defense Reutilization and Marketing Service

NOTE: Except for special TACs assigned in section C, only the above are valid fourth position characters.

4. <u>DLA TAC Coordination/Assistance</u>. The following office has a TAC coordinator who can provide assistance in unusual TAC assignment situations or ones which cannot be resolved *through use of* this chapter. This office will also coordinate establishment or modification of all TACs.

Headquarters, Defense Logistics Agency ATTN: Financial Systems and Control (FOX)

Cameron Station

Alexandria, VA 22304-6100 Telephone: (DSN) 284-6221/6481

(703) 274-6221/6481

SECTION C. SPECIAL TACS

These TACs are applicable to special situations, including worldwide subsistence, fuel, and other commodities.

- 1. TACs for Support of Defense Commissary Agency (DeCA):
- A811 Subsistence shipments to Army consignees in Saudi Arabia (see chapter 2)
- STCO Supplies and equipment in support of commissaries in overseas areas
- STCP Service contracts for airlift on behalf of DeCA
- S1HP Subsistence shipments from U.S. ports or overseas vendor sources directly to Defense Commissaries for RESALE
- S1WP Subsistence shipments from overseas DLA storage points to DeCA
- S1XP Subsistence shipments from overseas vendors to overseas Defense Commissaries for RESALE

TCCs will submit bills for the above TACs based on the letter in the final position of the TAC. **Billing** information is in Section D of this chapter.

2. TACs for Subsistence Shipments:

- SFVP Shipments of fresh fruits and vegetables (military airlift charges only) (DPSC)
- S1AP Subsistence shipments from U.S. ports or overseas vendor sources directly to Army overseas for TROOP ISSUE
- S1DP Subsistence shipments from U.S. ports or overseas vendor sources directly to Navy overseas for TROOP ISSUE
- S1JP Subsistence shipments from U.S. ports or overseas vendor sources directly to Air Force overseas for TROOP ISSUE
- S1NP Subsistence shipments from U.S. ports or overseas vendor sources directly to Marine Corps overseas for TROOP ISSUE
- S1QP Subsistence shipments overseas to non-DoD Federal Agencies
- S1RP Shipments from CONUS ports to Alaska and Hawaii, including port handling costs and inland transportation in Alaska for RESALE
- S1SP Shipment from CONUS ports to Alaska and Hawaii, including port handling costs and inland transportation in Alaska for TROOP ISSUE
- S1UP Subsistence shipments from U.S. ports to overseas DLA storage points, or subsistence shipments to a storage point from overseas vendor sources, or subsistence shipments between DLA storage points overseas

3. TACs for Defense Distribution Regions:

S1AM		S1AC
S1FM		S1FC
S1LM		S1LC
S1MM	(effective FY 95)	S1MC
S1NM	•	S1NC
S1PM		S1PC

4. <u>Equipment and supplies TACs</u>. TACs for OCONUS shipment of supplies and equipment *in support of DLA activities*:

S**A1	Defense Finance and Accounting Service
S**I¹	Defense Contract Management Command International
S**P1	Defense Reutilization and Marketing Service
S**S1	Defense Personnel Support Center

5. <u>IPE TACs</u>. TACs for IPE shipments to a storage site or user will be requested from the Defense General Supply Center (DGSC-A). The shipper assigning this TAC must send a copy of the DD Form 1348-1 and the TCMD for the shipment to the following address:

Defense General Supply Center

ATTN: DGSC-A

Richmond, VA 23297-5000

6. <u>Shipments to Alaska and Hawaii</u>. TACs for vendor shipments from CONUS port to OCONUS port (including Alaska and Hawaii):

S1CC	Defense Construction Supply Center
S1EE	Defense Electronics Supply Center
S1GG	Defense General Supply Center
S1KK	Defense Industrial Supply Center
S1MP	Defense Personnel Supply Center (Medical)
S1TP	Defense Personnel Supply Center (Clothing and Textiles)

When mixed shipments of DLA commodities are shipped in SEAVANs to Alaska or Hawaii, each TX4 (Shipment Unit) record must designate the proper TAC that describes the shipment. The TX4 record will indicate the total pieces, weight, and cube of the DLA TAC for each DBOF commodity shipped in the SEAVAN.

¹ The asterisk in the second position denotes the type of material (see paragraph B.3.c). The asterisk in the third position denotes the fiscal year chargeable to shipment.

The combined total pieces, weight, and cube of all TX4 records must be shown in rp 68 through 80 of the TX2 (Prime SEAVAN Data) record.

7. Personal Property TACs:

- a. Military/dependents Not applicable
- b. Civilian/dependents Household goods:

S3*A² Other DLA Employees

S3*S² Defense Reutilization and Marketing Service

S3*I² Defense Contract Management Command International

² The asterisk in the third position will indicate the fiscal year of the appropriation.

SECTION D. BILLING INFORMATION

1. <u>General Billing Information</u>. Generally, billings will be sent to the Distribution Region or Inventory Control Point that ordered the movement to allow certification of the bill for payment by DFAS-Columbus. The fourth position of the TAC indicates the activity to certify billings as follows:
